Dear Mr. McKinlay:

As requested in your letter of September 24, 1970, we have researched our files, and find two licensed water rights appurtenant to a well located within the SW $\frac{1}{4}$ SE $\frac{1}{4}$, of Section 30, Township 9 S, Range 21 E.

License No. 36-2299, is in the amount of 2.2cfs, with a priority of April 16, 1956, and is appurtenant to 320 acres located within Section 30, 31, and 32, of Township 9S, Range 21 E. License No. 36-2364, is in the amount of 1.64cfs, with a priority of November 17, 1958. This license is appurtenant to 320 acres located within Sections 30, 31, and 32, of Township 9 S, Range 21 E. Both of these licenses are in the name of Kue Beames.

If we can be of any further assistance in this matter, please advise.

Dear Mr. Beames:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 26331 are due not later than April 19, 1960

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

**To Permit to appropriate the Public Waters
of the State of Idaho, No. G-26331.....**

Comes now Kue H. Beames, and represents to the State
Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to appropriate the Public Waters of the State of
Idaho, No. G-26331, and requests that the list of lands to be irrigated, as described in said
permit, be changed to read as follows:

SW¹/₄ SW¹/₄, E¹/₂ SW¹/₄, SE¹/₄ Sec. 30; NW¹/₄ Sec. 31; NW¹/₄ NW¹/₄ Sec. 32, Twp. 9 S., Rge. 21 E. BM
SW¹/₄ SW¹/₄, E¹/₂ SW¹/₄, SW¹/₄ n¹/₂ n¹/₂ nw¹/₄ nw¹/₄

....., making a total of 180 acres.

That an additional amount of water is not asked for, and that the rights of others will not be ad-
versely affected by such change.

Dear Mr. Beames:

On April 19, 1956, we wrote you acknowledging receipt of your application for Permit to Appropriate Subterranean Waters of the State of Idaho and calling attention to the filing fee submitted which was in the form of a check for the sum of \$5.25. That amount is correct providing you wish to file for the 100 Miner's inches but if the 2.2 cubic feet per second is desired as you state under question two then an additional .25 cents is necessary.

It is necessary that this fee be corrected before the Permit can be issued. However with your permission we could change the quantity of water claimed under question two on your application to read 2.0 cfs rather than 2.2 and in that event the check for \$5.25 is correct and the Permit could be issued immediately.

Please answer by return mail so this difference in fee can be cleared and the Permit issued.

Dear Mr. Beames:

We acknowledge receipt of your Application for Permit to Appropriate Subterranean Waters of the State of Idaho accompanied by your check for \$5.25 for the filing fee. However, we note that in question 2, Quantity of water claimed, you state 2.2 cubic feet per second and in the (a) part of question 2, you state 100 Miner's inches which would be equal to 2 cubic feet per second.

If you wish to file on 2.2 cubic feet per second, the filing fee will amount to \$5.50 and an additional twenty-five cents will be required by this office; on the other hand if you wish to file on only 2 cubic feet per second, the check of \$5.25 will be sufficient.

Please advise us which amount of water you wish to file on and if for 2.2 cubic feet per second, please enclose the additional twenty-five cents.
