Gentlemen:

Our office acknowledges receipt of Assignment of Permit for the above referenced water right. However, in reviewing the file I find that the Permit has been licensed.

In Idaho, a licensed water right is considered real property and is aquired when the property to which it is appurtenant to is purchased. Proof to owning the property is proof of owning the water right license.

Therefore, I have put the Assignment of Permit into the file for future reference only and no other action will be taken. I have also enclosed a copy of the license for your records.

If you have any questions please feel free to contact our office.
