INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

In re Richard S. High, Permit No. G-24757

Dear Mr. Carter:

This will confirm my conversation by telephone this morning with Mrs. Rutledge relative to the location of the well in connection with the above permit. In your letter of November 4, 1958 you advise that the permit shows the well is located in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 27, T. 9 S., R. 21 E.B.M. while the engineer's report shows the well is located in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 27, T. 9 S., R. 21 E.B.M., and suggest that an amendment to the permit be made.

Mr. High, who is an engineer, informs me that he taped the exact distance of the well from the west boundary of Sec. 27 and found it to be 1323 feet, or in other words three feet within and from the west boundary of NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 27, which would correspond with the permit. As Mrs. Rutledge advised me over the telephone, you felt that an amendment would not be necessary if I wrote you regarding the facts.

I am enclosing herewith check of S.A. High & Sons in the amount of \$21.00 to cover fees for Certificate of Completion of Works and License and Certificate of Water Right and trust that the certificate and license may be issued in the near future.

Mr. High and I appreciate very much the cooperation of your office in this matter as Mr. High will now have definite record evidence of his water right to make his final proof in connection with his desert entry on November 21, 1958.

Dear Mr. Povey:

Our field engineer's report on his inspection of the completion of works and beneficial use of the water under the terms of Permit No. G-24757 shows that the well is located in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 27, Township 9 South, Range 21 East, B.M. and that it is capable of conveying 166 $\frac{1}{2}$ miners inches (3.33 c.f.s.) of water for irrigation of 278 acres. The record of the permit described the well location in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 27, therefore it is necessary that the permit be amended. We enclose an Application for Amendment to point of diversion for this purpose.

Upon receipt of the amendment, mentioned above, and the statutory fees, totaling \$21.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (sixteen dollars--fee is based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of March 5, 1954, to the use of 3.33 second feet of subterranean water, with point of diversion in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 27, for irrigation of 278 acres in the S $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ Section 27 and N $\frac{1}{2}$ NW $\frac{1}{4}$ Section 34, Township 9 South, Range 21 East, B.M.

In re Permit No. G24757--Richard S. High

Dear Mr. Carter:

I received your letter of September 15, 1958 and wish to advise that proof of completion of works and beneficial use under the above permit was made today at my office. I am herewith enclosing affidavit of publication by Jerome North Side News showing publication of notice on September 18, September 25, October 2 and October 9, 1958, together with receipted statement showing payment of publication charges.

I am also enclosing deposition of holder, Richard S. High, and depositions of his witnesses, Gary Thompson and Herbert Reitenbaugh, and trust you will find the same in order. Will you kindly acknowledge receipt of this letter and enclosures.

When the examination is made by your engineer, if he will contact the writer or Richard S. High, telephone RE3-0992, Twin Falls, arrangements will be made to show him these lands.

Desert entry final proof covering these lands is to be made November 21, 1958. If it is at all possible, Mr. High and I would like to have your water license issued prior to that date. Arrangements will be made with the Idaho Power Company to furnish electricity to operate the pump at any time that is convenient for your engineer to make his inspection.

Permit No. G24757

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Herbert Reitenbaugh; 30 years; RFD Hazelton, Idaho; Farm laborer; RFD Hazelton, Idaho.

Ques. 2. Are you acquainted with Richard S. High, the holder of Permit No. G24757? How long have you known him and where does he reside?

Ans. Yes. I have known him about three years. He resides at Twin Falls, Idaho.

Ques. 3. Have you read or heard read said Permit No. G24757, and are you familiar with its provisions and conditions?

Ans. I have read said permit and I am familiar with its provisions and conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean water from drilled well located near Southwest corner of and in NE 1/4 SW 1/4, Sec. 27, T. 9 S., R. 21 E.B.M. Water is taken from pumps through pipes and sprinkler system.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate said works will safely convey to place of use 3.6 cubic feet per second and have seen that amount so conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen the pump deliver 3.6 cubic feet per second. I was present when the measurement was taken by Gary Thompson in the latter part of August, 1958.

f 24757

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used to irrigate cultivated crops on the Richard S. High farm of 320 acres, described in permit. I did all of the irrigating and all of said 320 acres were irrigated except land covered by Railroad right of way across S $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 27, and except 10 acres of rocky land in SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 27 and 20 acres rocky land in NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 34. This land was taken out of sagebrush and planted to about 90 acres of rye and about 190 acres of barley.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. -----

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Rolling loam silt. Requires about 1 miners inch to the acre for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest in the works, water or land above mentioned.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I looked after the irrigation of the lands above described and saw water put to beneficial use during the first two weeks of September, 1958.

Twin Falls, Idaho

Dear Mr. Povey:

This will acknowledge the Notice of Proof of Completion of Works and Application of Water to Beneficial Use, under Permit No. G-24757, in the name of Richard S. High. Final proof is to be made before you, as Notary, on the 14th day of October, 1958, at 10:00 A. M., at Twin Falls, Idaho.

As of this date we have mailed the Notice to the Northside News, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and his two disinterested witnesses, who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,
