Remarks: *According to permit holder, on his proof form, he says the original permit states the P.D. as the SE $\frac{1}{4}$ SE $\frac{1}{4}$. He says it was later amended to read the SW $\frac{1}{4}$ SE $\frac{1}{4}$.

This is exactly the opposite to our records. We will let examiner decide.(?) jmb

Point of Diversion, is in the SE $\frac{1}{4}$ SE $\frac{1}{4}$.15 mile from Southeast Sec Corner on the South Sec line

Dear Mr. Tippet:

Enclosed please find an order modifying your permit to comply with Rules of Practice and Procedure adopted by the Department on August 1, 1968. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published.

Also find enclosed one blank application for permit and instructions along with an application partially filled out with the information obtainable from permit no. G-28828. The questions which now need to be filled in by you are circled in red.

You will notice that question 7 has been answered with a time period of five years. This is the maximum amount of time the Department allows for the submission of beneficial use proof under a permit. If you fulfill the requirements of the permit before the five year period has elapsed, you may request proof forms from the Department and submit your proof at that time.

Please contact the Department if we may be of further service to you.

Dear Mr. Tippet:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Re: Permit No. G - 28828

Dear Mr. Tippet:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 28828 are due not later than **May 7, 1967**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.
