Re: Permit No. G-28321

G. M. Gehrke, General Manager
 Sand Springs Ranch
 Wendell, Idaho

Dear Mr. Gehrke:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-28321 shows the well is (~~over~~) capable of conveying 171.5 miner's inches, or 3.43 c.f.s. of water for the irrigation of 202 acres.

Upon receipt of the statutory fees, totaling \$ 17.00 , we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$ 12.00 , based at the rate of \$2.00 for each 40-acre subdivision) confirming the right, with priority of December 10, 1959 to the use of 3.43 second feet of subterranean water with the point of diversion in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 9 for irrigation of 202 acres in the S $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ of Section 9, Township 8 South, Range 14 East, B.M.

Since your permit does not include the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 9 it will be necessary to amend the land list on the permit, if you want the extra land included in the license. Complete the enclosed form, submit it with the above mentioned statutory fees, plus an additional fee of \$1.00 for recording the amendment, to this office and the Certificate of Completion of Works and License and Certificate of Water Right will be issued as shown above. If you do not want the extra land included, the statutory fees will total \$15.00 and the land list will be restricted to the lands shown on the permit which are actually irrigated.
