Re: Permit No. G-32285

C. R. Pilkinton
Routell
Wendell, Idaho

Dear Mr. Pilkinton:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Dear Mrs. Miller:

In response to your letter of November 25, 1968, the Department has reviewed Permit No. G-32285. Prior to the issuance of a water license and establishing of a water right, proof of beneficial use of the water as indicated under Permit No. G-32285 must be completed on or before March 26, 1970. If the applicant is ready to submit proof at this time, please advise us and we will transmit the necessary proof of beneficial use forms.

As to your question about the new application for a well in the NE1/4, sec. 34, T. 8 S, R. 14 E, B.M., as the well was drilled in 1954, and if it was beneficially used thereabout, the applicant should be entitled to a priority somewhere near 1954. If he files an application for permit at this time, the only date of priority that he is entitled is the date of filing.

A more practical solution to the problem at hand would be for the applicant to file a claim on a water right as indicated in Section 42-225a of the Idaho Code. We are enclosing forms for your consideration or for filing. You should be advised that there exists no way in which to perfect this claim, however, it serves as a good basis for recording the information that the applicant has about his historical use of the water.

You may, if you desire, submit the application for permit with the understanding that the 1954 priority will not be available under the application. If the permit application is to be returned, a filing fee must accompany the application. The fee for 1.5 cubic feet per second is \$25.00. Please add the additional information on the application as indicated by the instruction sheet.

Very truly yours,

Donald W. McEldowney

Gentlemen:

Re: C. R. Pilkinton, Wendell, Idaho

Mrs. Loretta Strickling started action in regard to Permits and Proof of works on the two wells that Mr. Pilkinton has on his farm. She has asked me to complete this.

As far as I can determine Permit #G 32285 for the well located on the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 33, Twp. 8S, Range 11 $\frac{1}{4}$ EEM is in order. If anything more is needed, please let me know.

We are enclosing application for permit for the well located on the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 34, Twp. 8S, Range 11 $\frac{1}{4}$ EEM. This well was drilled in 1954 and has been in use since then, but due to a misunderstanding on the part of the tenant at that time no application for a permit was made at that time. Would it be possible to go back to that time to establish a priority date?

Will you please advise whether or not Mrs. Strickling has sent in the fee for this or, if not, what we should send. If anything further is needed, please let me know.

Gentlemen:

RE: C. R. PILKINTON
PERMIT NO. 32285

Thank you for your letter of January 17th. Description of the property is as follows:

~~E $\frac{1}{4}$ NE $\frac{1}{4}$~~ , Section 33, T. 8 S. R. 14 E.B.M. and
the NW $\frac{1}{4}$, Section 34, T. 8. S. R. 14 E.B.M.

However, as far as we can determine from here, no permit was ever obtained for the first well which has been in use for several years and put into use by Mr. Nieffenegger when he was leasing the place. Also we believe no well logs were ever filed on these wells with your department. We are attempting to obtain these. If you do find well logs, we would like photo-static copies, please.

Will you please send the necessary papers for filing permit on the one well.

I realize laws pertaining to wells were changed for the beginning of 1967 so I would like copies of the new instructions on filing for permits and also for proving up, etc. which you have been using during 1967.

Thank you.

Sincerely,

Loretta Strickling
