CONDITIONS OF APPROVAL AND REMARKS

1. The right holder shall measure and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code.
2. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
3. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
4. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
5. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
- **** 6. The total instantaneous diversion of water from all points of diversion under Transfer 5282 shall not exceed 7.86 cfs, nor a total combined annual volume of 2336.0 af for the irrigation of 584.0 total acres.
- ***** 7. Right 36-02101 is limited to the irrigation of 299.0 acres in the place of use described above in a single irrigation season.

Dear Mr. Honsinger:

Thank you for the \$19.00 check, fees in connection with water right under the permit noted above.

The receipt and the certificates will be mailed as soon as possible.

You may file an application for permit on the enclosed form for 0.72 cubic feet per second to irrigate the same land. That amount plus the 2.4 cubic feet per second under your present permit totals 3.12 cubic feet per second measured by the field examiner.

Provided you make the application for permit and also make the necessary proofs promptly, the certificates of water right could be issued without another examination. If you include additional land or amount of water, an examination on the ground would be necessary.

Very truly yours,

Dear Mrs Rule,

Your letter of May 31 1962 was filed
not noticing the need of sending in the
fees. Enclosed find check for statutory
fees referred to of \$19⁰⁰.

Your field engineers inspection and
report showed the well is capable of
producing and we were using more
than the 120 miners inches or 2.4 c.f.s. We
would like to file on this additional
water. I believe this would be between
30-40 additional miners inches.

Dear Mrs. Honsinger:

We acknowledge receipt of the Deposition of Holder and two witnesses, also Affidavit of Publication in the Minidoka County News, all submitted in proof of Completion of Works and Application of Water to Beneficial Use on Permit No. 24966.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Permit No. G-24966

Proof of Application of Water to Beneficial Use

and Completion of Works Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Evelyn D. Honsinger - Minidoka - Housewife - Box 26, Minidoka, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting as an individual

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-24966 - 6/2/54 - priority date - 5/26/54

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. drilled well to raise subterranean water located in NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 1, T 8 S - R 25 E. Well is drilled to depth of 238', casing 16" dia., pumps & lifts from 200'

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Mainline portable aluminum, 2,850' of 8", 5,000' of 6", 390' of 5". Portable aluminum laterals - 5,680' of 4", 2,240' of 3"; valves on mainline every 60' & 6 1,320' laterals w/take off heads every 40'. These heads are rated at 6 $\frac{1}{2}$ gal/min. & system operates at 60# pressure. These works will carry, and do deliver, at least 1,200 gal./min. I have never measured well but have had sprinkler system designed so it should discharge this amount. Under free flow, the pump will discharge over 200 miners inches. Nozzles are 11/64" orifice.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation in Sec. 1, Lot 1 - 10 acres; Lot 2 - 35 acres; SW $\frac{1}{4}$ NE $\frac{1}{4}$ - 35 acres, NW $\frac{1}{4}$ SE $\frac{1}{4}$ - 25 acres, SE $\frac{1}{4}$ NE $\frac{1}{4}$ - 30 acres, NE $\frac{1}{4}$ SE $\frac{1}{4}$ - 38 acres; T 8 S - R 26 E, Sec. 6, Lots 6 - 40 acres. Total of 213 acres irrigated. This is all row crop land, no natural meadow. All improvements have been made to put this land under cultivation, and the cost is close to \$25,000.00. Use of water for irrigation, I have not been able to determine this as to the way, but it is used for irrigation.

P24966

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Used only for irrigation.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. I could use more water here and 1200 gal./min is the minimum that can be used for the crops grown.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the assignee of Earl T. Nielson & I have carried through and met all the requirements.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Work on this permit was started immediately after issuance of original permit. The actual well drilling was completed in 1958 and all the completion of works was completed in 1958, and the water was put to beneficial use.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. I do not get any other water from other sources or permit for this land. This is the only water and it should be particularly noted that it was put to beneficial use prior to June 2, 1959. As a matter of fact, it was all utilized during the entire irrigation system of 1958.

Dear Mrs. Honsinger:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-24966. The proofs are to be made at 10:30 o'clock A.M., on the 7th day of August, 1959, before Harley M. McDowell, Boise, Idaho, Notary Public.

As of this date we have mailed the Notice to the Minidoka County News with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Mr. Harley McDowell
Box 2161, Boise, Idaho

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Benefi-
cial Use, as set out under the terms of Permit No. G-24966 are due not later
than June 2, 1959.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
