Since this Permit is subject to cancellation for failure to make proof of completion of works when due, on or before August 15, 1955, it is important that the matter be given early attention if the Permit is to be reinstated.

Dear Mr. Hobdey:

Reference is made to your letter of October 6 in reply to notice that Permit No. G-24354 in the name of Jacob R. Crawford was subject to cancellation for failure to make proof of completion of works on or before August 15, 1955.

If these works were completed and the water beneficially applied prior to August 15, 1955, the proofs may be made and the Permit reinstated and we shall be glad to send you the necessary forms upon request. On the other hand, if the works have not been completed and the water completely applied for the irrigation of the land, Mr. Kulp would consider an application for extension on the form enclosed.

We note that Mr. Crawford is deceased but it will not be necessary to delay awaiting a probate of the estate as these proofs may be made by Mrs. Crawford and the Permit carried, for the present, in the name of the Jacob R. Crawford Estate.

Re: Permit G-24354
Jacob R. Crawford

Gentlemen:

Mrs. Jacob Crawford has asked us to assist her in the matter of her application for a water license.

Under date of October 4th you advised her that the above numbered permit would be cancelled for failure to complete the works August 15, 1955 unless she showed cause why said permit should not be cancelled.

This is our first contact with the matter and so we are not familiar with the background details. We presume that if a proper affidavit of completion of works is made within the 40 day period that this will comply with your requirements. If this is true, would you kindly send the proper forms for completion? On the other hand, if this supposition is^A correct would you please advise us what is expected or demanded?

Another thing that we would like to call to your attention is the fact that Mr. Crawford died in 1954. Mrs. Crawford was not too familiar with the affairs and that is one of the reasons that this matter has been overlooked. Also, will your Department require the estate of Mr. Crawford to be probated before further proceedings may be had?

Thanking you for this and past courtesies, we are

Sincerely yours

Dear Mr. Crawford:

We return your application for permit to appropriate one (1) second foot of water from a well in the NW¹ SE¹ Section 8 South, Range 14 East, B.M. for the following corrections. Answer Questions 7, 8, and 9.

The sketch map indicated the place of use as the NW¹ SW¹ Section 11, Township 8 South, Range 14 East Containing forty (40) acres, but question twelve of the application is not quite clear as it seems to include the NW¹ SE¹ of this Section which would make a total of eighty acres.

As only forty acres are to be irrigated the application can only be approved for forty inches as the statutes set a maximum of one (1) inch per acre for irrigation purposes.

Meanwhile, we hold to your credit your check for the \$5.00 filing fee.
