Re: Transfer Application No. 3650/Application for Permit
No. 36-8498

Dear Applicants:

In January of 1990, you filed an application for permit (no. 36-8498) for appropriation of 1.0 cfs of groundwater from an existing well for irrigation of 250 acres in section 18, T10S, R21E (see attached application). The Department did not immediately process this application because of an existing backlog of applications at that time which resulted from the Swan Falls litigation and settlement.

In February of 1990, you filed an application for transfer of water right no.s 36-2313 and 36-2052. The stated intent of the transfer was to spread these existing rights, which you referred to as wastewater, over the whole farm unit until a permit for additional groundwater could be obtained.

For one reason or other, processing of your transfer was delayed. The transfer should have been approved within a few months of filing. Instead, our office has just received the transfer from our regional office. We are currently reviewing the transfer for final approval. I also have learned that we are also in the middle of processing your groundwater application. We still need to advertise the application but I believe we can complete processing and issue approval by the first of February. Actually, processing of the application should have been completed by now. I apologize on behalf of the Department for the delays.

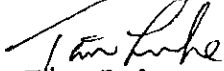

The purpose of this letter is to ask how you wish to proceed with the transfer. Since it has not been approved, and approval of the groundwater application is likely within the next two months, it appears that the transfer will no longer be needed. You may want to consider withdrawing the transfer. If so, please inform me at this office either in writing or by calling me directly at 327-7864.

We ask that you respond to this inquiry at your earliest convenience. The earlier you respond, the earlier I think we will be able to approve the groundwater filing and resolve all pending matters.

Respectfully,

Tim Luke

Attn: Tim Luke

Dear Mr. Luke

As per our phone conversation of the other day I am writing to confirm our decision to cease the above mentioned transfer application, pending the approval of the Permit for additional water No. 36-8498. With the dates that you mentioned of approval sometime in February we will not need the transfer processed.

If there are any further problems with the approval or if we can assist in any further way please let me know.

Dear Mr. Hall:

We are returning your Proof of Completion of Works for the following information.

Under Sixth: - Dimensions of Works - please give a more detailed explanation.

Under Eighth: - You list the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 17, T. 10 S., R. 21 East Boise Meridian as the land under irrigation, but you do not show this 40 on your permit. Your list of land on the permit is S $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 8; NW $\frac{1}{4}$, Sec. 17; NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 18, T. 10 S., R. 21 E., however if you wish to include the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 17, as shown on your Proof of Completion of Works, please return the enclosed amendment to the land list with your proof with a \$1.00 fee for recording.

The fee of \$5.00 for the Certificate of Completion of Works was not included when you sent the proof.

Please make the above corrections, return the Proof of Completion of Works, the amendment with \$1.00 recording fee if needed, and include the \$5.00 fee and the Certificate of Completion of Works will be issued.

Dear Sir:

Under the terms of your permit No. 26624 you are required to complete your diversion works on or before Nov. 29, 1961. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
