Gentlemen;

This pump evidently pumps in excess of amount of water permitted. As far as we know there is no way to pump less water without changing motor. We had contemplated putting additional land under the pump.

Are we correct in assuming we will be within the limit if we do not exceed acre ft. Thank you.

Gentlemen:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the ~~Gooding Leader~~ all submitted in proof of completion of works and beneficial use on Permit No. ~~G-31733~~.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Dear Sir:

We are returning your application for some corrections and clarification. We call your attention to the following items on Form No. 3:

Item 10 - You have a maximum of 5 years to prove completion of works and application of water to beneficial use. You may make proof any time prior to that date if you wish.

Item 12 - Each square represents a 40-acre subdivision. We have indicated in red how this should be shown. Sketch map, Form No. 0, corresponds to Item 12. We have also indicated how this should be completed. Please draw the map again and fill in the correct irrigable acreage in each 40-acre subdivision under Item 12 on page 2.

After making the corrections called for, return the application to us for approval.
