

APPLICATION FOR PERMIT 36-2397

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 36007
Permit No. G- 28045
District No.

1. Name of Applicant: (Mrs.) Effie Mills
Postoffice address: Burley County: Cassia State: Idaho
2. Quantity of water claimed: 6.4 cubic feet per second
(a) Rate of withdrawal in cubic feet per second 6.4 or Idaho
Miners' inches 320 or gallons per minute
(b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean
4. Location of point of diversion or well is in the NE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 22
Twp. 7 S , Rge. 21 E. , B.M., County of Lincoln
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
(a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.,
(b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Well, pump and ditches
8. Estimated cost of works: \$ 14,000
9. (a) Is reservoir to be used? no
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is 5 years.
11. If applicant is a corporation, give:
I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: none
(a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
(b) 6.4 (cubic feet per second, inches or gallons per minute) is for new lands.

A hand-drawn geological map of a shoreline area, showing various labeled points and features. The map is oriented with a north arrow pointing towards the top-left. The shoreline is depicted with a dashed line, and the area is divided into several regions by solid lines. Key labeled points include:

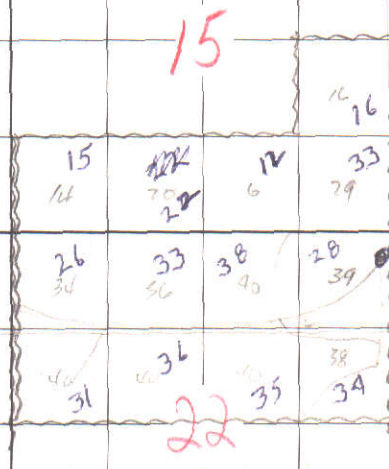

- D25**: Located in the upper right corner, with a value of 29.6.
- D**: Located in the center, with a value of 18.41.
- E**: Located in the center-left, with a value of 27.8.
- I**: Located in the center, with a value of 29.0.
- J**: Located in the center-right, with a value of 18.5.
- K**: Located in the lower right, with a value of 8.3.
- L**: Located in the center, with a value of 13.2.
- M**: Located in the lower left, with a value of 11.8.
- N**: Located in the lower left, with a value of 8.5.
- O**: Located in the lower center, with a value of 64.0.
- P**: Located in the lower right, with a value of 18.0.
- Q**: Located in the lower right, with a value of 2.5.
- R**: Located in the lower right, with a value of 11.6.
- S**: Located in the lower right, with a value of 12.8.
- T**: Located in the lower left, with a value of 10.5.
- U**: Located in the lower left, with a value of 10.5.
- V**: Located in the lower left, with a value of 10.5.
- W**: Located in the lower left, with a value of 10.5.
- X**: Located in the lower left, with a value of 10.5.
- Y**: Located in the lower left, with a value of 10.5.
- Z**: Located in the lower left, with a value of 10.5.

Other features include a large area labeled "in" in the center, a smaller area labeled "out" in the lower right, and a small area labeled "in" in the lower right. The map is drawn on a piece of paper with a metal paperclip visible in the bottom left corner.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

License and Certificate of Water Right

Water License No. G-28045 Priority December 7, 1960 Amount 5.63 c.f.s.
(late proof)

THIS IS TO CERTIFY that MRS. EFFIE MILLS

of Burley, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated July 14, 1959; that Permit No. G-28045 was issued under said application; that Certificate of Completion of Works, with a carrying capacity of 5.63 second feet, was issued thereunder on May 1, 1967, showing that said works were completed on the 10th day of December, 1965; and that on the 10th day of December, 1965, MRS. EFFIE MILLS

of Burley, State of Idaho, made proof to the satisfaction of the State Reclamation Engineer of Idaho, of a right to the use of the waters of a well,

a tributary of subterranean flow, for the purpose of irrigation, under Use Permit No. G-28045 of the Department of Reclamation, and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume 14 of Licenses, at Page 8807, on the 1st day of May, 1967.

The right hereby confirmed dates from December 7, 1960.

The Point of Diversion is located in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 22, Twp. 7 S, R. 21 E, B.M., Lincoln County.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 5.63 cubic feet per second.

Description and location of use:

Twp.	Range	Section	Forty-Acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
7 S	21 E	15	SW $\frac{1}{4}$ SW $\frac{1}{4}$	40	15
			SE $\frac{1}{4}$ SW $\frac{1}{4}$	40	22

STATE RECLAMATION DEPARTMENT

Effie H. Mills
1443 Miller Ave.
Burley, Idaho 83318

Dear Mrs. Mills:

Returned herewith is your check in the amount of \$28.00 submitted for payment of license fees for the above referenced permit. In reviewing our letter of October 10, 1966, we find the license fee was listed in error. The correct fee is \$31.00, based on a schedule of \$5.00 for the examination and \$2.00 for each forty acre subdivision in which your irrigate. These fees are a provision of the Idaho Code.

Please accept our regrets for our error and your inconvenience. Your prompt attention to this matter will be appreciated.

Very truly yours,

RE: License G-28045

Mrs. Effie Mills
1443 Miller Avenue
Burley, Idaho 83318

Dear Mrs. Mills:

This is in response to your letter of June 20th,
regarding the above numbered permit.

Once a license has been issued the water right
has been completed and becomes appurtenant to the lands.
No further action is required on this license. If the
property is sold it should go and be included with the
deeds of sale, etc.

Hope this answers all your questions.

Very truly yours,

M. RUSSELL BOSCH
Office Manager

Gentlemen:

Department of Reclamation

I have in my possession your Certificate of Completion of Works and License and Certificate of Water Right for Sections 15 and 22, also the departmental receipt No. G-11575 in the amount of \$31.00 covering the fees. My question is, is everything completed on this water permit number G-28045? If so, I would like and want a letter of acknowledgement of this completion so that I may get it recorded.

Very truly yours,

Effie Mills

O
Dear Mrs. Mills:

P
In reply to your inquiry of April 20, 1967, there have been two field examinations; the first on September 30, 1965, indicated a discharge of 242 inches while the second on July 28, 1966 showed a discharge of 281.5 inches. The 281.5 inches is the amount to be licensed as no more can be licensed than is actually produced. Your 281.5 inches for 359 acres figures 0.78 inches per acre. The average in your area is about 0.65 - 0.75 inches per acre.

Y
We hope this will increase your understanding of the situation.

Very truly yours,

Donald W. McElowney
Water Rights Clerk

Boise, Idaho

Dear Mr. Bosch:

RE: Permit No. G-28045

In regards to your letter dated 10-10-66, it is our understanding that we are entitled to 350 miner's inch of water from this well. Mr. husband and myself went to Boise in protest of the measurement of the capability of this well, and we were advised to re-advertize and etc., which we did and submitted.

Will be glad to submit the statutory fee of \$28.00, upon inspection of examiner's report. Would like the date of the field examiners report and if you have just one report.

Sincerely,

Effie H. Mills

RE: Permit No. G-28045

Mrs. Effie Mills
1443 Miller Avenue
Burley, Idaho

Dear Mrs. Mills:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-28045 shows the well(x) is ~~capable~~ capable of conveying 281.5 miner's inches, or 5.63 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 28.00 *Corrected*, we will issue the Certificate of Completion of Works for 5.63 c.f.s. and the License and Certificate of Water Right for 5.63 c.f.s. confirming the right, with priority of July 14, 1959, to the use of subterranean water with the point of diversion in NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 22, for irrigation of 359 acres in S $\frac{1}{2}$ SW $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, S $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 15; N $\frac{1}{2}$, Sec. 22, T. 7 S, R. 21 E, B.M.

Dear Mrs. Mills:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the LINCOLN COUNTY JOURNAL, all submitted in proof of completion of works and beneficial use on Permit No. G-28045.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

NOTICE

OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A.M., on the 10th day of December, 1965, at Burley, County of Casisa, State of Idaho before Judge Alfred Crane, Notary Public, at 1418 Oakley Ave., Burley, Idaho, proof will be submitted of the completion of works for the diversion of works for the diversion of 6.4 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G28,045, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Mrs. Effie Mills, 1443 Miller, Burley, Idaho.

2. Said works of diversion will be fully completed on the date for such completion, and the amount of water which said works are capable of conveying to the place of use is 6.4 cubic feet per second.

3. The use to which said water has been applied is Irrigation, purposes and the amount applied to beneficial use is 6.4 cubic feet per second.

4. The point of diversion of said water is NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 22, T 7 S., R. 21 E.B.M.

5. The place where said water is used is N $\frac{1}{2}$ Sec 22, and S $\frac{1}{2}$ S $\frac{1}{2}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec 15, T 7 S., R. 21 E.B.M.

6. The date of priority which said user is prepared to establish is July 14, 1959.

Re: Permit No. G-28045

Mrs. Effie Mills,
1443 Miller,
Burley, Idaho.

Dear Mrs. Mills:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. G-28045. The proofs are to be made at 10:00 o'clock A.M. on the 10th day of December, 1965, before Judge Alfred Crane, 1418 Oakley Ave., Burley, Idaho Notary Public.

As of this date, we have mailed the Notice to the Lincoln County Journal Shoshone, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Department of Reclamation

Notice is hereby given that at 10 A. M., on the 10th day of December
1965, at Burley, County of Cassia, State of Idaho
before Judge Alfred Crane, Notary Public, at (address) 1418
Coker Ave., Burley, Idaho, proof will be submitted of the completion
of works for the diversion of 6.4 cubic feet per second of underground water from a
well, and of the application to beneficial use of said water, in accordance with the
terms and conditions of Permit No. C-28045, heretofore issued by the Department of
Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit
is Mrs. Effie Mills 1443 Miller Burley, Idaho

2. Said works of diversion will be fully completed on the date for such completion,
and the amount of water which said works are capable of conveying to the place of
use is 6.4 cubic feet per second.

3. The use to which said water has been applied is Irrigation
, purposes and the amount applied to beneficial use is
6.4 cubic feet per second.

4. The point of diversion of said water is NE 1/4 NE 1/4 Sec 22
T 7 S, R 21 E B M.

5. The place where said water is used is N 1/2 Sec 22 and S 1/2 S 1/2
and NE 1/4 SE 1/4 Sec 15 T 7 S, R 21 E B M.

6. The date of priority which said user is prepared to establish is July 14, 1959

RE: Permit No. G-28045

Mrs. Effie Mills
1443 Miller
Burley, Idaho

Dear Mrs. Mills:

Returned herewith is your Notice of Proof for the above numbered permit. It is noted that you have included additional ground not covered by the permit. The land list on the permit is for only the N $\frac{1}{2}$ of Section 22. Therefore, if you desire to add the S $\frac{1}{2}$ and the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 15, you will have to amend the permit to include this land. No additional water can be allowed on the permit. There is a fee of \$1.00 for making this amendment and the forms are enclosed.

Please make the necessary corrections and/or amendment and return all forms promptly.

It is further noted that the date for making the proofs is not 40 days subsequent to the date received by this office, therefore, please advance the proof dates to the latter part of December or early part of January.

Very truly yours,

LAND LIST

Permit No. 28,045

RECEIVED
NOV 9 1965

Comes now Mrs. Essie Mills Department of Reclamation presents

to the STATE RECLAMATION ENGINEER of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 28,045, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

N 1/2 Sec. 22, and, S 3 1/2 and NE 1/4 Sec. 15 T 7 S, R 21 E B M

_____, making a total of 520 acres.

That an additional amount of water _____, _____ the rights of others will not be adversely affected by such change.

Signed at Boise, Idaho this 9 day of November, 1965

Essie Mills

Date of receipt at office of Department of Reclamation Nov. 9, 1965

APPROVAL OF STATE RECLAMATION ENGINEER

Ralph W. Thomas, Deputy

I, ~~Geo. W. Carter~~, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. 28,045. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, _____ of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Ralph W. Thomas
Deputy

November 2, 1965

RE: Permit No. G-28045
G-28942

Archer "I" Mills
1443 Miller Avenue
Burley, Idaho

Dear Mr. Mills:

This is in reply to your inquiry of November 1 as to the amount of water to be licensed under Permit No. G-28045.

According to our records you are involved in two separate permits on the same well. One permit, G-28045, for 6.4 c.f.s. for the N $\frac{1}{2}$, Sec. 22, T. 7 S., R. 21 E., B.M., and another, G-28942, for 4.c.f.s. for the S $\frac{1}{2}$ S $\frac{1}{2}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 15, T. 7 S., R. 21 E., B.M.

G-28942 is due to be cancelled and will likely be cancelled soon.

Proofs have been completed on G-28045. The total irrigated acreage involved in both permits is about 338 acres. The maximum allowable water right would be for 6.76 c.f.s. under both permits unless additional land has been put in since 1964.

The easiest solution to your problem would probably be to write a letter to this department, signed by Mrs. Effie Mills, requesting withdrawal of the proofs made on Permit No. G-28045 and asking for an amended land list to include the N $\frac{1}{2}$, Sec. 22 and the S $\frac{1}{2}$ S $\frac{1}{2}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 15, T. 7 S., R. 21 E., B.M. New proofs could then be made and a license issued for up to 6.4 c.f.s. The license would have a later date of priority depending on how soon new proofs could be made. It would also be necessary for you to readvertise.

Our field report shows actual discharge at the time of measurement was 4.84 c.f.s. and notes that the pump was not operating efficiently.

28045

continued - page 2

At the time new proofs are made the pump should be operating efficiently. Only the discharge as measured by the inspector can be licensed.

Enclosed find land list amendment form and forms 36 and 11 for advertising the changed land list if you wish to proceed as outlined in this letter.

Other alternatives would be to submit proofs immediately on your desert entry land, Permit No. G-28942, or to apply for a new permit for water on this land to be drawn from the same well. If more than 85 acres are now irrigated in Section 15 one of these alternatives would probably be better than the first outlined.

Any of the alternatives described in this letter will give you another measurement on the well and a license for the use of more water if the pump produces it.

Very truly yours,

RALPH W. THOMAS
Deputy State Reclamation Engineer

October 15, 1965

RE: Permit No. G-28045

Mrs. Effie Mills
1443 Miller Avenue
Burley, Idaho

Dear Mrs. Mills:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-28045 shows the well is ~~xxxx~~ capable of conveying 242 miner's inches, or 4.84 c.f.s. of water for the irrigation of 253 acres.

Upon receipt of the statutory fees, totaling \$ 21.00 , we will issue the Certificate of Completion of Works and the License and Certificate of Water Right confirming the right, with priority of July 14, 1959 , to the use of 4.84 second feet of subterranean water with the point of diversion in the NE~~NE~~NE~~NE~~, Sec. 22 for irrigation of the N~~2~~2, Sec. 22, T. 7 S., R. 21 E., B.M.

Describe works for conveying water to place of use: Main ditch in middle of ground.

Ques. 5. How many second feet of water do you estimate said works will safely conduct
to place of use: 6 $\frac{1}{2}$ to 7 How much water have you seen being so

conveyed: same

Ques. 6. If for irrigation, show number of acres irrigated in each subdivision, giving
full legal description:

NE $\frac{1}{4}$ 70 acres, SE $\frac{1}{4}$ 72 acres, NW $\frac{1}{4}$ 73 acres, and SW $\frac{1}{4}$ 70 acres. of N $\frac{1}{2}$ S 22, T 7 S -
R 21 E., B. M.

Ques. 7. If for power or other purposes than irrigation, state how water has been used:

None

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation:

Character of land is lava ash and the amount of water required is 3/4 to one inch per acre.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent: None

Ques. 10. When did you first see this water used: 1962

Other times you have seen such use: 1963 and 1964.

(Signed)

Carl R. Chesley

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in BURLEY

 , County of CASSIA, State of Idaho, on this 8th day of June,
A. D., 1962.

Alfred H. Chandler

June 9, 1964

Re: Permit No. G-28045

Effie Mills
1443 Miller Ave.
Burley, Idaho

Dear Mrs. Mills:

Returned herewith are Forms 16 and 17A, proof of completion of works and beneficial use, for above noted permit for correction.

For Item 4, our record shows the point of diversion to be in the NE¹/₄NE¹/₄, Sec. 22, T. 7 S., R. 21 E. If you agree with this please correct depositions.

For Item 6, our record shows the land to be irrigated as the NE¹/₄, Sec. 22, T. 7 S., R. 21 E. If you are irrigating only a portion of this land, please show the number of acres in each 40-acre subdivision.

The deposition of holder is signed by some one other than yourself. We can only accept it with your signature unless you will give power of attorney to another party. If this is the case, please submit evidence of power of attorney with your proofs.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

Re: Permit No. G- 28045

May 1, 1965

Mrs. Effie Mills
c/o Archie L. Mills
1443 Miller Ave.
Burley, Idaho

Dear Mrs. Mills:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 28045 are due not later than July 17, 1964

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

CARL E. TAPPAN

State Reclamation Engineer

Re: Permit No. G-28045

Mrs. Effie Mills,
Burley, Idaho.

Dear Mrs. Mills:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. G-28045. The proofs are to be made at 10:00 o'clock A.M., on the 8th day of June, 1964, before Judge Alfred Crane, 1418 Oakley Avenue, Burley, Idaho, Notary Public.

As of this date, we have mailed the Notice to the Lincoln County Journal Shoshone, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

CARL E. TAPPAN
