Dear Mr. Rosa:

This acknowledges the depositions of Holder and two Witnesses and the Affidavit of Publication in The Minidoka County News in proof of completion of works and beneficial use under Permit No. G-24504.

Before a permit is licensed, the law requires that a field examination be made by an engineer from this department. At this time we cannot say just when this will be made but our field engineer will contact you prior to the time he is to make the inspection so that you can arrange to accompany him.

RE: Permit No. G-24504

Mr. Melvin Rosa
Paul, Idaho

Dear Mr. Rosa:

This acknowledges the Notice of Proof of Completion of Works and Beneficial Use under Permit No. G-24504. Final Proof is to be made before Floyd J. Fruit, Notary Public, on the 30th day of September, 1958, at Rupert, Idaho.

As of this date we have mailed the Notice to the Minidoka County News, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and his two disinterested witnesses, who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before Floyd Fruit, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's Seal has been placed on each and that all depositions (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

RE: Permit No. G-24504

Date August 1, 1958

Melvin Rosa
Paul
Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-24504 are due not later than October 6, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point or points of diversion; and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

Dear Mr. Rosa:

We acknowledge receipt of your application for permit to appropriate 0.8 second foot of subterranean water from a well in the NW $\frac{1}{4}$ NW $\frac{1}{2}$ Section 9, Township 9 South, Range 23 East, B.M., accompanied by your check for the \$5.00 filing fee.

However, Question 12 of the application and the sketch map do not exactly agree. Question 12 describes the W $\frac{1}{2}$ NW $\frac{1}{4}$ NW $\frac{1}{2}$ and the W $\frac{1}{2}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$, or 40 acres, but your sketch map seems to indicate a part of the W $\frac{1}{2}$ NW $\frac{1}{4}$ and W $\frac{1}{2}$ SW $\frac{1}{4}$, which would be 10 acres in each 40 acre subdivision.

Please advise which is correct.

Very truly yours,
