	)	
	)	

A *Partial Decree* was entered for water right 36-2517 ("decreed water right") on November 24, 1997. The period of use element therein was decreed as "irrigation season." In *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998), the Idaho Supreme Court remanded with the directive to include specific dates for the period of use element. Following remand, pursuant to administrative proceedings conducted before the Idaho Department of Water Resources (IDWR), the decreed water right was split into three water rights designated as 36-2517A, 36-2517B, and 36-2517C ("split water rights"). On August 2, 1999, IDWR filed a *Supplemental Director's Report, Reporting Area 3, IDWR Basin 36, Regarding Revision of Period of Use (For Irrigation Water Uses) and Conjunctive Management General Provisions*, which included separate and different irrigation period of use recommendations for each of the split water rights. There are no outstanding objections to IDWR's recommendations.

On May 6, 2002, IDWR filed a *Notice of Completed Administrative Proceeding* in the above-captioned water rights, together with an amended *Director's Report* for each. Because the period of use recommendation is different for each of the split water rights, the recommended period of use cannot be used as a basis to simply amend the *Partial Decree* previously issued for the decreed water right.

Therefore, IT IS ORDERED that water rights 36-2517A, 36-2517B, and 36-2517C are hereby decreed as set forth in the attached *Partial Decrees Pursuant to I.R.C.P. 54(b)*. Further, IT IS ORDERED that the previously issued *Partial Decree* for water right 36-2517 is rescinded, and is replaced and superceded by the *Partial Decrees* ordered herein for split water rights 36-2517A, 36-2517B, and 36-2517C.

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced water rights to you. The department has modified its records to reflect the changes in ownership and has enclosed computer-generated reports for your records.

Your original request for ownership change included water right 36-10332. Our records indicate this is not part of the land included in the legal description that you provided. A refund for the \$25.00 filing fee that you paid for this is being requested by copy of this letter to our Fiscal Section.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact this office if you have any questions regarding this matter.

RE: In the Matter of Petition for Declaratory Ruling submitted by Michael G. Branchflower and Katherine L. Branchflower

Dear Interested Parties:

The accompanying order is a "final order" issued by the department pursuant to section 67-5246 or 67-5247, Idaho Code.

Section 67-5246 provides as follows:

- (1) If the presiding officer is the agency head, the presiding officer shall issue a final order.
- (2) If the presiding officer issued a recommended order, the agency head shall issue a final order following review of that recommended order.
- (3) If the presiding officer issued a preliminary order, that order becomes a final order unless it is reviewed as required in section 67-5245, Idaho Code. If the preliminary order is reviewed, the agency head shall issue a final order.
- (4) Unless otherwise provided by statute or rule, any party may file a petition for reconsideration of any order issued by the agency head within fourteen (14) days of the issuance of that order. The agency head shall issue a written order disposing of the petition. The petition is deemed denied if the agency head does not dispose of it within twenty-one (21) days after the filing of the petition.
- (5) Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
 - (a) the petition for reconsideration is disposed of; or
 - (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.
- (6) A party may not be required to comply with a final order unless the party has been served with or has actual knowledge of the order. If the order is mailed to the last known address of a party, the service is deemed to be sufficient.

(7) A non-party shall not be required to comply with a final order unless the agency has made the order available for public inspection or the nonparty has actual knowledge of the order.

(8) The provisions of this section do not preclude an agency from taking immediate action to protect the public interest in accordance with the provisions of section 67-5247, Idaho Code.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a final order within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5246(4) Idaho Code.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, any party aggrieved by a final order or orders previously issued in a matter before the department may appeal the final order and all previously issued orders in the matter to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days a) of the service date of the final order, b) of an order denying petition for reconsideration, or c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration, whichever is later. See section 67-5273, Idaho Code. The filing of an appeal to district court does not in itself stay the effectiveness or enforcement of the order under appeal.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

IN THE MATTER OF PETITION FOR	)	
DECLARATORY RULING SUBMITTED BY	)	
MICHAEL G. BRANCHFLOWER AND	)	FINAL ORDER
KATHERINE L. BRANCHFLOWER	)	
	)	

This matter having come before the Idaho Department of Water Resources (department), as a result of the filing of a petition for a declaratory ruling, the department makes the following Findings of Fact, Conclusions of Law and Final Order:

FINDINGS OF FACT

1. On February 18, 1997, Michael G. Branchflower and Katherine L. Branchflower (petitioner) filed a Petition for Declaratory Ruling in connection with certain transfer approvals and licenses granted by the department to the petitioner.

2. On May 22, 1996, the department issued license no. **36-08581** with Conditions of Approval no's. 5 and 9 as follows:

This right when combined with all other water rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre for the lands above.

Diversion and use of water under this right is subject to rules that may subsequently be promulgated for the use of existing rights used for supplemental purposes.

Water right no. 36-08581 was not established as a supplemental water right for use with surface water.

Condition no. 5 is general in nature relative to the maximum amount of water authorized for diversion and does not limit use of the right to use as a supplemental source of water.

3. On February 20, 1996, the department issued license no. **36-08560B** with Conditions of Approval no's. 7 and 8 as follows:

Diversion and use of water under this right is subject to rules that may subsequently be promulgated for the use of existing rights used for supplemental purposes.

This right when combined with all other water rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre for the lands above.

The original water right no. 36-08560 was not established as a supplemental water right for use with surface water.

Condition of Approval no. 8 is general in nature relative to the maximum amount of water authorized for diversion and does not limit use of the right to use as a supplemental source of water.

4. On February 20, 1996, the department issued license no. 36-08582 with Conditions of Approval no's. 7 and 8 as follows:

Diversion and use of water under this right is subject to rules that may subsequently be promulgated for the use of existing rights used for supplemental conditions.

This right when combined with all other water rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre for the lands above.

Water Right no. 36-08582 was not established as a supplemental water right for use with surface water.

Condition of Approval no. 8 is general in nature relative to the maximum amount of water authorized for diversion and does not limit use of the right to use as a supplemental source of water.

5. On January 31, 1996, the department issued transfer no. 4375 involving water right no. 36-02517C with Conditions of Approval no's. 6, 7, and 10 as follows:

The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right.

This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased, or used on any other place of use.

Use of this right is combined with water from the North Side Canal Co. Ltd.

The original water right no. 36-02517 was established as a supplemental water right to supplement surface water from North Side Canal Company shares. Transfer no. 4375 did not change the use of water right no. 36-02517C from supplementing surface water.

6. On January 31, 1996, the department approved transfer no. 4404 involving water right no. 36-07460G with Conditions of Approval Nos. 6 and 7 as follows:

The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right.

This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased, or used on any other place of use.

The original water right 36-07460 was not established as a supplemental water right for use with surface water.

7. Water right no. **36-07460E** is the remaining portion of right 36-07460D after transfer no. 4052 involving right no's. 36-07460F and 36-07460G was approved on June 20, 1995. Right no. 36-07460E contains the following remark:

Use of this right is combined with water from North Side Canal Co. Ltd.

This remark is based on the recommendation of this right in the Snake River Basin Adjudication.

8. On June 9, 1994, the department issued license no's. **36-08313A** and **36-08313B** with Condition of Approval no. 10 as follows:

The right holder shall fully use all surface water rights appurtenant to the lands identified above prior to using water under this right.

The original water right no. 36-08313 was not established as a supplemental water right for use with surface water.

9. On March 17, 1994, the department issued transfer no. 4053 involving water right no. **36-02517B** with Condition of Approval no. 2 as follows:

This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre for the lands above.

The original water right no. 36-02517 was established as a supplemental water right to supplement surface water from North Side Canal Company shares. Transfer no. 4053 did not change the use of water right no. 36-02517B from supplementing surface water.
