NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that
at 2 P. M., on the 28 day of
June 1965, at Rupert, County
of Minidoka, State of Idaho be-
fore Rupert Abstract Co. R.
Balch, Notary Public, at Ru-
pert, Idaho, proof will be sub-
mitted of the completion of
works for the diversion of 3.2
cubic feet per second of under-
ground water from a well, and
of the application to beneficial
use of said water, in accordance
with the terms and conditions
of Permit No. G-31047, hereto-
fore issued by the Department
of Reclamation of the State of
Idaho.

1. The name and postoffice
address of the person or cor-
poration holding said permit is
C. C. Kostenbauder, Rt. 2, Box
128, Paul, Idaho.

2. Said works of diversion
will be fully completed on the
date for such completion, and
the amount of water which
said works are capable of con-
veying to the place of use is
3.2 cubic feet per second.

3. The use to which said wa-
ter has been applied is irriga-
tion, purposes and the amount
applied to beneficial use is 3.2
cubic feet per second.

4. The point of diversion of
said water is SE $\frac{1}{4}$ of the SE $\frac{1}{4}$
of Section 30, Twp. 8 So.;
Range 22 E.B.M. County of
Minidoka.

5. The place where said wa-
ter is used is on the SE $\frac{1}{4}$ of
Section 30, Twp. 8 So.; Range
22 E.B.M. in the County of
Minidoka.

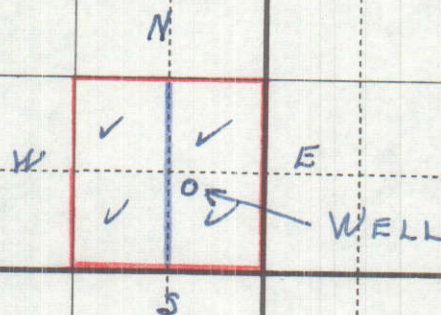

6. The date of priority which
said user is prepared to estab-
lish is March 18, 1963.

To Appropriate the Subterranean Waters of The State of Idaho

- Application No. G- 39132
Permit No. G- 31047
District No.
1. Name of Applicant: C. C. Kostenbauder
Postoffice address: Route #2, Box 128
Paul County: Minidoka State: Idaho
 2. Quantity of water claimed: 3.2 cu. ft. per second or 160 inches
(a) Rate of withdrawal in cubic feet per second or Idaho
Miners' inches or gallons per minute
(b) Annual withdrawal in acre feet per annum
 3. Source of water supply: Subterranean - deep well
 4. Location of point of diversion or well is in the SE 1/4 of the SE 1/4 of Section 30
Twp. 8 So. , Rge. 22 E. , B.M., County of Minidoka
 5. Water is to be used for: Irrigation
 6. If for municipal, industrial or recreational purposes, give:
(a) Point of use of water is in the 1/4 of the 1/4 of Section , Twp.
Rge. , B.M.
(b) Waste water or sewage effluent is to be returned to
at a point in the 1/4 of the 1/4 of Section , Twp. , Rge. , B.M.
 7. Kind of works: Deep well turbine pump and sprinkler system
 8. Estimated cost of works: \$ 23,200.00
 9. (a) Is reservoir to be used? no
(b) Capacity of reservoir:
 10. The time required for the completion of such work and complete application of the water to the proposed use is five years.
 11. If applicant is a corporation, give:
I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
 12. The land to be irrigated is described in the following tabulation:
 13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: none see P-20573
(a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
(b) 3.2 (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

Feb. 25 - 1967

Department of Reclamation

Dear Sirs:-

Enclosed find affidavit which should clear up water rights issued under permit # H-20573. As per our conversation when I visited your office on Feb. 10-67.

As to the amount of water you say I was pumping at the time of field inspection and the amount I would be granted under the permit. I can only say as I told you when I was at your office. I am no water engineer, just a farmer. but 2 different irrigation engineers and one pump man tell me my pump is capable of putting out more water per acre than the law allows. If this is true then I can see no reason why I should be denied what the law allows even tho I wasn't using the full amount at time of inspection. As you are well aware certain crops use more water than others and at another time I might be using a full 160 inches.

As far as I can find out Mrs Morgan is the only survivor of the Julian Clawson Farms and LaBell Larson Estates. Hoping this will clear everything up to your satisfaction.

Very truly Yours,
C. E. Hostenbinder 31047

Re: Permit No. G-31047

C. C. Kostenbauder
Route #2, Box 128
Paul, Idaho

Dear Mr. Kostenbauder:

Your letter of June 20, 1966, stated you would contact the holder of permit No. G-20573 within two months and send us a reply to our letter of June 16, 1966. It has now been 6 months and we are still waiting for your reply. We are enclosing copies of all our correspondence since the field examination in case you have lost your copies.

Our department desires to complete the licensing of permit No. G-31047. If you still do not agree with the results of our field examination, you should submit a written protest stating in detail your objections and request a re-inspection of your system. Also we must have an answer to the problem of the lands licensed under permit No. G-20573, as without the requested affidavit we can only consider the land as licensed within permit No. G-20573. Therefore, if we do not receive a reply to our correspondence by January 3, 1967, we will consider permit No. G-31047 inactive.

Please contact us if we may be of further assistance.

Very truly yours,

Donald M. McEldowney
Field Examiner

Re: Permit No. G-31047

Mr. C. C. Kostenbauder,
Rt. #2, Box 128,
Paul, Idaho.

Dear Mr. Kostenbauder:

This letter is to explain the method of the measurement made on your sprinkler system by the writer.

As you state, the pressure at the pump was to be held to 75 psi, however, at the full open position of the valve, the pressure was almost exactly 75 psi.

You will recall that at the time the measurement was made, there were six lines in operation using 1 1/4" nozzles for the irrigation of grain. You stated at the time that for potatoes you used 8 lines with 5/32 nozzles.

The pressure at the 1 1/4" nozzles averaged about 55 psi which gave a discharge of 139 miners inches. Assuming a nominal additional loss of 5 psi for two more lines with 5/32 nozzles, the discharge was calculated to be 146 miners inches.

We trust this will explain the apparent discrepancies noted in your letters of June 11th and June 20th.

Very truly yours,

DONALD J. WATTS

RECEIVED
JUN 21 1966

Rt. 2 - Box 128
Paul, Idaho.
June 20-66

Department of Reclamation

Dear Sirs: - in answer to your letter of June 16-66
regarding Permit # H-31047 & H20573.

First, the person who can sign an affidavit stating that my 80 ac. in the E $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 30, Twp. 8. S. Rge. 22 E.B.M. has no valid rights now water from the water permit # H20573 is back in Virginia and isn't expect to return to Twin Falls for 2 months. I will contact him as soon as he returns.

Also, while I realize your field man couldn't check all the sprinkler heads on every lateral line he evidently caught the few replacement heads which have 5/32, most of the heads are 11/64 which we use on grain and the 5/32 are used on potatoes.

I am positive the valve on the main line was not open all the way when he took the pressure reading because if he opened it wide the pressure would be so great it would break the riser valves on the main line and I asked him not to open it beyond 75 lbs pressure.

I will contact you as soon as I get the required information on the other permit.

Very truly yours,
C. C. Kosterbaender. 31047

June 16, 1966

Re: Permit No. G-20573
Permit No. G-31047 -

Mr. C. C. Kostenbader,
Route #2, Box 128,
Paul, Idaho.

Dear Mr. Kostenbader:

In reply to your letter of June 11, 1966, our records indicate our field examiner found 160 acres irrigable land located within 4 legal subdivisions. He recorded the system as being a 150 H.P.G.E. Motor No. OUI 210001 with a Wintreath Pump No. 10054, which has a 10" discharge to an 8" sprinkler main line. The sprinkler system, as he found it, had 264 5/32 nozzles operating at an average of 50% P.S.I. The calculation of this measurement equals 2.93 c.f.s. or .91 inches per acre. However, our records indicate the 80 acres in the WMSM, Section 30, Twp. 8 S., Rge. 22 E.D.N., already has .380 inches per acre of water under Permit G-20573, which is licensed under the name of Mrs. Christina May-Assignee- Julian Clausen Farms and LaDell Larsen Estates.

Our field examiner allowed you water for your land as follows:

WMSM, Section 30, Permit G-31047	-	80 inches
Less Permit 20573	-	<u>31.22 inches</u>
Allowable under Permit G-31047		48.78 inches
WMSM, Section 30, Permit G-31047		<u>80 inches</u>
Total allowable under Permit G-31047		128.8 inches

31047

C. C. Kontenbauder
6-16-66
Page 2

If you can provide proof to this office that your 160 acres was purchased from the above listed holders of Permit No. 20573 without any water rights, it is possible we can allow you the additional 17.7 inches your sprinkler system produced at the time of our field examination. This proof must be in the form of a legal document, such as a copy of a deed of sale stating that no water rights were included. It would possibly be easier if you obtained an affidavit from the holders of Permit 20573 stating that your 80 acres in the ~~NESEK~~, Section 30, Twp. 8 S., Rge. 22 E.B.M., has no valid rights nor water from the water permit.

As to the last part of your letter, you ask us to recheck the measurement our field examiner made. He counted 264 risers with sprinkler heads or, in other words, one sprinkler head and riser every 30' of lateral line if, as you say, you have 1/4 mile laterals. The size of the sprinkler heads are reported as 5/32 #30 R.B. operating at an average of 50# P.S.I. The difference between the 75# P.S.I. you claim and the 50# P.S.I. pressure our field man found could be due to the fact that your valve was not open. Please note that we cannot find a chart by any sprinkler manufacturer listing an operating pressure of a sprinkler nozzle over 60# P.S.I. for a 5/32" head. The reason for this is that normally damage to the system usually results from excessive pressure. Therefore, we calculated your system as follows:

264 heads 5/32" #30 R. B. size @ 50# P.S.I. pressure
a 5/32" 30 R. B. @ 50# P.S.I. discharge 4.98 G.P.M.
under ideal conditions;
264 x 4.98 G.P.M. = 1314.72 G.P.M. or approximately
146.08 miners inches;

If you are still not satisfied with our measurement, we can have your system re-examined.

Your prompt attention to this matter will be appreciated.

Very truly yours,

DONALD W. McELDOWNEY
State Water Rights Clerk

Re: Permit No. G-20573
Permit No. G-31047

Mr. C. C. Kostenbauder,
Route #2, Box 128,
Paul, Idaho.

Dear Mr. Kostenbauder:

In reply to your letter of June 11, 1966, our records indicate our field examiner found 160 acres irrigable land located within 4 legal subdivisions. He recorded the system as being a 150 H.P.G.E. Motor No. OUI 210001 with a Wintroath Pump No. 10054, which has a 10" discharge to an 8" sprinkler main line. The sprinkler system, as he found it, had 264 5/32 nozzles operating at an average of 50# P.S.I. The calculation of this measurement equals 2.93 c.f.s. or .91 inches per acre. However, our records indicate the 80 acres in the E1/4SE1/4, Section 30, Twp. 8 S., Rge. 22 E.B.M., already has .380 inches per acre of water under Permit G-20573, which is licensed under the name of Mrs. Christina May-Assignee- Julian Clawson Farms and LaDell Larson Estates.

Our field examiner allowed you water for your land as follows:

E1/4SE1/4, Section 30, Permit G-31047	-	80 inches
Less Permit 20573	-	<u>31.22 inches</u>
Allowable under Permit G-31047		48.78 inches
 W1/4SE1/4, Section 30, Permit G-31047		 80 inches
Total allowable under Permit G-31047		<u>128.8 inches</u>

31047

C. C. Koptenbauder
6-16-66
Page 2

If you can provide proof to this office that your 160 acres was purchased from the above listed holders of Permit No. 20573 without any water rights, it is possible we can allow you the additional 17.7 inches your sprinkler system produced at the time of our field examination. This proof must be in the form of a legal document, such as a copy of a deed of sale stating that no water rights were included. It would possibly be easier if you obtained an affidavit from the holders of Permit 20573 stating that your 80 acres in the E4SE4, Section 30, Twp. 8 S., Rge. 22 E.B.M., has no valid rights nor water from the water permit.

As to the last part of your letter, you ask us to recheck the measurement our field examiner made. He counted 264 risers with sprinkler heads or, in other words, one sprinkler head and riser every 30' of lateral line if, as you say, you have 1/4 mile laterals. The size of the sprinkler heads are reported as 5/32 #30 R.B. operating at an average of 50# P.S.I. The difference between the 75# P.S.I. you claim and the 50# P.S.I. pressure our field man found could be due to the fact that your valve was not open. Please note that we cannot find a chart by any sprinkler manufacturer listing an operating pressure of a sprinkler nozzle over 60# P.S.I. for a 5/32" head. The reason for this is that normally damage to the system usually results from excessive pressure. Therefore, we calculated your system as follows:

264 heads 5/32" #30 R. B. size @ 50# P.S.I. pressure
a 5/32" 30 R. B. @ 50# P.S.I. discharge 4.98 G.P.M.
under ideal conditions;
264 x 4.98 G.P.M. = 1314.72 G.P.M. or approximately
146.08 miners inches;

If you are still not satisfied with our measurement, we can have your system re-examined.

Your prompt attention to this matter will be appreciated.

Dear Mr. Kostenbauder:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-31047 shows the well(s) is (are) capable of conveying 128.8 miner's inches, or 2.58 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 13.00 , we will issue the Certificate of Completion of Works for 2.58 c.f.s. and the License and Certificate of Water Right for 2.58 c.f.s. confirming the right, with priority of March 18, 1963 , to the use of subterranean water with the point of diversion in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 30 for irrigation of the SE $\frac{1}{4}$, Sec. 30, T. 8 S., R. 22 E., B.M.

Paul, Idaho.

June 11-66

Dear Sir:-

In the enclosed letter I feel there is some mistake in the amount of water your field examiner claims I am pumping. Also you say you can only allow the amount of water I have originally requested.

If you will check my application for permit you will note I originally requested 3.2 c.f.s. or 160 inches. Since I am watering 160 acres of land I can't see where the field man got the 128.8 inches figure.

Two different irrigation engineers have checked this pump and claim I can pump more than the law allows. I can see no reason to be cut back to 2.58 c.f.s. when I am pumping more than 3.2 c.f.s. and I have asked for 3.2 c.f.s. in my original request. At the time your field man was here I was running 6 lines, 4" in diameter and 1/4 mile long under 75 lbs. pressure and didn't have the main valve at the pump all the way open. Would you please have your field man check his figures on this?

Very truly yours,

E. C. Kosterbaender

Dear Mr. Kostenbauder:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the MINIDOKA COUNTY NEWS, all submitted in proof of completion of works and beneficial use on Permit No. G-31047

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Permit No. H-31047

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE
and Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address:
To To Kosterbaender, Rt 2 - Box 128, Paul, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf:

Ques. 3. State number, approval date of permit, and date of priority you propose to establish under the permit; No. H-31047 - Mar. 22-1963 - Mar. 18-1964

Ques. 4. State source of water supply: Deep Well.
Give location of point of diversion, showing subdivision, section, township and range:
SE 1/4 of the S.E 1/4 of Section 30 - Twp. 8 So. Rge. 22 E.B.M.

Ques. 5. Describe your works of diversion: Deep well turbine pump & a sprinkler system.; state amount of water they are capable of conveying from point of diversion to place of use 3.2 cu. ft. per second. Give name of canal or ditch or other works by which water is conducted to such place of use: sprinkler
; if a well, state depth of well 417'; depth and size of casing: 20" casing 14' deep; depth to water 329'; if pump is used, state discharge of pump: 10 inches; tell how it was measured or determined:
; if sprinkler irrigation, give number and size of nozzles and operating pressure: 238 nozzles, size 5/32 with 60 lbs. pressure.

Ques. 6. State for what purpose water is used: Ron crop & grain irrigation
If for irrigation, name each subdivision in which used and number of acres in each subdivision that have actually been irrigated with said water: 155 acres of the quarter section have been irrigated
NE 1/4 SE 1/4 - 40 acres SE 1/4 SE 1/4 - 40 acres
NW 1/4 SE 1/4 - 40 acres SW 1/4 SE 1/4 - 35 acres

State nature of all improvements which have been made as a direct result of said use:
150 H.P. motor & pump has been installed, 1/2 mile of main line has been installed under ground and 7 quarter mile 4" sprinkler lines are used to irrigate.
Pump & motor - \$9000.00
main line - \$5000.00
lateral lines - 7980.00
cement & labor - 500.00
Total 23,580.00
(31047)

Ques. 6-a: If this is a ground water permit, give name and address of person that drilled the well: R. J. Ditrassen, Harkness Co. Box 155, Rupert, Idaho.

Ques. 7. If for other than irrigation purposes, state purpose and how used:

Ques. 8. What is the minimum amount of water required for the purpose specified above:

160 inches.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder:

Ques. 10. State when and in what amount the water diverted under above mentioned permit has been first used: May 1964 160 inches Time used since first use:

Each growing season from May to Oct.

Ques. 11. Describe all other water rights appurtenant to same place of use:

none

Notice is hereby given that at 2 P. M., on the 29th day of June, 1965, at Rupert, Idaho, of Minidoka County, Idaho, before Rupert, Idaho, Notary Public, for the County of Minidoka, Idaho, was admitted of the completion of works for the diversion of 3.2 cubic feet per second of ground water from a well and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-31047, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is C. C. Kosterlander, Rt. 2, Box 198, Paul, Idaho.

2. Said works of diversion will be fully completed on the date for such completion, and the amount of water which said works are capable of conveying to the place of use is 3.2 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 3.2 cubic feet per second.

4. The point of diversion of said water is SE 1/4 of the NE 1/4 of Section 30, Twp. 8 So., Range 22 E.B.M. County of Minidoka.

5. The place where said water is used is on the SE 1/4 of Section 30, Twp. 8 So., Range 22 E.B.M. in the County of Minidoka.

6. The date of priority which said user is prepared to establish is March 18, 1904.

Carl E. Torgon
State Reclamation Engineer

Re: Permit No. **G-31047**

**Mr. C. C. Kostenbauder,
Rt. 2, Box 128,
Paul, Idaho.**

Dear Mr. Kostenbauder:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. **G-31047**. The proofs are to be made at **2:00** o'clock **P.M.**, on the **28th** day of **June**, 19**65**, before **R. Balch, Rupert Abstract Co., Rupert, Idaho**, Notary Public.

As of this date, we have mailed the Notice to the **Minidoka County News**, **Rupert, Idaho**, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Department of Reclamation

Notice is hereby given that at 2 P M., on the 26 day of June
1965, at Rupert, County of Minidoka, State of Idaho
before Rupert Abstract Co. R. Balch, Notary Public, at (address) Rupert
Idaho, proof will be submitted of the completion
of works for the diversion of 3.2 cubic feet per second of underground water from a
well, and of the application to beneficial use of said water, in accordance with the
terms and conditions of Permit No. G-31047, heretofore issued by the Department of
Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit
is G. C. Kortenaar, Rt. 2, Box 128, Basco, Idaho.

2. Said works of diversion will be fully completed on the date for such completion,
and the amount of water which said works are capable of conveying to the place of
use is 3.2 cubic feet per second.

3. The use to which said water has been applied is row crop irrigation,
irrigation, purposes and the amount applied to beneficial use is
3.2 cubic feet per second.

4. The point of diversion of said water is S. E. 1/4 of the S. E. 1/4
of Section 30, Twp. 8 S., Rge. 22 E., B.M. County of Minidoka

5. The place where said water is used is on the S. E. 1/4 of Section 30,
Twp. 8 S., Range 22 E. B.M. in the County of Minidoka

6. The date of priority which said user is prepared to establish is May 15 1964

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) April 7-1965
(P. O.) RT-2-Box 128, Paul, Idaho.

TO THE STATE RECLAMATION ENGINEER

Boise, Idaho

Dear Sir:

You are hereby authorized to have the attached notice published
at my expense in the Minidoka County News of
Rupert, Idaho. Published in
the county in which the works are situated.

E. C. Kostenbender.

(In case of canals or other works designed to divert and
carry more than 50 cubic feet of water per second, the following certificate
must be signed by a well known and competent engineer)

I hereby certify that the facts set forth in the attached
notice are true.

Engineer
