ATTENTION: Mr. Sylvester M. Heiner

Dear Mr. Heiner:

We acknowledge receipt of your letter of February 11th, in regard to the Permits above captioned.

If your request for an Extension of Time on these Permits had been received in this Department before November 27, 1956, the date the Proofs were due, the Extension of Time could have been approved but, an Extension of Time is not possible at this late date. Therefore, it becomes necessary for you to make Proof of Completion of Works and Beneficial Use as soon as possible if these Permits are to be reinstated.

Before these proofs are made, the statutes require publication of a notice once a week for four weeks in a county newspaper. This notice should be made in duplicate on Form 36 enclosed, setting the time and place and naming the notary public before whom the proofs are to be made.

The proofs may be made at any place convenient for you and your two witnesses but the date must be set far enough ahead to allow for four weeks publication.

Both copies of Form 36 to be returned to this department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing and shall send you the forms of deposition to be executed by yourself and two disinterested witnesses in making these proofs.

SUBJECT: Permits G 25283 and G 25284

Dear Mr. Kulp:

Please be advised that we certainly intended to file Completion of Works and Beneficial Use Proof on the above wells on November 27, 1956 as scheduled. However, due to personnel changes and lack of help this important matter was ignored. We are also used to receiving the Beneficial Use forms from your office previous to the filing time which we did not receive this year.

The wells covered by Permits G 25283 and G 25284 were used last year for water source for our processing requirements. We have a connection with the electrical utility which would enable us to run the wells during our inter-campaign period. However, this is expensive in that it establishes a high demand. We would like to extend the Beneficial Use Proofs & Completion of Works until next campaign. We suggest November 5 or November 12, 1957. However, if this jeopardizes our rights in any way, we could make proof in the near future.

We await your decision.

RE: Permits Nos. G-25283 and G-25284

The Amalgamated Sugar Company
Box 431
Ordan, Utah

Gentlemen:

We enclose herewith the above numbered Permits together with an additional copy of each, together with departmental receipt No. G-865 for the \$11.50 filing fee.

Although we note that the works are completed, we have allowed two years within which to make the proofs of completion of works and beneficial use which is the minimum that we can require under the current statute.

However, these proofs may be made at any earlier date that you are prepared to make them and we shall be glad to send the necessary forms and instruction upon request.

Very truly yours,

MARK R. KOLP
State Reclamation Engineer
