Twin Falls, Idaho

Dear Mr. Nutting:

The field engineer's report on the well in the NE corner of SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 14, T. 7 S., R. 14 E. is producing 1.8 cubic feet per second for irrigation of 100 acres of land. Priority of the Permit is April 18, 1955.

Mr. Dille was notified that the fees totaled \$13.00 for the Certificate of Completion of Works and the License and Certificate of Water Right. We have no record of receiving the fees.

The field engineer's report shows the quantity of water was checked by computation and observation of the flow from the well. The motor was stopped to attach the meter and would not start again so the water was not actually measured.

Dear Mr. Carter:

I am making an appraisal on the George H. and Joseph K. Dille property in Gooding County and need some information on a well situated in the northeast corner of Sw $\frac{1}{4}$ Sw $\frac{1}{4}$ Section 14, Twp 7 S, Range 14 E.B.M. It is my understanding that the well was measured this past summer.

If a license has been issued, what is the number, date of priority, amount of water, and acres served? What is the static water level and how much drawdown? How many gallons per minute will the well produce?

Your assistance is greatly appreciated in these matters.

Very truly yours,

Dear Mr. Nutting:

The field engineer's report on the well in the NE corner of SW1SW1, Sec. 14, T. 7 S., R. 14 E. is producing 1.8 cubic feet per second for irrigation of 100 acres of land. Priority of the Permit is April 18, 1955.

Mr. Bille was notified that the fees totaled \$13.00 for the Certificate of Completion of Works and the License and Certificate of Water Right. We have no record of receiving the fees.

The field engineer's report shows the quantity of water was checked by computation and observation of the flow from the well. The motor was stopped to attach the meter and would not start again so the water was not actually measured.

Dear Mr. Carter:

I am making an appraisal on the George H. and Joseph K. Dille property in Gooding County and need some information on a well situated in the northeast corner of Sw $\frac{1}{4}$ Sw $\frac{1}{4}$ Section 14, Twp 7 S, Range 14 E.B.M. It is my understanding that the well was measured this past summer.

If a license has been issued, what is the number, date of priority, amount of water, and acres served? What is the static water level and how much drawdown? How many gallons per minute will the well produce?

Your assistance is greatly appreciated in these matters.

Dear Mr. Dille:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 25624 are due not later than **May 3, 1960.**

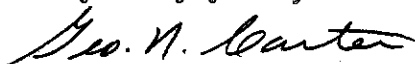

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
