TRANSFER NO. 4915
WATER RIGHT NO(S). 36-02562/36-08161

CONDITIONS OF APPROVAL AND REMARKS

1. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.
2. This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use.
3. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.
4. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
5. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
6. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
7. The right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
- * 8. Right No. 36-02562 is limited to the irrigation of 277.0 acres in the place of use described above in a single irrigation season.
9. Right Nos. 36-02562 and 36-08161 when combined shall not exceed a total diversion rate of 3.89 cfs, a total annual diversion volume of 1643.5 af, and the irrigation of 466.0 acres.

RE: Transfer No. 4915
Water Right No(S). 36-02562/36-08161

Dear Water Right Holder:

Enclosed is a copy of your approved Transfer of Water Right for the above referenced water right (Transfer No. 4915). Please be sure to thoroughly read the Conditions and Remarks listed on the transfer.

The accompanying transfer approval should be considered and treated as a preliminary order of the department issued pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the department unless a party petitions for reconsideration within fourteen (14) days after issuance as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the agency.

MICROFILMED

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Director. The Director retains the right to review the preliminary order on his own motion.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties, if any, to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: FILE NOS. 36-02562 & 36-08161

FROM: PAM SKAGGS/^{CS}STATE OFFICE

SUBJECT: TRANSFER NO. 4915

DATE: March 25, 1997

Transfer No. 4915 changes the place of use under Right Nos. 36-02562 and 36-08161. The transfer is based on Right No. 36-02562 as recommended in the SRBA Basin 36 Director's Report and Right No. 36-08161 as licensed following the Director's Report.

The application was originally filed to cover a shift in irrigated acres for the 1996 season. When the transfer reached the state office for final review following the 1996 irrigation season, I wrote the applicant explaining (1) the transfer approval would be permanent in nature and (2) it appeared the original intent of the transfer would not be accomplished at this time. I asked the applicant to inform me rather he would like the transfer processed or rather he would prefer to withdraw the application. After discussing the matter with his renter, Mr. Dunford requested that the transfer be approved.

Review of the proposed transfer shows a reduction of 22 acres within the SENE, S24, T09S, R21E. This legal description was not covered by the tax records submitted with the application, but ownership was confirmed by the Jerome County Assessor's office on this date.

Right No. 36-02562 was recommended with a volume in excess of the maximum amount available under the recommended rate of diversion. The transfer approval limits the volume to the maximum diversion volume available or $2.09 \text{ cfs} \times 213 \text{ days} \times 1.9835 = 883.0 \text{ afa}$.

Recommended conditions include permissible place of use, irrigation overlap, supplemental groundwater use, combined limits and standard transfer conditions.

RE: Transfer No. 4915

Dear Mr. Dunford:

I am currently reviewing Transfer Application No. 4915 which proposes to change the place of use described under Right Nos. 36-02562 and 36-08161.

This transfer was proposed to remedy the shifting of irrigated acres by your renter to lands not covered by water rights. The application identifies the change for the 1996 irrigation season. The application was filed mid-irrigation season and final approval at this time may not accomplish what you originally intended.

Transfer approvals are not temporary in nature. If the transfer is approved as described on the application, a second transfer will be required to change the place of use in the future. If the change was desired for the 1996 irrigation season only, you may want to withdraw the transfer application and leave these rights as recorded.

I am writing to clarify the situation and provide you an opportunity to advise me of your preference in this matter. Would you like the transfer to be approved as proposed, or would you like to withdraw the transfer?

I will withhold the transfer from processing for 10 days to allow for your response. I hope I have answered all your questions regarding this matter. If you require any further assistance, please contact me directly at 327-7943 and I will be happy to help you.

Sincerely,

PAMELA SKAGGS
Sr. Water Resource Agent

FROM: Allen Merritt *AM*

DATE: November 5, 1996

TO: Transfer File No. 4915
In the Name of: Dunford

SUBJECT: Review and Recommendation

In response to a letter inquiring about an illegal use of water, Mr. Dunford filed this transfer. The transfer proposed to change the place of use for this season to cover the lands irrigated. Remarks Part 1.d. indicate it is the intention that the right revert back to the original P/U after this season (season now over).

The application was published late in the season due to delayed staffing because of other projects. No protests were filed.

At this juncture I do not know what the recommendation should be other than the use of the water on the lands irrigated this year was authorized but now the use reverts back to the original place of use.

Re: Application for Transfer No. 4915 (36-02562, 36-08161)

Dear Mr. Dunford:

The Department of Water Resources acknowledges receipt of your Application for Transfer.

This office has scheduled advertising the application in The North Side News for 10/9 and 10/16/96.

The advertisement(s) will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If an application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

State Office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

CERTIFIED MAIL

RE: Potential illegal water use

Dear Mr. Dunford:

Our office has become aware of a potential water development for irrigation of approximately 20 acres of land within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 18, Twp. 09S, Rge. 22E, B.M., in Minidoka County. On this day one of our agents has viewed the property and it appears it has been cultivated and a wheel-line placed on the property ready to irrigate the land. I assume you intend to irrigate the land from your well in Section 24 Twp. 09S, Rge. 21E. used to supply License 36-02562 and 36-08161 for use on other lands.

I have searched our water right records and find that no water right exists for use on the above described lands from the well.

Please be aware that since 1963, to develop a use from groundwater and since 1971, to develop a use from surface water, you are required first to obtain a water right permit. Since no right or permit exists in our records I request your cooperation in:

- identifying what water right covers your development if our records are not correct.
- do not start the diversion from the well to these lands if you do not have a water right.
- &/or obtain a valid permit or water right for your development.

Please respond to our office within 14 days of the date of this letter as to the status of your project. Please also note that to divert water in Idaho without a valid water right is illegal pursuant to §42-351, Idaho Code and subject to civil penalties of up to \$100 per day.

Dear Mr. Dunford:

On August 18, 1970, the Department conducted a field examination of the lands insisted covered by this permit. On August 31, 1970, a representative of this Department wrote a letter concerning the examination.

We find, in reviewing this letter, the proposal of the letter was in error, and we would request that you disregard the letter of August 31, 1970. We find that, since your permit was originally filed for 320 acres, we would suggest that you file an amendment to this permit to include 75 acres in the S $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 19. This would bring the total amount of irrigated acres that we would be prepared to license at this time, to 277 acres. The examination found a total of 2.09 cubic feet per second, being diverted through your system.

If you agree with this proposal, please sign the amendment we have prepared and return it with a five dollar (\$5.00) fee. Also, if you concure with the proposed licensing of this permit, we would suggest that you submit a licensing fee totaling \$28.00, we can issue the license under permit no. 36-2562.

If you have any questions on the matter, please contact us.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

Dear Mr. Dunford:

When I made the field examination on the above-referenced permit August 18, 1970, I informed you that I would try to send you an amendment to include the extra land in the S1/2NW1/4, Section 19 on your land list for the well in Section 24. Because of the fact that you said you were only going to use the water on 173.8 acres, and the acreage in the land list that you declared on your permit exceeds that amount, it is impossible for me to include that 80 acres on the land list. In order to include the extra land on the list for beneficial use, it will be necessary for you to file another permit.

If you have any questions, please feel free to contact us.

Very truly yours,

William S. Davis

Dear Mr. Dunford:

We acknowledge receipt of the depositions and affidavit of publication in the North Side News submitted as proof of completion of works and beneficial use on Permit No. G-30925.

Before a water license can be issued, a field examination must be made by a representative from this department. We cannot tell just when this examination will be made, but our field examiner will try to contact you at the time he makes the examination so that you may show him the system.

Dear Mr. Dunford:

Proof of completion of works and application of water to beneficial use for the above referenced permit is due not later than September 27, 1968.

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces on both forms, sign the form authorizing us to publish the notice at your expense, and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

Department of Reclamation
State Reclamation Engineer

Dear Sir;

This letter is in answer to your letter of March 25th regarding my failure to submit depositions which were to have been taken Feb 9th, 1968.

During the latter part of January I was gathering material for use in completing the necessary forms showing proof when it became apparent that the water had to be used on crops, and I could not do this as the well was not completed until Jan 2nd 1968. I called your office on Feb 2nd and asked Mr. McElowney

if I should appear before the notary, Mrs. R. Banck, or if I should wait until crops were in and water had been used. Mr. McElowney felt that I should not appear before the notary but advised that he would send a form for me to fill out. I believe that he mentioned, that because of the nature of the permit, possibly I would not have to go to the expense of advertising again. I am sorry that I did not follow
D 30925
you to see why I did not receive the

form. I do not know what it was, but assume that it was for an extension of time.

The well drilling was done by Jack Alexander of Rupert. He left with me a copy of the log showing the formation, etc. I have wondered if he forwarded a copy of this to your office. If not I shall furnish this information.

The well drilling cost \$4800. The well is 402 ft deep, size 20" with 393 ft of 16" casing which cost \$1363. According to Mr Alexander the well when tested with a 10" bailer indicated by the draw-down gauge that it would pump 2700 GPM with less than 2 ft draw down.

Power has been put in by Idaho Power Co.

I have purchased a pump from Layne & Bowler pump Co (100 HP motor) for \$6683. If possible I would like to wait until June before ordering the pump turned on. This would save me considerable expense as I have water available from another source for my early irrigation needs.

I hope this letter will justify my failure to furnish the proof. I am sure
B 30925

Mr. Mc Elhinney will hear out what I
have mentioned concerning our telephone
conversation and he can probably recall
more on this matter than I do.

Sincerely yours,
Arthur Murphy

Dear Sir,

NOV 16 1967
DEPARTMENT OF RECLAMATION

Please note changes to be made on my "notice of proof of completion of works" form # 36. I purchased the NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec 24 T 9 S R 21 E from the Bureau of Reclamation and drilled the well just inside that property, which is about 100 ft from the originally intended location.

Changes in Sec 13 to include only the SE $\frac{1}{4}$ SE $\frac{1}{4}$ were brought about because the BLM did not allow the NE $\frac{1}{4}$ SE $\frac{1}{4}$ on my desert entry.

Dear Mr. Dunford:

Proof of completion of works and application of water to beneficial use for the above referenced permit is due not later than January 25, 1968.

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces and sign the form authorizing us to publish the notice at your expense and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

Dear Mr. Dunford:

We enclose Permit No. C-30925 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

By this same mail, we have sent to the Bureau of Land Management two copies of this permit, one of which has been certified, to be used in connection with the Desert Land Entry filed in that office. A copy of that letter is enclosed.

~~We also enclose~~ Departmental Receipt No. C-7680 which was issued covering payment in the amount of \$ 8.00, which includes \$ 6.00 for the filing fee and \$ 2.00 for the copies sent to the Bureau of Land Management, **was given to you while in our office.**

Well logs are an important part of your recorded water right and State Statutes require that well drillers supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.
