Dear Mr. Thorne:

This acknowledges receipt of the notice of intent to make proof of completion of works and application of water to beneficial use for permit G-31043.

We have mailed the notice to the Lincoln County Journal to be published once a week for four consecutive weeks prior to March 8, 1968, which is the hearing date when the permit holder

Harrell A. Thorne
and two disinterested witnesses must appear before Kenneth L. Blackburn, notary public, to complete the enclosed depositions. The witnesses must be familiar with the works and permit.

After the hearing, the depositions and an affidavit of publication must be submitted to this office. The affidavit may be obtained from the newspaper when the advertising bill is paid by Harrell A. Thorne. Be sure all the forms have the notary's seal and are signed.

Please feel free to contact us if we may be of any assistance.

Dear Sir:

Re: Permit No. G-31043

Did receive a request for proof of completion of works and application for well located SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 28, T. 6 S, R. 22 E, B.M., Lincoln County.

In reviewing this, I find this is the well which was drilled quite a number of years ago and was purchased with deeded land. I've been informed this has been done. If this information is correct, I'm wondering why it needs to be done again.

Will you please review the whole situation and reply. Thanks.

As to use of this well for new ground it will be very little. Most of it will be waste water and at most the direct flow will be less than 60 inches.

Very truly yours,

Harrell A. Thorne

Dear Mr. Thorne:

Proof of completion of works and application of water to beneficial use for the above referenced permit is due not later than March 22, 1968.

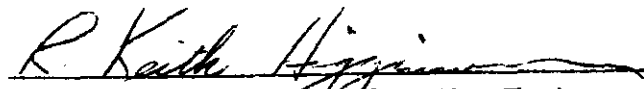

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces and sign the form authorizing us to publish the notice at your expense and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

Dear Mr. Thomas:

We enclose Permit No. G-38843 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

By this same mail, we have sent to the Bureau of Land Management two copies of this permit, one of which has been certified, to be used in connection with the Desert Land Entry filed in that office. A copy of that letter is enclosed.

~~Departmental~~ Departmental Receipt No. G-38843 which was issued covering payment in the amount of \$ 7.75, which includes \$ 6.00 for the filing fee and \$ 1.75 for the copies sent to the Bureau of Land Management, was mailed to you with our letter of March 7, 1963.

Well logs are an important part of your recorded water right and State Statutes require that well drillers supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.

Re: Application No. G-39108

Please find enclosed the maps. I was of the opinion that I should retain these maps and send them to BLM. I will appreciate knowing if you send these direct to the BLM.

I have sent completed form 4-274 to the BLM at Boise. Received a reply from Mr. Michael T. Solan, Land Office Manager, and he stated "you included with the application only one copy of your plan of irrigation. For our processing of applications of this kind, two copies of all documents are needed. Will you please send us a second copy of this."

Will the enclosed copies supply this request?

Re, Mr. Solan, further requests, "we will also need two copies of the water appropriation permit or license pertaining to the well from which you intend to obtain your irrigation water."

I wanted you to have this added request so you will be assured completely of what we are working towards.

Again I do express my thanks.
