Hand-drawn map of a 3x3 grid of lots. The grid is divided into 9 squares. The top row has "P.D." with an arrow pointing to the top-left square, "40" in the top-middle square, and "40" in the top-right square. The middle row has "40" in the middle-left square, "40" in the middle-middle square, and "R.B." in the middle-right square. The bottom row has "40" in the bottom-left square, "40" in the bottom-middle square, and "34" in the bottom-right square. Below the grid, there are three labels: "Lot 4" with a blue circle, "Lot 3" with a blue circle, and "Lot 2" with a blue circle. A dashed line runs horizontally across the middle of the grid, and a dashed line runs vertically between the middle and bottom rows. A red dashed line runs diagonally from the bottom-left corner of the middle-right square to the bottom-right corner of the bottom-middle square.

Dear Mr. Gordon:

It has been brought to our attention that on or about August 4, 1957, you had a well drilled. The well is reported to be located at a point in the SE 1/4 SW 1/4, sec. 27, T. 10 S, R. 20 E, B.M. for irrigation use.

A search of our records has failed to find your application or approved permit. Under existing Idaho Statutes, Sections 42-226, 42-229, and 42-230 of the Idaho Code, you are required to file and obtain an approved permit before you divert waters from a subterranean source, with the exception of domestic wells which are defined under Section 42-111 of the Idaho Code.

If we have overlooked your permit, please advise the department as to your permit number. However, if you have not yet filled out an application for permit, please use the instructions and the blank application form which we have enclosed.

We will be very happy to assist you with any questions you might have.

Dear Mr. Gordon:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-26831 shows the well is ~~now~~ capable of conveying 11 1/4 miner's inches, or 2.28 c.f.s. of water for the irrigation of 260 acres.

Upon receipt of the statutory fees, totaling \$ 19.00 , we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$ 14.00 , based at the rate of \$2.00 for each 40-acre subdivision) confirming the right, with priority of April 8, 1957 to the use of 2.28 second feet of subterranean water with the point of diversion in the SE 1/4 SW 1/4 of Section 27 for irrigation of 260 acres in the SE 1/4 SW 1/4, SW 1/4 SE 1/4 of Section 27; NW 1/4 NE 1/4, NW 1/4 of Section 34, Township 10 South, Range 20 East, B.M.

Since your permit does not include the S 1/4 NW 1/4 of Section 34 it will be necessary to amend the land list on the permit, if you want the extra land included in the license. Complete the enclosed form, submit it with the above mentioned statutory fees, plus an additional fee of \$1.00 for recording the amendment, to this office and the Certificate of Completion of Works and License and Certificate of Water Right will be issued as shown above. If you do not want the extra land included, the statutory fees will total \$15.00 and the land list will be restricted to the lands shown on the permit which are actually irrigated.

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-26831 shows the well is ~~(xxx)~~ capable of conveying 11 1/4 miner's inches, or 2.28 c.f.s. of water for the irrigation of 260 acres.

Upon receipt of the statutory fees, totaling \$ 19.00 , we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$ 14.00 , based at the rate of \$2.00 for each 40-acre subdivision) confirming the right, with priority of April 8, 1957 to the use of 2.28 second feet of subterranean water with the point of diversion in the SE 1/4 SW 1/4 of Section 27 for irrigation of 260 acres in the SE 1/4 SW 1/4, SW 1/4 SE 1/4 of Section 27; NW 1/4 NE 1/4, NW 1/4 of Section 34, Township 10 South, Range 20 East, B.M.

Since your permit does not include the S 1/2 NW 1/4 of Section 34 it will be necessary to amend the land list on the permit, if you want the extra land included in the license. Complete the enclosed form, submit it with the above mentioned statutory fees, plus an additional fee of \$1.00 for recording the amendment, to this office and the Certificate of Completion of Works and License and Certificate of Water Right will be issued as shown above. If you do not want the extra land included, the statutory fees will total \$15.00 and the land list will be restricted to the lands shown on the permit which are actually irrigated.

Thanks!
Very Truly Yours

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

RE: Permit No. G-26831

Bruce E. Gordon
101 Fillmore St.
Twin Falls, Idaho

Dear Mr. Gordon:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the First Segregation News, all submitted in proof of completion of works and beneficial use on Permit No. G-26831.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Oct. 2, 1959

Dear Sir

In regard to the
W 1/2 - NW 1/4 - NE 1/4 - Sec 34 T. 10 S., R. 20 E., B. M.

We didn't own this piece of land
when we made the filing. We do
own and irrigate it now because
it lays good.

We drilled one well that was
dry, and the second well will
only produce about 2 1/3 cu. ft of water
and this is all the water actually
used.

We do need more water for
the land we own, but at present
farm prices, we can't afford to
drill.

Hoping this meets with your
approval

Twin Falls, Idaho.

Dear Mr. Gordon:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26831. The proofs are to be made at 3:00 o'clock P.M., on the 9th day of November, 1959, before Carl E. Gundelfinger, Hazelton, Idaho., Notary Public.

As of this date we have mailed the Notice to the First Segregation News with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permit No. G-26831

Mr. Bruce E. Gordon
101 Fillmore St.
Twin Falls, Idaho

Dear Mr. Gordon:

Enclosed are two form 36 and one form 11 you submitted in regard to proofs under Permit No. G-26831 and form for amending the land list.

On form 36 you show W₂NW₄NE₄, Sec. 34, T. 10 S., R. 20 E., S. 2. as part of the land being irrigated. That land is not described in our permanent record. If that land is actually being irrigated kindly complete the amendment form to correct our record.

The amount of water shown as being used is a sharp reduction from the amount on the permit. The amount shown should not be less than the amount actually being used.

Kindly return the forms promptly so that the date given for making the proofs will not have to be changed.

Very truly yours,

GEO. W. CARTER
State Reclamation Engineer

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-26831

Department of Reclamation

Comes now Bruce E. Gordon and represents to the State
Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public
Waters of the State of Idaho, No. G-26831.

That the point of diversion is described in said permit as being
located NE 1/4 - NW 1/4 - of Section 34 Twp. 10 S., Rge., 20 E., B.M., Jerome Co.

That he now requests that the point of diversion be changed to a
point located SE 1/4 - (SW 1/4) of Section 27, Twp. 10 S., Rge., 20 E., B.M., Jerome Co.

That his reasons for desiring to make such change are as follows:
Failed to get sufficient water.

That no one will be injured by such change, and that such change
will be made at Permit Holder's own risk.

Signed Bruce E. Gordon, this 27 day of July 1957

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho,
hereby approve the above and foregoing application for amendment to Permit to
appropriate the Public Waters of the State of Idaho, No. G-26831. This
approval constitutes a new permit and is issued as an amendment to the original
permit, to which it refers and of which it becomes a part, and said application
is approved only insofar as the rights of others will not be adversely affected
thereby.
