Re: License 36-2276

Dear Mr. Hayes:

This office is in receipt of your letter requesting change of ownership of License 36-2276.

A water right evidenced by license is appurtenant to the land described in the license and its ownership runs with the land unless specifically withheld in a transfer of title.

Idaho statutes do not require or provide any procedure for recording of changes in ownership of licenses unless there is to be a change in place of use, point of diversion, or nature of use of the water right.

We will retain your letter in the water right file as evidence of present ownership of the water right.

Very Truly yours,

Dear Mr. Stoller:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. Q-25416. The proofs are to be made at 10:00 o'clock A.M., on the 19th day of January, 1960 before Lawrence H. Duffin, Fremont & G St., Rupert, Ida. ¹⁹⁵⁹ ~~Notary Public.~~

As of this date we have mailed the Notice to the Minidoka County News with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

In re: Permit G-25416
Dallas M. Stoller

Attention: Mrs. Edna P. Rutledge, Chief Clerk

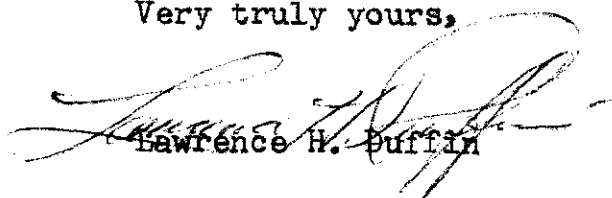

Dear Sir:

Receipt is hereby acknowledged of your letter of December 10, 1959 in regard to the above-mentioned permit.

Section 7, Township 8 South, Range 23, is a correction section, consisting of only approximately 320 acres. The North Half of this Section was described in the original application as the Northeast Quarter of Section 7, whereas it would have been more realistic to describe it as the North Half of Section 7. However, I believe that both descriptions are correct, inasmuch as the 320 acres missing from Section 7, in order to make the correction, is the West one-half of that Section. It is also our understanding that the Southwest Quarter of what was originally called the Northeast Quarter of Section 7, is Lot No. 2 and that quarter was described in the alternative in the original application as the Southwest Quarter of the Northeast Quarter, or Lot No. 2.

I do not believe that it will be necessary to amend the application or the notice, inasmuch as the legal descriptions are sufficient in either case. However, if you believe it necessary, please advise.

Very truly yours,

Lawrence H. Duffin

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 25416 are due not later than February 11, 1960.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.
