Dear Mr. Stephan:

We have your letter, of March 12, 1970, and the amendment to the above numbered permit. You stated in your letter that you do not wish to change the amount of land to be irrigated only the location. The amendment, however, lists the total number of acres to be irrigated as 60 acres and the permit was issued for only 40 acres. An amendment cannot be approved for more acres than that covered by the original permit. We are enclosing a copy of the original permit along with a new amendment form for your convenience.

Re: Permit No. G-32372 (New No. 36-2613)

William MacLeod
R. F. D.
Eden, Idaho

Dear Mr. MacLeod:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit ~~and are now submitting proof of beneficial use~~. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Dear Mr. Shirley:

Thank you for your letter of November 12, 1968 concerning the above referenced permit. Due to the fact that there is a proposed expansion, we feel that it would be best for Mr. MacLeod to file a new application to cover the additional land other than SE 1/4, sec. 35, T. 9 S, R. 18 E, B.M. which is now covered under Permit No. 32372. Therefore, we are returning your application for amendment and Mr. MacLeod's personal check in the amount of \$5.00. Please forward these to his attention.

It is noted that the application for amendment proposes to change the point of diversion. If Mr. MacLeod still desires his change in the point of diversion, you may return the application, less the land list amendment proposed under Item 3. Enclosed are additional amendment forms and an application form for your use.

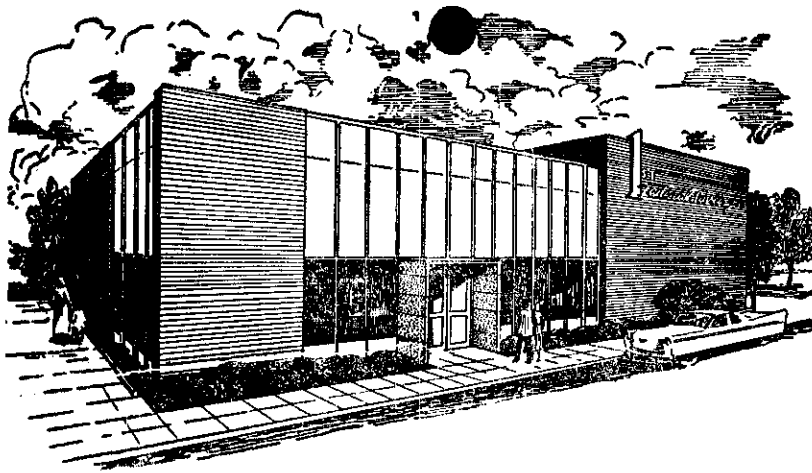

Please contact us if we may be of further assistance.

Mr. Donald W. McEldowney, Examiner,

Boise, Idaho.

Dear Mr. McEldowney;

Mr. Willism MacLeod has just left the office and has asked me to reply to your letter relating to amending his Permit, No.32372.

It seems that in giving me the description that could be irrigated, he included the $N\frac{1}{2}NE\frac{1}{4}$ Sec.35, Twp.9 So. Range 18 East;

He now advises me that there is no land in the said $N\frac{1}{2}$ which is being farmed ($N\frac{1}{2}NE\frac{1}{4}$) but that the only way to get water from the pump to the $S\frac{1}{2}NW\frac{1}{4}$ is through this canal; and this 80.acres can be eliminated.

He is the record owner of all of the $N\frac{1}{2}$ of said Sec.35 - so there is no question of right-of-way.

If you prefer to have a new application for permit, please send me a copy, and I will have it completed, and will have him have another plat attached.

Yours truly,

Shirley

Dear Mr. MacLeod:

We are in receipt of your personal check in the amount of \$5.00 and your application to amend the permit. Please be advised the Department can consider and process your application for amendment to the point of diversion. However, the land list amendment which you have proposed indicates an expansion of the lands originally included under your permit.

You should be advised that it is the policy of the Department of Reclamation not to approve amendments which tend to expand the original permit. If you wish, you may rearrange the 40 acres under the original permit; however, the Department will most probably not approve any expansion in connection with this permit.

It would be more practical for you to file a new application for permit to cover the balance of the land you intend to irrigate. May we hear from you as to your intentions in this matter?
