Dear Mr Kulp:

I am enclosing herewith affidavits of publication showing publication in The Gooding Leader of the notices of proposed transfers of water rights (Riley Creek and Thompson or Tucker Springs), together with Company check in the amount of \$2, as per your letter of June 16th, to cover fees for the issuance of Certificates of Transfer.

It is assumed that a copy of each certificate will be sent to us when issued. As both of these water rights involve the waters of Idaho Power Company and Roy Vader, of Hagerman, Idaho, it will also be appreciated if you will send copies of both certificates also to Mr Vader, and bill us for the additional cost, if any.

Copies of billings from The Gooding Leader covering both publications are enclosed herewith. Both billings have been paid by Idaho Power Company, and the enclosures are therefore for your information only.

Very truly yours,

Dear Mr Kulp:

With reference to water right for 3.5 cfs of the water of Riley Creek, license number 18906, I am transmitting herewith application for transfer of water right, covering change in the place of use, in accordance with Section 42-222, Idaho Code. This application for transfer has been executed by Mr Roy Vader of Hagerman, Idaho, the owner of said water right.

You will recall that under date of February 24, 1950, I transmitted similar application with respect to 3.5 cfs of the water of Thompson or Tucker Springs, evidenced by license number 18892, which application I believe your office has been holding for publication, pending receipt of the enclosed application, as the two rights were formerly related. The current applications serve to separate the rights for use of the respective lands of Idaho Power Company and Mr Vader, in accordance with ownership thereof.

It will be appreciated if you will cause publication of both applications to be made in both counties involved, in the Gooding Leader and Twin Falls Times-News, respectively, and advise as to your further action thereon.

ROY VADER, being first duly sworn, deposes and says:

That his name is Roy Vader; that he is of lawful age, a citizen of the United States and of the State of Idaho, and that his postoffice address is Hagerman, Idaho.

That he is the owner and using a certain water right, bearing date of priority of December 1, 1939, for 3.5 cubic feet per second of the waters of Riley Creek, having its point of Diversion in County of Twin Falls, State of Idaho, decreed to by decree of Judge, of the Judicial District of the State of Idaho, in and for the County of, in the case of vs., said decree bearing date of

(or obtained by virtue of License No. 18906, issued by the State Engineer or the Commissioner of Reclamation of the State of Idaho, dated November 25, 1940, bearing date of priority of December 1, 1939) for the purpose of irrigating the following described lands situate, lying and being in water District No. 63 in the County of Gooding and Twin Falls and State of Idaho, to-wit:

See Schedule A attached.

and is the person (or representative of the corporation) to whom such right so issued, or has become the owner thereof in the following manner, i. e. By virtue of Transfer and Assignment from Idaho Power Company, dated April 1, 1948, as recorded in the office of the Department of Reclamation, State of Idaho.

~~as per abstract of title of said water right hereto attached and made a part of this statement.~~

That said waters are now diverted from said stream in the SW 1/4 of Section 1, Township 8 South, Range 13 East, B. M., and con-

ducted to the above described lands through a system of canals, pipe line, and ditches, including what is known as the Hunt Ditch (north side of Snake River) and Vader Middle and Lower Ditches (south side of Snake River) as per map herewith and of this affidavit made a part.

That affiant and petitioner desires to abandon the use of certain of said water upon the above described land, and to convey and use same upon the following tract, situate, lying and being in the County of Gooding and Twin Falls and State of Idaho, as outlined in red on said map attached hereto, to-wit:

See Schedule B, attached.

T-759
36-2046

That his reasons for desiring to make such transfer are as follows: Affiant is the owner of said lands outlined on map in red; a portion of said lands were formerly irrigated from the waters of Tucker Springs (Water License No 18892), which said Tucker Springs waters have been or are to be transferred for use solely upon adjacent lands of Idaho Power Company, and said Tucker Springs waters will no longer be used upon or appurtenant to said lands of affiant listed in Schedule B, and as shown on said map in red. Affiant also desires and intends to utilize said Riley Creek waters on a part of the NE 1/4 of Section 3, T 8 S, R 13 E, B. M., as listed in Schedule B and shown in red on map. Affiant desires to transfer said Riley Creek water, obtained by virtue of Water License 18906, for use upon and as appurtenant solely to the lands owned by affiant as listed in Schedule B and shown in red on map attached hereto.

That he intends to divert and convey said 3.5 second feet of water to the tract of land last above described in the following manner, to-wit:

No change involved in point of diversion or manner of conducting waters to said places of use.

as set forth upon the map herewith; and that no one will be injured by such transfer.

WHEREFORE, Affiant and Petitioner prays that the Commissioner of Reclamation of the State of Idaho issue to him the proper certificate authorizing such transfer, in accordance with the provisions of Section 42-222, Idaho Code.

Applicant.

Subscribed and sworn to before me this day of March

APPLICANT WILL ANSWER THE FOLLOWING QUESTIONS:

From what stream is the water now diverted? Riley Creek

Where is the diversion point now located? Approximately South 60° 12' East 4,365 feet from NW corner of Section 1, T 8 S, R 13 E, BM, in SW 1/4, said Section, Tp, and Range, in Gooding County, Idaho.
Through what ditch is it now conducted? Hunt Ditch, Pipe Line, and Vader Middle and Lower ditches.

How much land is now irrigated by the water sought to be transferred? 249 Acres. See License No. 18906.

Give the description: See Schedule A, attached hereto.

What is the total amount of water in inches, or second feet, dedicated to said land? 3.5 second feet

What kind of crops are being raised? Hay, grain, potatoes, beets, and other farm crops.

How much water per acre is now required to irrigate said land? Variable.

What will be the effect on the land now irrigated, if the use of water on it is discontinued? Farm and ranch would have insufficient water for continued operation or any use other than grazing.

Give location of new point of diversion, if change is to be made No change.

Through what ditch will it be conducted after transfer? No change. See above.

How much water will be required per acre to irrigate the land to which this water is transferred?

No change.

Do you claim any other water right for the land from which you seek to abandon the use of this water?

No; such land is now owned by Idaho Power Company.

If so, give amount, date and source.

Is there now any other water right for the land to which you seek to make this transfer? If so, give amount, date and source. No other water source available for additional lands (in Section 3) to which Riley Creek water is to be made appurtenant.

That the reasons for desiring to make such transfer are as follows: Since the issuance of said permit and water license, the Idaho Power Company has completed its hydroelectric development at Upper Salmon Falls on the Snake River, and constructed at and near its two Upper Salmon Power Plants various dwellings and other buildings for family residences of power plant operators and other purposes, and has greatly improved said property last above described with lawns, parks, gardens and landscaping, and has provided a village water system, using said water, for household, domestic, culinary and other uses and purposes, with hydrants and other outlets for fire protection in said village and power plant areas. Said 3.5 second feet of water is being used on said premises last above described for irrigation, stock watering, household, domestic, culinary, lawn and garden watering, village and power plant water supply (exclusive of power generation) purposes, cooling and air conditioning, fire protection, and other village water system uses.

That the transfer of water right to said last described lands exclusively, as herein requested, involves no change in point of diversion or conveyance of said water to said premises; and no one will be injured or affected by such transfer.

WHEREFORE, Idaho Power Company, and this affiant, as its representative, pray that the State Reclamation Engineer issue to said Company the proper certificate authorizing such transfer, in accordance with the provisions of Section 42-222, Idaho Code.

The Idaho Power Company
Boise, Idaho

Mr. A. C. Inman, Secretary

Gentlemen:

We are now in receipt of our Field Engineer's report on examination for beneficial use under the above numbered permit, for 3.5 cubic feet per second from Thompson or Tucker Springs.

This report shows the water to have been used to a greater or less extent on land in 19 forty-acre subdivisions in Sections 1, 2 & 3, Township 8 South, Range 13 East, B.M., and Sections 34 and 35, Township 7 South, Range 13 East, B.M.

However, as 14 of these have been previously examined, under your Permit No. 18906- it not be necessary for us to charge the \$2.00 fee on these, but only on the additional five subdivisions-

Therefore, if you will send us your check for \$10.00, a license will be issued for the 3.5 second feet applied for under this permit.

Attention- Mr. A. C. Inman,
Secretary

Gentlemen:

We acknowledge receipt of the depositions of the holder and two witnesses, and also the affidavit of publication from the Gooding Leader, all in connection with beneficial use proof under the above numbered permit covering waters from Thompson or Tucker Springs.

Before final action is taken in the matter the law requires that a field examination be made by an engineer from this department.

We cannot say just when this examination will be made, as this department has but one field engineer, who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this Department, will try and contact your tenant at the time he makes the examination, so that he may arrange to show him over the grounds.
