Gentlemen:

On August 17, 1970 the Farmers Home Administration County Office at Gooding, Idaho closed a Real Estate loan for Willis and Iona Anderson to purchase the S $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 12, Twp. 8 S, R 14 EBM from a contract holder which had right, title and interest conveyed from Glen C. and Myrna Anderson.

This transaction then established sole and exclusive title to any water licenses issued in connection with that land.

It was a loan closing condition that we make certain that Glen and Myrna Anderson convey their undivided rights and interest to the well under Permit No. G-31897, giving all rights and interest in the well to Willis and Iona Anderson.

We have obtained an "Assignment of Idaho Water Permit No. G-31897" from Glen and Myrna Anderson giving their remaining rights to Willis and Iona Anderson. According to your letter of January 6, 1971 to Mr. Willis Anderson, we trust that the enclosed Assignment is sufficient to have the permit assigned to one license in the names of Willis Anderson and Iona Anderson, husband and wife.

Dear Mr. Anderson:

Pursuant to your request of November 1970, we are prepared to issue two water licenses - one in the name of Glenn C. Anderson, and the other in the name of Willis and Iona Anderson. The reason for our November 12, 1970 letter and the two proposed licenses is that the permit was assigned and is now in two separate portions. In order for the department to issue one license in your name, you would have to have Glenn C. Anderson assign his portion of the permit to you. We are withholding issuance of the licenses for ten (10) days and request that you submit an assignment from Mr. Glenn C. Anderson on his portion of the permit or advise us that you have no objection to the two licenses, which you would control anyway. Please advise us as soon as possible as to your actions in this matter.

You should bear in mind that the name on the document has little value, for if you hold title to the land, you will hold title to any water licenses issued in connection with that land.

Dear Mr. & Mrs. Anderson:

We received your recent letter concerning Permit No. 36-2590 (G-31997).

In a review of the file we find that a Water License has been issued to Mr. Glen C. Anderson for the entire permit. Now it is apparent that separate licenses should have been issued with Mr. Glen C. Anderson obtaining one-half the present license and your obtaining the other one-half. We will attempt to correct this situation by recalling the original license and re-issuing two separate licenses.

A water right that is licensed becomes appurtenant to the land and is therefore passed on to the new owners. Therefore, you apparently now have control of the entire water right if you own the 121 acres within the SW $\frac{1}{4}$ Sec. 12 that is covered by the Water License.

I hope this oversight has not caused you any inconvenience.

Dear Mr. Anderson:

Upon reviewing the above numbered file, we find that the Water License which we issued in your name on March 13, 1969 was issued in error. Since you had assigned one-half of your permit to Willis and Iona Anderson, it is apparent that two separate licenses should have been issued with Willis and Iona Anderson obtaining one-half the present license and your obtaining the other one-half. We will attempt to correct this situation by recalling the original license and re-issuing two separate licenses. We would appreciate your returning the original license which we mailed to you on March 13, 1969 in order that we can make the necessary corrections.

Dear Mr. Dixon:

This letter is in reference to your letter of January 2, 1969, regarding the examination of works covered by the above referenced permit.

The acreage was determined by the examiner by verifying the ground irrigated with reference to a recent ASCS photo copy and then measuring to within the nearest acre by use of a scaled acreage grid. The quantity of water was measured by use of a pygmy current meter. A cross section of the volume of water in the open ditch was multiplied by the velocity in feet per second.

One miner's inch per irrigated acre is all that can be allowed by statute, unless the appropriator can show cause why more than one miner's inch per irrigated acre is needed.

Please contact the Department if you have further questions.

Very truly yours,

Dean R. Reynolds

Dear Sirs;

this is in reference to your letter to
Mr. Glen C. Anderson dated 12/26/68 in reference
to permit # G-31897

I have purchased $\frac{1}{2}$ of 160 acres in
question from Mr. Anderson. Now we would
like to know how the amount of water beneficially
used, was obtained. We also think that there
are more than 121-acres under irrigation.

would you please inform us so we
can get these misunderstandings cleared up.

Sincerely yours.

Mr. Willis Anderson
Route #1
Wendell, Idaho 83355

Dear Mr. Anderson:

The above numbered permit is still in Mr. Glen Anderson's name. If he has sold the well covered by the permit to you and Mr. Dixon this permit should be assigned. We are enclosing forms for this purpose. Fifty percent should be assigned to you and the rest to Mr. Dixon. These forms have to be signed by Mr. Anderson.

The proofs are due prior to May 22, 1969, if you are using the water at this time and Mr. Dixon is using his half you can make proof. We have the forms available for this purpose. After the permit is assigned to you, you can make the proofs, then after an inspection is made by our field engineer a license can be issued.

If we can be of further assistance please feel free to contact this office.

Dear Mr. Thomas:

I am returning my application for permit to you. I hope it will be acceptable now. I am afraid that I did not understand some of the questions so, I would appreciate any help you can give.

I do intend to irrigate 160 acres in the SW $\frac{1}{4}$ of Sec 12.

Thank you very much.

Yours truly,

RE: Application for Permit

Glen C. Anderson
Rt 1
Wendell, Idaho

Dear Mr. Anderson:

Returned herewith is your application for permit with attached check for \$5.75.

You show the point of diversion as SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 12, T. 8 S., R. 14 E., B. 1 N. The map does not show a scale, however if you intend to irrigate the SW $\frac{1}{4}$ of the section, the well is shown as the center of the W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 12.

Your answer under 12 is in error. I have pencilled in an answer, assuming irrigation of 160 acres in the SW $\frac{1}{4}$, Sec. 12.

You have not answered 13.

Kindly correct as necessary and return with the filing fee.

Very truly yours,

RALPH W. THOMAS
