In order for the department to make an allowance for stock water and include this use upon the license it is necessary for the department to know the number of head and type of stock you have been watering.

Your prompt attention to this matter will be appreciated.

Dear Sir.

Your question as to the number of head to water vary. This year the number of Stock cows was 22 head. It can very well be 50. head some years as the crops change. Also the weather has some bearing on how long the water stays.

Hopeing this answers your question I remain,

Re: Permit No. G - 30618

Mr. Richard K. Nelson
Route #2
Wendell, Idaho 83355

Dear Mr. Nelson:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30618 are due not later than Aug. 21, 1967

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

R. Allen Nelson

Dear Mr. Nelson:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-30618. The proofs are to be made ~~XX~~ ~~XXXXXXXX~~, on the 30th day of June, 19 67, before Clyde Peterson, 74 South Idaho, Wendell, Idaho Notary Public.

As of this date, we have mailed the Notice to the Wendell Irrigationist, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION

Dear Mr. Nelson:

We enclose Permit No. G-30618 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-7272 which was issued covering payment in the amount of \$ 5.00 for the filing fee of the above mentioned permit. ~~Second class postage paid~~

Well logs are an important part of your recorded water right and State Statutes require that well drillers' supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.
