Re: Permit No. G-31278
Lucille C. Comstock

Dear Mr. Higginson:

Mrs. Lucille C. Comstock, a widow, who is the holder of the above permit, at the time of making her original application for permit had a desert entry for the following-described real property, to-wit:

E $\frac{1}{2}$ SE $\frac{1}{4}$ of Sec. 33;
N $\frac{1}{2}$ S $\frac{1}{2}$, and SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 34, all in Twp. 8 S.,
Rge. 22, East, Boise Meridian.

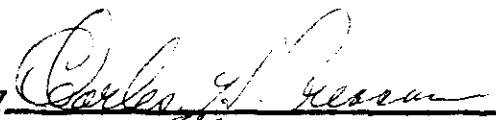

Mrs. Comstock has relinquished all except the N $\frac{1}{2}$ SE $\frac{1}{4}$ of Sec. 34, and has obtained a patent for the part she did not relinquish, which has been duly recorded in Minidoka County.

She desires to make proof of the application of the water to beneficial use, and in view of her relinquishment of the balance of the desert entry I assume she is entitled only to such quantity of water as is necessary to irrigate the 80 acres. Would you kindly forward us the proper forms so that we might proceed to make final proof in this regard. Thank you for your consideration.

Mrs. Lucille C. Comstock,
417 H. St.,
Rupert, Idaho.

Dear Mrs. Comstock:

We enclose Permit No. G-31278 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

By this same mail, we have sent to the Bureau of Land Management two copies of this permit, one of which has been certified, to be used in connection with the Desert Land Entry filed in that office. A copy of that letter is enclosed.

We also enclose Departmental Receipt No. G-8129 which was issued covering payment in the amount of \$ 8.25, which includes \$ 6.25 for the filing fee and \$ 2.00 for the copies sent to the Bureau of Land Management, was given to you while in our office.

Well logs are an important part of your recorded water right and State Statutes require that well drillers supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.
