Mr. Harley M. McDowell,
Box 2161,
Boise, Idaho.

Dear Mr. McDowell:

We enclose Permit No. ~~C-30614~~ ^{C-30615, C-30616 & C-30617} in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. ~~C-7308~~, which was issued covering payment in the amount of \$ ~~25.25~~ for the filing fee of the above mentioned permit was handed to you.

Well logs are an important part of your recorded water right and State Statutes require that well drillers' supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.

Very truly yours,

GEO. N. CARTER

Dear Mr. McEldowney

We are returning herewith depositions of holder and witnesses, and affidavit of publication for the above permit and wish to advise you that the holder and witnesses became confused as to the point of diversion. The correct point of diversion is the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 19, Township 7 South, Range 25 E., B.M., and we have corrected the depositions.

I do wish to advise you that there was only one well drilled rather than two and the well was drilled on the SE $\frac{1}{4}$ NW $\frac{1}{4}$ and this being the point of diversion.

We trust this will now correct this matter and if there be further question, kindly advise me.

Yours very truly

Dear Mr. McLowell:

We enclose Permit No. ~~C-30644~~ ^{C-30645, C-30646 & C-30647} / in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. ~~C-7308~~ ^{C-7308}, which was issued covering payment in the amount of \$ 25.25 for the filing fee of the above mentioned permit, was handed to you.

Well logs are an important part of your recorded water right and State Statutes require that well drillers' supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.
