Dear Mrs. Frazier:

Enclosed are copies of the two licenses about which you requested information by telephone on April 17.

These licenses may be used on the land which was being irrigated at the time the license was issued. Any change in the land irrigated, or point of diversion, must be preceded by an Application for Transfer. A transfer application is enclosed for your consideration.

To determine whether a transfer should be allowed, we must consider the possible injury that the change would cause existing water rights and also if the change would constitute an enlargement of the original licensed right.

We hope this has provided the information you were seeking.

Sincerely,

Gentlemen:

It has been brought to our attention that on or about
April 24, 1957, you had a well drilled. The
well is reported to be located at a point in the SW 1/4
xxxxxx, sec. 5, T. 8 S, R. 26 E, B.M. for
irrigation use.

A search of our records has failed to find your
application or approved permit. Under existing Idaho
Statutes, Sections 42-226, 42-229, and 42-230 of the
Idaho Code, you are required to file and obtain an
approved permit before you divert waters from a sub-
terranean source, with the exception of domestic wells
which are defined under Section 42-111 of the Idaho Code.

If we have overlooked your permit, please advise the
department as to your permit number. However, if you have
not yet filled out an application for permit, please use
the instructions and the blank application form which
we have enclosed.

We will be very happy to assist you with any questions
you might have.

Very truly yours,

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Verna W. Dean, Assignees :

Assignment Not Recognized

On January 17, 1957, a Quitclaim Deed and Affidavit of Assignee were filed assigning desert land entry, Idaho 05396, of Dorothy K. Hedrick to Alice M. and Verna W. Dean.

The assignee in this case is not an individual but two persons.

No assignment of a desert land entry is conclusive until recognized by the Land Office. This assignment is not recognized and the records of this office show Dorothy K. Hedrick as the entrywoman of record and all official correspondence will be addressed to her.

Re: Application No. G33059
Permit No. G25216

Dear Sir:

There
~~It~~ was filed in your office a certified copy of Quitclaim Deed
And Assignment of the above permit under date of December 19, 1956.

This will advise you that the assignment was not recognized by
the land office of the Department of Interior. In addition, the
land description in the deed and assignment was erroneously design-
ated as Minidoka County instead of Blaine County.

We have been representing all the parties involved in this
transaction, and intend to prepare new deed and assignment which
will correctly describe the land and which will be recognized by
the land office.

Will you please forward to us ^{the} a certified copy of Deed and
Assignment first above mentioned, and we shall replace it with
a proper instrument.

Very truly yours,

BELLWOOD & GOODMAN
