Gentlemen:

Our office acknowledges receipt of Assignment of Permit for the above referenced water rights. However, in reviewing the files I find that the Permits have been licensed.

In Idaho, a licensed water right is considered real property and is acquired when the property to which it is appurtenant to is purchased. Proof to owning the property is proof of owning the water right license.

Therefore, I have put the Assignment of Permit into the files for future reference only and no other action will be taken. I have also enclosed copies of the licenses for your records.

If you have any questions please feel free to contact our office.

Re: Permit No. G-27619

Kue H. Beames

Dear Mr. Beames:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-27619 shows the well is (~~200~~) capable of conveying 82 miner's inches, or 1.64 c.f.s. of water for the irrigation of 320 acres.

Upon receipt of the statutory fees, totaling \$ 5.00 , we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$, based at the rate of \$2.00 for each 40-acre subdivision) confirming the right, with priority of November 17, 1958 to the use of 1.64 second feet of subterranean water with the point of diversion in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 30, for irrigation of 320 acres in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ of Section 30; N $\frac{1}{2}$ N $\frac{1}{2}$ of Section 31; NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 32, Township 9 South, Range 21 East, B.M.

Since the lands covered by this permit are the same as those irrigated under Permit No. G-26331 the fee is for Completion of Works only. However the License and Certificate of Water Right on Permit No. G-27619 will not be issued until all fees on Permit No. G-26331 are paid.
