SUBJECT 2602

The lands to which 36-2248 & 2249 apply were expanded from 473 acres to 960 acres via Trans No. 2602. This Transfer App⁽²⁶⁰²⁾ intends to remove the water from 40 acres, thus leaving a total of 920 acres. The 40 acres belong to the BLM; apparently they have never irrigated the ground so they signed a release on Dec 2, 1981 to have the water removed.

Since the expansion was already approved, I recommend approval of this app.

Dear Mr. Merritt:

We have reviewed the subject water rights transfer applications and have no objection to the transfer. An inspection of the public land involved, T. 9 S., R. 21 E., B.M., Section 22; SW $\frac{1}{4}$ SW $\frac{1}{4}$; confirmed that the tract is not being irrigated nor is there evidence that it has ever been irrigated.

You may consider this letter as a release of any claims by the Federal Government for the waters described on Water Rights Nos. 36-2248 and 36-2249.

Dear Mr. Brown:

Please find enclosed a copy of a transfer application filed by Schodde Farm Associates with our office. The applicant seeks to clarify licensed water rights 36-2248 and 36-2249 which are recorded by transfer 1046. At present the rights are appurtenant to 960 acres in which 40 acres within the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 22, T9S, T21E, B.M., is public land under administration of the B.L.M. To clarify the applicants water rights the applicant has filed the recent transfer application which reduces the land list to 940 acres which the applicant owns. It is reported by the applicant that the B.L.M. tract is not and has never been irrigated.

To simplify our processing of the application I request that you review the enclosed application and send our office your written comments. If you deem it appropriate it may be beneficial to send our office a release, allowing removal of the B.L.M. tract from the present land list of these rights.

If you have any questions, please feel free to contact our office.

Dear Mr. Albaugh:

Thanks for your letter enclosing report of Surveyor. Our reports have been corrected to correspond.

We are enclosing an amendment to point of diversion on G-24235 to restore it to the original.

Also, we are enclosing an amendment for G-24236. It looks like the mistake may be one of transposition, merely writing SW¹/₄NW¹/₄ when they intended to write NW¹/₄SW¹/₄.

Please check the land list also in connection with each of these permits though Mr. Marr's report checks with the records in each case. Each one has been amended once as to lands irrigated.

Please note that the letter of August 5, 1959 from the Chief Clerk actually has three reports and covers three different permits, none of which has yet been licensed. The land list under Permit G-24236 in our letter of Aug. 5, should read R. 33 E.
