Re: Permits G-28758 and G-28757
Paul Stroschein and Truman Bradley

Gentlemen:

Recently the land for which the above two permits are applicable has been the subject of a civil action in Lincoln County. This action has been completed and the status of things restored to status quo.

In order that Mr. Norman H. Nielson who represented one of the parties and myself complete our responsibilities to our clients regarding these permits, would you please advise us as to the status of the same, that is, in whose name the permits now are, whether there is anything left to be done on final proof except for the State's field inspection. Any comments regarding these will be appreciated. At this point I am not sure that we have all the necessary documents regarding the permits and therefore, I have made this rather general inquiry.

I want to thank you in advance for the time and effort that you may spend in answering this inquiry.

Yours very truly,

PARSONS & SMITH

Dear Mr. Bradley:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Lincoln County Journal all submitted in proof of completion of works and beneficial use on Permit No. G-28757.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Dear Mr. Bradley:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 28757 are due not later than April 4, 1967

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.
