Dear Dave:

Please accept this letter as a follow-up to our telephone conversation of March 9, 1971. We have placed a copy of your letter of February 8, 1971 to reference your lean holders interest in these rights. The Department will notify you before any of the licensed rights are to be modified in any manner.

After reviewing permit no. 27964/36-2389, we find that the license issued on January 30, 1969 is in error and the Department is prepared to send the approval and issue a new license for additional acreage. If after reviewing a new license for additional acreage and Mr. Walters still needs additional water rights, he should file a new permit.

We will be glad to assist him in this matter.

Very truly yours,

Dear Sir:

The fee for recording an assignment is 50¢ which you may remit to this office for permit G-27238.✓

Regarding the assignment recorded for permit No. G-27618, we feel it would not be necessary to revise the assignment since it was made to the partnership. Since E. A. Wolters is one of the partners his interest in it should not be affected. If it is desired to have his name mentioned in the assignment it will be necessary to make another assignment by the 3 partners to the four.

W. A. Wolters signed the proof of completion of works and beneficial use for the partnership.

Very truly yours,
