Dear Mr. Brown:

We have received your correspondence regarding The Mutual Life Insurance Company of New York's security interest in water rights appurtenant to property now owned by Jefferson and Jacqueline Hunt, Bruce and Rebecca Pincock and H & P Farms.

Ownership changes for claims in the Snake River Basin Adjudication must be recorded, therefore, copies of your letter and attachments have been forwarded to the Adjudication Bureau for updating of their records.

Such updates are not required in our water right processing, thus copies of your documentation have been placed in our paper files for future reference only. The addition of a lienholder into our computer system serves little purpose and correspondence which would be generated on these rights from our processing staff likely would have no application for a lienholder.

In the future, you can direct this type of correspondence directly to the Adjudication Bureau.

If I can be of further assistance, please feel free to contact me.

Sincerely,

for *Sharla Curtis*

Water Rights - Lienholder's Interest

Gentlemen:

The Mutual Life Insurance Company of New York (MONY) has closed a loan transaction with Jefferson F. Hunt and Jacqueline L. Hunt, husband and wife, Bruce W. Pincock and Rebecca L. Pincock, husband and wife, and H & P Farms, a Partnership. In connection with said loan transaction, MONY has mortgaged certain real estate owned by Jefferson F. Hunt and Jacqueline L. Hunt, husband and wife, Bruce W. Pincock and Rebecca L. Pincock, husband and wife, and H & P Farms, a Partnership, and taken a security interest in the water rights appurtenant to and used in connection with said real property.

It is my understanding that State of Idaho Department of Water Resources now has all water rights on a computer system and that a notice of MONY's security interest will be entered into that system. For your use, I now enclose duplicate copies of the legal descriptions for the real property encumbered by MONY's mortgage and the water rights appurtenant thereto. It is my understanding that one copy will be dated the day that you receive it and returned to me to acknowledge receipt, and that the second copy will be retained by your department for your file.

The lienholder's name and address to be registered in you system and used for all required notifications and correspondence is as follows:

Dear Mr. Betcke:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the First Segregation ~~Nampa~~, all submitted in proof of completion of works and beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. Botke:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 26833 are due not later than **April 11, 1962.**

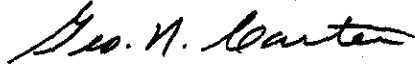

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

RE: Application for Permit

Mr. Eldo C. Betcke
Hazelton, Idaho

Dear Mr. Betcke:

In reply to your letter of March 30th, we enclose a form of Application for Permit to Appropriate Subterranean water from a well together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a Use Permit under which you may proceed with the construction of the work described in the application.

In order to complete your water right, proofs of Completion of works and application of the water to Beneficial Use are required. The time required for making these proofs should be indicated under Question 10.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

State Reclamation Engineer,

State Reclamation Office,

Boise, Idaho.

Dear Sir:

I received a letter several days ago from the B. L. M. land office
s aying they had requested your office to send me the necessary forms
to file an application for a permit to drill a well for irrigation
water on a desert entry claim that I have filed with them.

To date I have not received them and would like very to have you
mail them to me as soon as possible.

Yours truly
