Dear Mr. & Mrs. Wilson:

A representative of this Department has made an examination of the works covered by your Permit No. 30921/36-2561 and has found the following:

Quantity of water diverted: 2.76 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 2.40 cfs

The maximum quantity diverted shall not exceed 480 acre feet per year.

Beneficial use: Irrigation of 120 acres within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ (8), W $\frac{1}{2}$ NE $\frac{1}{4}$ (46), N $\frac{1}{2}$ NW $\frac{1}{4}$ (56), SE $\frac{1}{4}$ NW $\frac{1}{4}$ (10), Sec. 9, Twp. 8S, Rge. 25E, B.M.

Point of diversion: NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 9, Twp. 8S, Rge. 25E, B.M.

Priority date established: Jan. 22, 1963

A fee totaling \$17.00 must be received within 30 days from the date of this letter in order that we may issue you a water license as set forth above.

Our field report also indicates that you are irrigating an additional 17 acres not covered under this permit. You should be aware that Idaho has been under a mandatory permit system since March, 1963, and, therefore, you must have a valid permit to cover the additional acreage. In the event you do not have a permit to cover that land, we are enclosing an application for permit form for your consideration.

If you do not concur with the above findings or have any questions, please contact us within the 30-day period.

Dear Sirs:

In answer to the letter of Dec. 4 and 18 you wrote to me regarding permit No 30921/36-2561. There has been some mistake made by your field examiner on the point of diversion as discribed by your letter and diagram.

The point of diversion on the orriginal filing is where the well is located. The point is at NW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 9 Twp 8 s., Rge. 25 E., B. M..

The enclosed map showes the well marked as to where it is located on my property.

The point you discribed and placed on by your field examiner is not even on my property.

There should be no need to amend the diversion point.
