Dear Mr. Brown:

We have received your correspondence regarding The Mutual Life Insurance Company of New York's security interest in water rights appurtenant to property now owned by Jefferson and Jacqueline Hunt, Bruce and Rebecca Pincock and H & P Farms.

Ownership changes for claims in the Snake River Basin Adjudication must be recorded, therefore, copies of your letter and attachments have been forwarded to the Adjudication Bureau for updating of their records.

Such updates are not required in our water right processing, thus copies of your documentation have been placed in our paper files for future reference only. The addition of a lienholder into our computer system serves little purpose and correspondence which would be generated on these rights from our processing staff likely would have no application for a lienholder.

In the future, you can direct this type of correspondence directly to the Adjudication Bureau.

If I can be of further assistance, please feel free to contact me.

Sincerely,

for *Sharla Curtis*

Water Rights - Lienholder's Interest

Gentlemen:

The Mutual Life Insurance Company of New York (MONY) has closed a loan transaction with Jefferson F. Hunt and Jacqueline L. Hunt, husband and wife, Bruce W. Pincock and Rebecca L. Pincock, husband and wife, and H & P Farms, a Partnership. In connection with said loan transaction, MONY has mortgaged certain real estate owned by Jefferson F. Hunt and Jacqueline L. Hunt, husband and wife, Bruce W. Pincock and Rebecca L. Pincock, husband and wife, and H & P Farms, a Partnership, and taken a security interest in the water rights appurtenant to and used in connection with said real property.

It is my understanding that State of Idaho Department of Water Resources now has all water rights on a computer system and that a notice of MONY's security interest will be entered into that system. For your use, I now enclose duplicate copies of the legal descriptions for the real property encumbered by MONY's mortgage and the water rights appurtenant thereto. It is my understanding that one copy will be dated the day that you receive it and returned to me to acknowledge receipt, and that the second copy will be retained by your department for your file.

The lienholder's name and address to be registered in you system and used for all required notifications and correspondence is as follows:

Dear Mr. Blandford:

We have received your letter of April 18, 1972. We wish to inform you that Water License No. 31417/36-2578 has been licensed and we are enclosing a copy.

You will note that the license was issued in the name of Jones Livestock Company. The Department received a conveyance from Joan J. & Virgil Coulson, to Jones Livestock Company, in January of 1970. We cannot consider the assignment you have submitted from the Coulsons, to Jones Livestock Feeding Company.

The Department also does not have any processes for changing the name on a license. We feel that whoever owns the real estate covered by the license, controls that water right and evidence of ownership of the property is sufficient for any uses that the owner may wish to make of the property.

Very truly yours,

Re: Permit No. G-31417.

Gentlemen:

In 1968 my client, Jones Livestock Feeding Co., an Idaho corporation, Eden, Idaho, purchased lands in Jerome County from the Coulsons. The enclosed assignment of the above permit has been in escrow since that date.

If the water license has not been issued, please record this assignment and bill me for the fee. In this event I would like to know the date when final proof of application to beneficial use is due.

It may be that Harley McDowell's office submitted final proof, in which event please return the enclosed assignment and let me know the date of the license and the number of c.f.s. appropriated.

Thank you.

Dear Mr. & Mrs. Coulson:

We are in receipt of your letter of December 16, 1969. You stated in this letter that you have sold your property to Jones Livestock Company. We have thoroughly searched this file and we can not find an assignment of this permit to Jones Livestock Company. An assignment form was sent to you by request on February 15, 1968, but we did not receive the signed assignment. We are, therefore, enclosing another assignment form for your use. You should sign this form before a notary public and return it to this office, at which time, we will bill Jones Livestock Company for the \$17 licensing fees. We are also enclosing your check in the amount of \$17 which you sent in payment of these licensing fees.

Dear Mr. Higginson,

In reply to your letter dated 12/11/69 regarding Permit no. G-31417/36-2578. The land on which this water is diverted was sold to Jones Livestock Co., Eden, Idaho on Feb. 6, 1967. It seems to me I signed a transfer of that permit to the company at that time. I didn't submit the fee because I thought they would be billed. Nevertheless, I am enclosing the \$17.⁰⁰/₁₀₀ licensing fee to comply with the January deadline and suggest that you get in touch with the present owners as the permit should be issued in their name. Also check to see if the permit is issued and registered in both names.

Sincerely,

Re: Permit No. G-31417
Joan J. & Virgil Coulson

Mr. & Mrs. Virgil Coulson,
Rt. #2, Box 157,
Paul, Idaho.

Dear Mr. & Mrs. Coulson:

We enclose Permit No. G-31417 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

By this same mail, we have sent to the Bureau of Land Management ^{four} ~~two~~ copies of this permit, ~~two~~ of which ~~have~~ been certified, to be used in connection with the Desert Land Entry filed in that office. A copy of that letter is enclosed.

We also enclose Departmental Receipt No. G-8285 which was issued covering payment in the amount of \$ 10.00, which includes \$ 5.00 for the filing fee and \$ 4.00 for the copies sent to the Bureau of Land Management.

Well logs are an important part of your recorded water right and State Statutes require that well drillers supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.

Very truly yours,
