Dear Sir,

In regards to your letter about permit G-27488 I was not aware that I was to make Benefical Proof and that they were due August 5.1963. This is my first time drilling a well and I thought when I received the permit that was all that was necessary. If you will give me some more information and what I have to do I will get the necessary things done. Is there a certain form that I have to fill out, if so send it to me. Please let me know what I have to do. I am very busy now harvesting as we are very short of help and the time is getting limited. I presume this has to be advertised in the papers , witnesses , etc something like the proof on the land.
So let me know more about it.

Dear Mr. McDowell:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G-27488 are due not later than Aug. 5, 1963

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.
