INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

NOTICE

OF APPROVED APPLICATION FOR WATER

Notice is hereby given that Joe E. Taylor, Route 1, Paul, Idaho has received an approved permit No. G-30664 to divert 6.4 cubic feet per second of water from a ground water source. The priority to be established under this permit is August 31, 1962. Water will be diverted by well, turbine pump and motor within the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 21, T. 6 S., R. 21 E., B. M., Lincoln County and is to be used for irrigation in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 17; E $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 20; NW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, Sec. 21, T. 6 S., R. 21 E., B. M.

Any protests against the intent of the permit must be filed with the Department of Reclamation within ten days from the last date of publication of this notice.

Paul, Idaho 83347

Re: License No. 30664/36-2552

Dear Mr. Taylor:

It has recently been brought to our attention that the above referenced water license issued in March of this year is in error. The license lists acreage in the E $\frac{1}{2}$ SE $\frac{1}{4}$ of Sec. 20, whereas, it should be the E $\frac{1}{2}$ NE $\frac{1}{4}$ of Sec. 20.

The Department now proposes to issue an amended water license as follows:

Amount of water that can be recognized as beneficially used
under Idaho law: 4.42 cfs

Point of diversion: SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 21, Twp. 6 S, Rge. 21 E, B.M.

Beneficial use: Irrigation of 221 acres within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ (13), Sec. 17; E $\frac{1}{2}$ NE $\frac{1}{4}$ (56), Sec. 20; NW $\frac{1}{4}$ NE $\frac{1}{4}$ (19), NW $\frac{1}{4}$ (133), Sec. 21; Twp. 6 S, Rge. 21 E, B.M.

The maximum quantity diverted shall not exceed 884 acre feet per year.

Priority date established: Nov. 14, 1962 (late proof)

If you do not concur with these findings, please contact us within 10 days of the date of this letter; otherwise, an amended water license will be issued as set forth above.

If you have any questions regarding this matter, please contact us within the 10 day period.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

Enclosure**

36 2552

March 8, 1973

Mr. Joe E. Taylor
Route # 1
Paul, Idaho 83347

Dear Mr. Taylor:

A representative of this Department has made an examination of the works covered by your Permit No. 30664/36-2552 and has found the following:

Quantity of water diverted: 5.24 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 4.46 cfs

The maximum quantity diverted shall not exceed 892 acre feet per year.

Beneficial use: Irrigation of 222.9 acres within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ (12.9), Sec. 17; E $\frac{1}{4}$ SE $\frac{1}{4}$ (56), Sec. 20; W $\frac{1}{4}$ NE $\frac{1}{4}$ (21), NW $\frac{1}{4}$ (133), Sec. 21; Twp. 6S, Rge. 21E, B.M.

Point of diversion: SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 21, Twp. 6S, Rge. 21E, B.M.

Priority date established: Nov. 14, 1962 (late proof)

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

36-2552

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF EXAMINER

Permit No. G-30664/36-2552

This proof is for..... In Water District No.....

1. Name of applicant Joe E. Taylor, Rt. #1, Paul, Idaho 83347
2. Source of water supply: Subterranean
3. Location of point of diversion: Is in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, of Section 21
T. 6 S. R. 21 E. County of Lincoln
4. Describe works as they exist, giving dimensions and capacities of same: measuring device
not required; 300 hp elect. motor, 16" well casing, concrete diversion boxes,
turbine pump 200 HP General Electric Pump Motor 440 Volts
1775 RPM Ser No. NYJ 117002 Layne & Bowler Pump
Vortiline D 7868 - Ser No 12" discharge 10'
East into Small Rock lined Pond (20' dia) with
5. Water is used for: Irrigation earth ditches for gravity irrigation
6. State whether or not water has been turned into works of diversion:

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

SE $\frac{1}{4}$ Sec. 17; NE $\frac{1}{4}$ Sec. 17; SE $\frac{1}{4}$ Sec. 20; NW $\frac{1}{4}$ Sec. 21; all in
T. 6 S, R. 21 E, B.M. 320 acres

The 12" discharge was measured by the
Burdue method giving the following reading
A = 20" B = 12"
From chart The Q = 2360 gals/min or
5.24 CFS

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: the land is presently planted in corn
potatoes hay and grain. All irrigation
is by gravity. A small centrifugal pump
pumps water through a small (10' dia) pond
where fertilizers are added to the water
for some crops

This examination was made on the 29th day of July, 1970

Attention: Dorian Clay

Dear Sir,

Copies of aerial photographs covering the land under Permit No. 28269
and Permit No 28270 are enclosed.

At the present time we do not have photos that cover Permit No. 36-2552
We are getting new photos this year and it is possible we will have
copies this fall that will cover this area.

Yours truly,

James W. Pate, County Executive Director
Lincoln County ASCS Committee

Dear Mr. Taylor:

We acknowledge receipt of the affidavit of publication submitted in connection with the above referenced permit.

Before a license can be issued, a field examination must be made by a representative from this Department.

We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination. If someone other than yourself should be contacted, please advise.

Very truly yours,

Donald W. McKidowney
Appropriation Examiner

30664

BEFORE THE STATE RECLAMATION ENGINEER

OF THE

STATE OF IDAHO

IN THE MATTER OF REINSTATEMENT OF PERMIT NO.)

G-30664 in the name of JOE E. TAYLOR

ORDER OF REINSTATEMENT

WHEREAS, Joe E. Taylor applied to the Department of Reclamation on August 31, 1962, for a permit to appropriate the public waters of the State of Idaho, proposing the diversion of 6.4 cubic feet per second of the waters of a ground water source for use in SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 17; E $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 20; NW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, Sec. 21, T. 6 S, R. 21 E, B.M., Lincoln County, Idaho; and,

WHEREAS, on September 11, 1962, Permit G-30664 was approved with the condition that the work was to be completed and proof that the water had been applied to beneficial use be submitted on or before January 10, 1969; and,

WHEREAS, on November 6, 1968, the Department of Reclamation forwarded to the permit holder by certified mail an order modifying the requirements for completion of Permit G-30664 as adopted under the Rules of Practice and Procedures on August 1, 1968, notifying the permit holder that he was required to submit proof of the application of the water to beneficial use and setting forth the steps to be taken to make that proof; and,

WHEREAS, on January 28, 1969, the permit holder was notified by the Department of Reclamation that the permit had lapsed since proof of application of the water to beneficial use was not received on or before the required date; and,

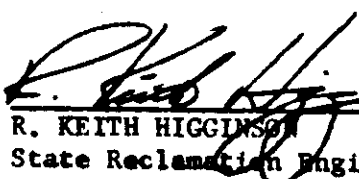

WHEREAS, on March 26, 1969, the Department of Reclamation received the required proof of application of the water to beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within 60 days from the date of lapsing; and,

WHEREAS, submission of an affidavit of proof of application of the water to beneficial use is considered as a reasonable showing as to why the permit should be reinstated;

THEREFORE, IT IS HEREBY ORDERED that Permit G-30664 be REINSTATED and the priority reduced to November 14, 1962.

Dated this 30th day of April, 1969.

Form 7

30664

MAKING PROOF OF BENEFICIAL USE

HOW TO MAKE PROOF

In order for a permit holder to complete the permit and obtain a water license, he must submit proof of application of the water to beneficial use on or before the date set forth in his permit. Each permit holder will be notified that proof is due 60 days prior to the date set for such proof. In order for the proof to be valid, it must be received by the Department on or before that date. Proof is made upon a form which is available from the Department. It is very important that you complete this form as completely as possible, making sure that the information you give is accurate and complete. Failure to do so may cause additional expense and delay in receiving a license. The information that you give on the form will provide the department with the data necessary to make a field examination which is necessary before the license can be issued. If the information found on the proof form is found to be a misrepresentation of the right you have developed, the department may refuse to issue you a license. The development must correspond to that described by the Permit. If it does not, you should amend your permit to cover the development. Forms are available through the Department.

WHAT TO DO IN CASE YOU HAVE NOT COMPLETED THE APPLICATION OF WATER TO BENEFICIAL USE

If you have not been able to complete the application of water to beneficial use under your permit within the time allowed, due to reasons beyond your control, you may apply to the Department of Reclamation for an extension of time. However, in order for an application for extension of time to be considered it must be filed prior to the date on which proof of beneficial use is due on your permit. Each application for extension of time is considered on its own merits.

WHAT TO DO IF YOU FAIL TO MAKE PROOF OF BENEFICIAL USE ON TIME

If you have applied the water to beneficial use but were unable to submit proof of application of water to beneficial use on or before the date set for such proof and your permit has lapsed, you may petition the Department within 60 days from the date that a notice of lapse was sent to you, to reinstate your permit. In order for the department to reinstate a permit, you must show reasonable cause why such permit should be reinstated. Submission of Proof of Beneficial Use within 60 days will automatically be considered by the Department as cause for reinstatement. The priority of all reinstated permits will be advanced a time equal to the number of days that such showing is subsequent to the date set for proof. After 60 days there is no way in which the department can reinstate the permit.

ISSUANCE OF LICENSE

After the Department of Reclamation has completed an examination of your proof and if it appears that you have complied with the terms of the permit, the Department will issue a water license. That license becomes prima facie evidence of a water right. The license will include the maximum rate of diversion, the total volume of water which may be diverted, the period of the year during which you can use the water, the beneficial use to which you can apply the water, and the priority which you have established and any other limiting factors in the water right.

30664

INSTRUCTIONS FOR FILING PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

1. Give the name and post office address of the permit holder. If the person making proof is other than that person who originally applied for the permit, that person must either be an elected officer of the company, a general partner of a partnership, must have been assigned the permit from the original owner, or must hold a valid power of attorney from the permit holder on file with the Department of Reclamation.

2. Give the number of the permit upon which you are making proof.

3. Give the date of priority which you wish to establish. That priority normally is the date upon which the Department received the application. This can be found on the top line on the back page of the permit.

4. Describe the source from which you have appropriated the water by giving the name and the location of the point of diversion as described by 40 acre subdivisions of the Federal Land Survey.

5a. Describe the amount of water in cubic feet per second or acre feet and the use to which you have applied the water, and the period during the season which you have been using the water.

5b. Give the total amount of water you have appropriated. *This will not necessarily be the amount shown on the permit but should be determined accurately by measurement.*

5c. Describe how and by whom the measurement of the amount of water appropriated was made and give the name of the person making the measurement. This person should be someone who has a recognized ability and the necessary training to make such a measurement.

6. If you convey water through facilities owned by persons other than yourself, complete 6a and 6b.

7a. Describe the means by which you divert the water.

7b. Describe the type of measuring device which you have installed and if the device is not a standard device, attach to the proof form a rating table which will allow this department to determine the quantity of water going through the device or being stored in the reservoir.

7c. Give the well driller's name and address and the date that the well was completed.

8. Describe any uses you may have other than irrigation.

9. Describe the acreage which you have irrigated by listing the number of acres irrigated in each 40-acre tract.

10. Remarks.

Sign and date the form and have your signature acknowledged by a Notary Public. For permits involving irrigation of one (1) acre or more, and if they are available, obtain a copy of an aerial photograph of the property in question from your local Agricultural Stabilization and Conservation Office. That map should clearly show the lands you irrigate and the section corner near the lands being irrigated. Mail the form and the above information to the Department of Reclamation, Statehouse - Annex 2, Boise, Idaho 83707.

Re: Permit No. G-30664

Joe E. Taylor
Route 1
Paul, Idaho 83347

Dear Mr. Taylor:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

A handwritten signature in cursive script, reading "Donald W. McEldowney".

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

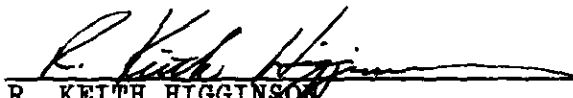

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. G-30664 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.
 - b. The permittee will not be required to submit proof of completion of works as originally specified, but will be required to submit proof to the Department of Reclamation of the application of the water to beneficial use on or before January 10, 1969. The permit holder should be aware that failure to complete one-fifth (1/5) of the works within one-half (1/2) of the time originally set for Completion of Works may be grounds for cancellation at the instance of the Department.

That he is the holder, or the duly authorized agent of the holder, of Permit to Appropri-
ate the Public Waters of the State of Idaho No. G-30664.

That under the terms and conditions of said permit, work thereunder was required to be
completed by September 11, 19 67.

That he has heretofore performed the following work described under said permit: _____

The well was drilled and pump installed in 1964.

Costing \$ 17,000.00

That he is unable to complete the remainder of the work within the required time for the
following reasons, to-wit: I have not as yet placed all of the irrigable lands
under irrigation. This permit was applied for in connection with a
desert land application which was not allowed until 1/10/64.

69

WHEREFORE, he asks that the State Reclamation Engineer extend the time for the com-
pletion of obligations under said permit to January 10, 19 69.

Earl J. Taylor

Re: Permit No. G-30664

June 29, 1967

Mr. Earl J. Tayler
Route 1
Paul, Idaho 83347

Dear Mr. Tayler:

Proof of completion of works and application of water to beneficial use for the above referenced permit is due not later than September 11, 1967.

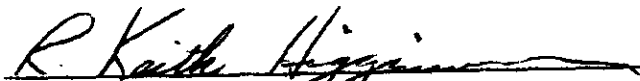

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces and sign the form authorizing us to publish the notice at your expense and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

State Reclamation Engineer

RELINQUISHMENT

I hereby relinquish to the State of Idaho, all my right, title and interest in and to Permit to Appropriate the Public Waters of the State of Idaho, No. _____.
