NOTICE OF PUBLICATION COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at
2 P. M., on the 15th day of Oct-
ober 1962, at Burley, County of
Cassia, State of Idaho, before
John W. Pyne, Notary Public,
at 150 Overland Ave. Burley,
Idaho, proof will be submitted
of the completion of works for
the diversion of 1.0 cubic feet
per second of underground
water from a well, and of the

application to beneficial use of
said water, in accordance with
the terms and conditions of
Permit No. G-30553, heretofore
issued by the Department of
Reclamation of the State of
Idaho.

1. The name and postoffice
address of the person or cor-
poration holding said permit is
C. C. Kostenbauder, Route No.
2, Paul, Idaho.

2. Said works of diversion
will be fully completed on the
date set for such completion,
and the amount of water which
said works are capable of con-
veying to the place of use is 1.0
cubic feet per second.

3. The use to which said wa-
ter has been applied is irriga-
tion purposes, and the amount
applied to beneficial use is 1.0
cubic feet per second.

4. The point of diversion of
said water is SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec.
32, T. 8 S., R. 22 E., B. M.

5. The place where said wa-
ter is used is W $\frac{1}{2}$, Sec. 32, T.
8S., R. 22 E., B. M.

6. The date of priority which
said user is prepared to estab-
lish is July 3, 1962

Room 107, State House
Boise, Idaho

Gentlemen:

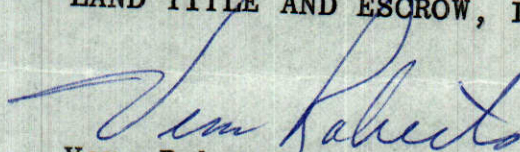

Mr. C. Christ Kostenbauder, who owns the West Half (W $\frac{1}{2}$) of Section 32, Township 8 South, Range 22 East of the Boise Meridian, Minidoka County, Idaho, has applied for a long term life insurance loan on his property. He is operating an irrigation well under permit No. G-27219 which we understand is for 178 inches of water. Mr. Kostenbauder informs us that he has applied for an additional 47 inches of water which the well is actually producing at this time. The loan company has asked that we have some type of evidence that this application has been made, and we assume at a later date that the permit will be amended to include the additional amount of water.

Would it be possible for your office to write a letter addressed to The Connecticut Mutual Life Insurance Company in care of this office, stating that Mr. Kostenbauder has made application for additional water and that at a later date the permit will be amended.

We would appreciate your attention to this as soon as possible.

Very truly yours,

LAND TITLE AND ESCROW, INC.

Vern Roberts, Manager

Re: Permit No. G-27219
Application for Permit

C. C. Kostenbauder
Route #2
Paul, Idaho

Dear Mr. Kostenbauder:

Enclosed is form to apply for permit to divert
subterranean water.

The report of the examiner shows that you were using
three laterals with 53 sprinklers each and three laterals with
33 sprinklers each. A rough check of his figures indicates that the
total amount of water delivered through the sprinkler system is
about 220 miner's inches instead of the 225 miner's inches he
reported to you.

You may claim 1.0 c.f.s. of water on the application and
the amount allowed on the Certificates of Water Rights will be
determined after a recheck of the computations.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Burley, Idaho 83318

Dear Mr. Roberts:

We have received your letter of May 30, 1973 along with the assignment in connection with the above referenced licenses.

We wish to advise you, however, that the Department has no procedure for changing the record of ownership once a permit has been licensed. When a license is issued, it becomes appurtenant to the land and ownership automatically is conveyed with the land unless it is specifically withheld in the sale transaction.

We have placed the assignment in our files for future reference. If you have any questions regarding this matter, please advise.

Sincerely,

D. Darlene Reich
Water Rights Supervisor

Re: Permit No. G-30353

C. C. Kostenbauder
Rt 2, Box 128
Paul, Idaho
815 800

Dear Mr. Kostenbauder:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-30353 shows the well is (~~200~~) capable of conveying 45 miner's inches, or .90 c.f.s. of water for the irrigation of 315 acres.

Upon receipt of the statutory fees, totaling \$ 5.00 , which consists of a Completion of Works fee of \$ 5.00 and License and Certificate of Water Right fee of \$ ----- based at the rate of \$2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right confirming the right, with priority of July 3, 1962 to the use of .90 second feet of subterranean water with the point of diversion in the SW 1/4, Sec. 32 for irrigation of 315 acres in the W 1/2, Sec. 32, T. 8 S., R. 22 E., B.M.

Very truly yours,

CARL E. TAPPAN

Permit No. G-30553

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant C. C. Kostenbauder

2. Source of water supply: subterranean

3. Location of point of diversion: Is in the SW 1/4 of Section 32

T. 8 S. R. 22 E. County of Minidoka

4. Describe works as they exist, giving dimensions and capacities of same: 200 H.P. U.S. Motor # 1115154 Wainwright pump # 8933 12" discharge into 12" check valve reduced to 10" buried main line 10" x 340' Column 20" x 16' casing H: 324' D.D. Hole Well depth 362'

5. Water is used for: irrigation

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

W 1/2, Sec. 32, T. 8 S., R. 22 E., B. M.

EXTRA land irrigated is rented and not to be included

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: 9m C.C. Kostenbauder (owner) participated in examination

Measurement was made by taking pressure readings along each lateral 6 lines 258 nipples size 3/4"

Permit # 6-27219 Lic. 355 or 177 1/2" for 315 acres same land

This examination was made on the 15th day of June, 1963

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Dear Mr. Kostenbauder:

This is a follow up of the notice from the Department of Reclamation office that an inspection would be made on your water filing as soon as possible.

I will plan to inspect your permit on or about the week of June 3, 1963.

Please arrange to be on the premises so that you can accompany me over the work.

Re: Permit No. G-30553

C. C. Kostenbauder
Box 129, Route #2
Paul, Idaho

Dear Mr. Kostenbauder:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the The Minidoka County News, all submitted in proof of completion of works and beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Permit No. H 30553

Proof of Application of Water to Beneficial Use
— and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. C. C. Kistenbaurer, Rt. 2, Box 128, Paul, Idaho.
Farmer.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. no corporation

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. H-30553 - July 6 - 1962 - Jan 29 1962

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Dullesman deep well. Well is in the S.W. 1/4 of the N.W. 1/4 of Sec. 32 - Twp 8 So., Range 22 E., County of Minidoka.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The well is 362' deep, casing is 20" and is 13' deep. the depth to water is 325'. Sprinkler irrigation has 306 nozzles 5/32, operating pressure is 50 lbs.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigating the West half of Sec. 32, Twp 8 So., Range 22 E. of Minidoka Co. Grain & row crops have been grown. Storage for crops and complete living facilities have been established as a result of having water and irrigation system.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. C. H. Cole of Cole Drilling Co. 813 Colorado St., Hooten, Idaho.

30553

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. None

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. None

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Said water has been used by a sprinkler irrigation system for irrigating crops on 3.5 acres since 1958

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

(Sign) C. C. Rostenbender

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Barley, County of Cassia,

Permit No. G 30553

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Huston Duff. Rt. 1, Paul, Idaho. Farmer.

Ques. 2. Are you acquainted with C.C. Kostenbauder, the holder of Permit No. G 30553? How long have you known him and where does he reside?

Ans. Yes. Have known him for 5 years. He lives on his ranch
North west of Paul, Idaho.

Ques. 3. Have you read or heard read said Permit No. G 30553, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Deep well, center of west half of Sec. 32, Twp. 8 East, Range 22
So; Minidoka Co. Water is conveyed by a complete sprinkler system.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Approximately 5 c. f. s. Same amount.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. Approximately 5 c. f. s. estimated by the number of sprinkler
heads.

30553

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water has been used to irrigate grain and row crops on west half of section 32. Improvements include living facilities, crop storage buildings and gravel roads.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. none

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy loam soil . Approximately 5 c. f. s.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have visited this ranch quite frequent during the past five years.

(Signed) Huston Duff

Permit No. 4-30553

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. George Brandon, Rt. 2, Paul, Ida. Farmer.

Ques. 2. Are you acquainted with C. G. Kostenbauder, Yes., the holder of Permit No. G 30553? How long have you known him and where does he reside?

Ans. Yes. I know him for six years. He resides on his ranch which is located North West of Paul, Idaho.

Ques. 3. Have you read or heard read said Permit No. G 30553, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. A deep well on Sec. 32, west half, water is conveyed by a complete irrigation (sprinkler) system.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate approximately 5 c.f.s. of water can be conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. Approximately $4\frac{1}{2}$ or 5 c.f.s. I estimated the amount by the number of sprinkler heads.

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water has been used to water grain and row crops on approximately 320 acres. West half of Sec. 32, Twp 8 So; Range 22 East; Minidoka Co.
Living facilities, crop storage buildings and gravel roads are
the improvements.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. none

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy loam soil. Approximately 5 c.f.s.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. The past five growing seasons I have visited this ranch many
times each season.

Mr. C. C. Kostenbauder,
Route #2,
Paul, Idaho.

Dear Mr. Kostenbauder:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-30553. The proofs are to be made at 2:00 o'clock P.M., on the 15th day of October, 1962, before John W. Pyne, 150 Overland Avenue, Burley, Idaho, Notary Public.

As of this date we have mailed the Notice to the Minidoka County News Rupert, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 2 P. M., on the 15th day of October 19 62, at Burley, County of Cassia, State of Idaho, before John W. Pyne, Notary Public, at (address) 150 Overland Ave. Burley, Idaho, proof will be submitted of the completion of works for the diversion of 1.0 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-30553, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is C. C. Kostenbauder, Route #2, Paul, Idaho

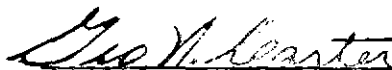

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 1.0 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 1.0 cubic feet per second.

4. The point of diversion of said water is SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 32, T. 8 S., R. 22 E., B. M.

5. The place where said water is used is W $\frac{1}{2}$, Sec. 32, T. 8 S., R. 22 E., B. M.

6. The date of priority which said user is prepared to establish is July 3, 1962

RECEIVED
JUL 25 1962

Department of Reclamation

Route 2, Box 129
Paul, Idaho.

July 26-1962

Dear Sir:-

I recently received the enclosed papers which have me confused. If I am correct this is a permit to drill a well.

I already have the well drilled and it has been in use since 1958. I filed proof of completion and asked for 178 miners inches of water. After your field engineers inspected my system he said I was using 225 miners inches from the well. I talked to Mr. Ralph Thomas on the phone and he told me I could file for the additional water which I am using, if your field engineers computations are correct.

In the enclosed form that I filed at the bottom of the second page you will find I am only asking for the additional water from the present well.

Also, I am sure Mr. Cole, the man who drilled the well has filed a log as he told me he would.

The license and certificate of water right has been issued to me under license # H-27219.

If the enclosed papers which you
sent me are correct, what do I do next?
As I only want a license for additional water
from the present system which your field
engineer says I have been using ever since
I started to operate the system.

Very truly yours,
C. C. Fosterbanden.

Department of Reclamation

Gentlemen:

Mr. C. Christ Kostenbauder, who owns the West Half (W $\frac{1}{2}$) of Section 32, Township 8 South, Range 22 East of the Boise Meridian, Minidoka County, Idaho, has applied for a long term life insurance loan on his property. He is operating an irrigation well under permit No. G-27219 which we understand is for 178 inches of water. Mr. Kostenbauder informs us that he has applied for an additional 47 inches of water which the well is actually producing at this time. The loan company has asked that we have some type of evidence that this application has been made, and we assume at a later date that the permit will be amended to include the additional amount of water.

Would it be possible for your office to write a letter addressed to The Connecticut Mutual Life Insurance Company in care of this office, stating that Mr. Kostenbauder has made application for additional water and that at a later date the permit will be amended.

We would appreciate your attention to this as soon as possible.

Very truly yours,

Re: Permit No. G-30553

July 11, 1962

Mr. C. C. Kostenbauder,
Box 129, Route 2,
Paul, Idaho.

Dear Mr. Kostenbauder:

We enclose Permit No. G-30553 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-7128 which was issued covering payment in the amount of \$ 5.00 for the filing fee of the above mentioned permit. ~~was enclosed to you~~

Well logs are an important part of your recorded water right and State Statutes require that well drillers' supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.

Very truly yours,

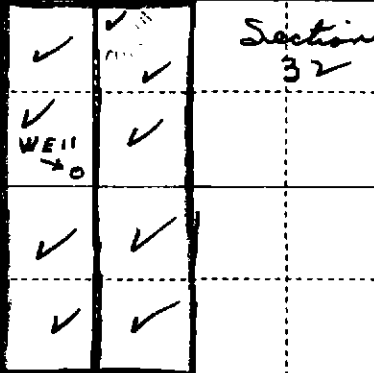

GEO. N. CARTER

Enclosed is form to apply for permit to divert
subterranean water.

The report of the examiner shows that you were using
three laterals with 53 sprinklers each and three laterals with
33 sprinklers each. A rough check of his figures indicates that the
total amount of water delivered through the sprinkler system is
about 220 miner's inches instead of the 225 miner's inches he
reported to you.

You may claim 1.0 c.f.s. of water on the application and
the amount allowed on the Certificate of Water Rights will be
determined after a check of the computations.

Very truly yours,

GEO. H. CARTER
State Reclamation Engineer

Enc. application - Form J
instructions

30553

**NOTICE OF PROOF OF
COMPLETION OF WORK**

and

**APPLICATION OF WATER
TO BENEFICIAL USE**

Notice is hereby given that at 2 P. M., on the 15th day of October 1962, at Burley, County of Cassia, State of Idaho, before John W. Pyne, Notary Public, at 150 Overland Ave. Burley, Idaho, proof will be submitted of the completion of works for the diversion of 1.0 cubic feet per second of underground water from a well, and

application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-30553, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is C. C. Kostenbauder, Route No. 2, Paul, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 1.0 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 1.0 cubic feet per second.

4. The point of diversion of said water is SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 32, T. 8 S., R. 22 E., B. M.

5. The place where said water is used is W $\frac{1}{2}$, Sec. 32, T. 8 S., R. 22 E., B. M.

6. The date of priority which said user is prepared to establish is July 3, 1962

Geo. N. Carter

State Reclamation
Engineer
