Proof of Application of Water to Beneficial Use

Deposition of Holder ^{and Completion of Works}

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. RAY LINDAUER, MINIDOKA, IDAHO, FARMER., Box 55, Minidoka, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-24954; date of priority, ^{May 22} ~~June 1~~, 1954.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean source. Point of diversion is approximately 300 feet North and 50 feet west of the southeast corner of Section 2, Township 8 South, Range 25 EBM

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. One deep-well turbine pump with 8-inch column, equipped with one 30 h.p. electrical motor; water level is at 186 feet, well is drilled to a depth of 227 feet; 12-inch casing extending through approximately 15 feet of top soil; no casing required for the remaining well depth. Pump will produce 60 inches of water which was measured at discharge by weir measurement.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Land is irrigated by means of ditches. Water is used for irrigation and is used on the SE $\frac{1}{4}$ SE $\frac{1}{4}$ and the (S $\frac{1}{2}$ NE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 2, Twp. 8 South, Range 25 EBM. Land is cultivated and has been improved by means of the installation of ditches; ground has been leveled and is now planted to potatoes.

24954

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. not applicable.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 60 inches.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. not applicable.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water has been applied to beneficial use beginning in the irrigation season of 1959. There are no other appropriations or conflicting rights that are known to me.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

2. Ans. Water was applied to beneficial use beginning in the 1959 irrigation season.

Permit No. G-24954

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. VIRGIL L. ALDOUS, age 51, Minidoka, Idaho, Mechanic Foreman on Union Pacific Railroad; Box 39, Minidoka, Idaho.

Ques. 2. Are you acquainted with Ray Lindauer, the holder of Permit No. G-24954? How long have you known him and where does he reside?

Ans. Yes, I have known Mr. Lindauer for approximately 9 years; he lives at Minidoka, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-24954, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean source; place of diversion is about 300 feet north and 50 feet west of the southeast corner of Section 2, Twp. 8 So., Range 25 EBM;

Water is conveyed from point of diversion to place of use by contour ditches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 60 inches.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 60 inches. The amount was estimated by considering the amount of water flowing from the pump in the ditch, rate of flow, and the height the water extended on the sides of the ditches.

S 24954

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation of the SE $\frac{1}{4}$ SE $\frac{1}{4}$ and the S $\frac{1}{2}$ NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 2, Twp. 8 South, Range 25 EBM; 60 acres. Land is cultivated. Improvements are the pump system and the ditches and land planing and leveling.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Not applicable.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is Portneuf silt loam with gentle slope from irrigation ditch to bottom of field.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I observed water flowing from pump into ditches in the irrigating season of 1959. I have made no other observation.

(Signed)

Wigil L. Aldous

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Rupert, County of Minidoka, State of Idaho, on this 1st day of June, A. Lawrence H. Duffin
Attorney At Law
Rupert, Idaho

Dear Mr. Duffin:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-24954. Final proof is to be made before you, as Notary, on the 1st day of June, 1959, at 2:00 P. M. at Rupert, Idaho.

As of this date we have mailed the Notice to the Minidoka County News, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Mr. Lawrence H. Duffin
Attorney at Law

Rupert, Idaho

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Benefi-
cial Use, as set out under the terms of Permit No. G- 24954 are due not later
than June 2, 1959.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
