Dear Mr. Brown:

We have received your correspondence regarding The Mutual Life Insurance Company of New York's security interest in water rights appurtenant to property now owned by Jefferson and Jacqueline Hunt, Bruce and Rebecca Pincock and H & P Farms.

Ownership changes for claims in the Snake River Basin Adjudication must be recorded, therefore, copies of your letter and attachments have been forwarded to the Adjudication Bureau for updating of their records.

Such updates are not required in our water right processing, thus copies of your documentation have been placed in our paper files for future reference only. The addition of a lienholder into our computer system serves little purpose and correspondence which would be generated on these rights from our processing staff likely would have no application for a lienholder.

In the future, you can direct this type of correspondence directly to the Adjudication Bureau.

If I can be of further assistance, please feel free to contact me.

Sincerely,

for Sharla Curtis

Water Rights - Lienholder's Interest

Gentlemen:

The Mutual Life Insurance Company of New York (MONY) has closed a loan transaction with Jefferson F. Hunt and Jacqueline L. Hunt, husband and wife, Bruce W. Pincock and Rebecca L. Pincock, husband and wife, and H & P Farms, a Partnership. In connection with said loan transaction, MONY has mortgaged certain real estate owned by Jefferson F. Hunt and Jacqueline L. Hunt, husband and wife, Bruce W. Pincock and Rebecca L. Pincock, husband and wife, and H & P Farms, a Partnership, and taken a security interest in the water rights appurtenant to and used in connection with said real property.

It is my understanding that State of Idaho Department of Water Resources now has all water rights on a computer system and that a notice of MONY's security interest will be entered into that system. For your use, I now enclose duplicate copies of the legal descriptions for the real property encumbered by MONY's mortgage and the water rights appurtenant thereto. It is my understanding that one copy will be dated the day that you receive it and returned to me to acknowledge receipt, and that the second copy will be retained by your department for your file.

The lienholder's name and address to be registered in you system and used for all required notifications and correspondence is as follows:

Dear Ms. E. Thomason, and Ms. P. Thomason,

RE: Water Right No. 36-2573

In response to receiving the Assignment of Permit on License 36-2573, the Department has no provisions for changing licensed water rights ownership without filing a transfer. However, transfer applications are only used when a water right owner wants to change the place of use or point of diversion. I assume that this is not being done.

In Idaho a licensed water right is considered real property and ownership to the water right is acquired when the property to which the water rights is appurtenant is purchased. Therefore, the proof of ownership to the water rights is evidenced by the deed to the property.

I hope this explanation will satisfy any concern you may have about your water right. If you have any further questions please let me know.

Sincerely,

ROBYN HAMPE

Dear Mr. Blandford:

Permit No. G-31106, priority April 29, 1963, claims 4.0 c.f.s. from a well in the SW~~1~~/~~4~~ NW~~1~~/~~4~~, Sec. 13, T. 9 S., R. 20 E., B.M. to irrigate the NE~~1~~/~~4~~ NW~~1~~/~~4~~, Sec. 14, T. 9 S., R. 20 E., B.M.; W~~1~~/~~2~~ NW~~1~~/~~4~~, Sec. 7; SW~~1~~/~~4~~ NW~~1~~/~~4~~, Sec. 18, T. 9 S., R. 21 E., B.M. The SE~~1~~/~~4~~ NW~~1~~/~~4~~, Sec. 18 apparently was not in the Desert Entry.

The holder made the necessary proofs claiming part of the water from the well to irrigate 148 acres in the above described location.

Attention: Mr. Ralph W. Thomas, Deputy
State Reclamation Engineer

Dear Mr. Thomas:

I am enclosing herewith a plat of certain lands owned by my client, Jones Livestock Feeding Co. Those lands outlined in red are owned by the corporation. Desert land entry was made and allowed on the lands outlined in green, but I am not sure that proof has been made on the desert entry.

Also enclosed for your information are copies of two licenses and one permit showing the lands irrigated by three subterranean wells. I want to make proof now under Permit No. G-31737, but I want to be sure that I don't get too large a water right on some of the lands. The deep well to which Permit No. G-31737 is applicable has never been tested, but it is possible the total of 6.4 c.f.s. is actually being pumped and has been applied to beneficial use.

Before I can proceed any further, I need to know what water permit has been applied, or what license has been issued, for irrigation of the desert entry lands. I did not process the desert entry, so I do not have this information.

Thank you for your assistance. As soon as you can give me the above information, I will forward all proof respecting Permit No. G-31737.

Yours very truly,
