RE: Permit No. G-27086

Evelyn M. Humphrey
1220 F Street
Rupert, Idaho

Dear Mrs. Humphrey:

Enclosed are the Certificate of Completion of Works and License
and Certificate of Water Right on the above numbered permit.

Also enclosed is departmental receipt No. G-8449 in the amount
of \$21.00 covering the fees.

The only possible way we could issue you a license for the
4.65 c.f.s. the well produces would be for you to readvertise
and make new proofs.

Very truly yours,

Re Permit No.
G-27086

Dear Mrs Rule:

Thank you for your letter and explanatory note of Nov. 19 concerning permit no G-27086. Our check for the statutory fees as indicated is enclosed.

Is it possible to amend our notice of proof so that we may yet receive a license to 4.65 cfs. as actually measured. The amount given in our proof was based on the manufacturers claim for the pump and motor in use and we had no other guide to indicate the quantity of water actually used.

Sincerely yours,
Ben K. Humphrey, M.D.

Re: Permit No. G-27086

Evelyn M. Humphrey
1220 F Street
Rupert, Idaho

Dear Mrs. Humphrey:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-27086 shows the well is ~~(are)~~ capable of conveying 220 miner's inches, or 4.4 c.f.s. of water for the irrigation of 318 acres.

Upon receipt of the statutory fees, totaling \$ 21.00, which consists of a Completion of Works fee of \$ --- and License and Certificate of Water Right fee of \$ --- - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right, confirming the right, with priority of September 30, 1957 to the use of 4.4 second feet of subterranean water with the point of diversion in the NW 1/4, Sec. 9 for irrigation of 318 acres in the E 1/2, Sec. 8; W 1/2, Sec. 9, T. 8 S., R. 21 E., B.M.

Because your notice of proof claimed that the works were capable of conveying 4.4 c.f.s. we can only issue a license for that amount rather than the 4.65 c.f.s. the well actually produces. This is a ruling from the office of the Attorney General.

Dear Mrs. Humphrey:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the North Side News Jerome, Idaho, all submitted in proof of completion of works and beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Rupert, Idaho.

Dear Mr. Creason:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-27086, in the name of Evelyn Martindale Humphrey. Final Proof is to be made before you, as Notary on the 6th day of August, 19 63, at 10:00 o'clock A.M., at Rupert, Idaho.

As of this date we have mailed the Notice to the North Side News Jerome, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Dear Mrs. Humphrey:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 27086 are due not later than **October 11, 1962.**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

State Reclamation Engineer
