Dear Dave:

Please accept this letter as a follow-up to our telephone conversation of March 9, 1971. We have placed a copy of your letter of February 8, 1971 to reference your lean holders interest in these rights. The Department will notify you before any of the licensed rights are to be modified in any manner.

After reviewing permit no. 27964/36-2389, we find that the license issued on January 30, 1969 is in error and the Department is prepared to send the approval and issue a new license for additional acreage. If after reviewing a new license for additional acreage and Mr. Walters still needs additional water rights, he should file a new permit.

We will be glad to assist him in this matter.

Department of Reclamation

Dear Mr. Wolters:

According to the map filed with your final proof on desert entry Idaho 011958, water for irrigation of the land is obtained from two wells, one in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 10 and the other in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 16, T. 8 S., R. 21 E.

Your State water appropriation permit G-29038 shows the point of diversion to be in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 16. It will be necessary for you to submit evidence that you also have a right to appropriate the water from the well in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 10., T. 8 S., R. 21 E. The evidence should be in the form of a State water permit showing the point of diversion to be the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 10 and the lands irrigated to be the lands in your desert entry.

Will you please submit the required evidence to this office within the next 30 days.

Sincerely yours,

/S/ ORVAL G. HADLEY

Dear Sir:

Referring to your letter of September 7, 1960, I wish to apply for permission to use water from an existing well in the NE₄ of NE₄ of Section 16, T8S, R 21 EBM. This well is presently producing more water than is needed by the owners, and they have granted me permission to use the excess water for a Desert Entry approximately one-third mile from this well. The arable land in this Desert Entry, I believe, does not warrant drilling another well but sufficient water can be obtained from this well to water the arable land.

Hoping this gives you enough information for correct application forms, I remain,

Sincerely yours,

Mr. John A. Doerr,
Murphy, Schwartz & Cunningham,
Attorneys at Law,
1227 Lynwood Mall,
Twin Falls, Idaho.

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-29038, in the name of W. A. Wolters. Final Proof is to be made before you, as Notary on the 28th day of December, 19 65, at 9:00 o'clock A.M., at 1227 Lynwood Mall, Twin Falls, Idaho.

As of this date, we have mailed the Notice to the Northside News Jerome, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Re: Permit No. G - 29038

W. A. Walters

Box 264 R2 Box 148 Paul, Idaho
Evan Falls, Idaho

Dear Mr. Walters:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29038 are due not later than Sept. 28, 1963

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Carl E. Tupper

Dear Mr. Wolters:

We have your letter of September 9 requesting forms for filing on a well. We enclose the necessary forms.

You stated that this water is to be applied to a Desert Entry. The Bureau of Land Management requires two copies of the permit, one certified. This office will make the copies for \$2.00 if the fee is received with the application and the filing fee. The fee is \$2.90 if it comes in after the permit has been recorded.
