RE: Permits Nos. 24261 and R-913

Mr. Herman E. Huettig
Haselton
Idaho

Dear Mr. Huettig:

We now have on file the report of our field engineer on examination for beneficial use on the above numbered Permits.

The report on Permit No. 24261 shows that you have used 125 inches from an un-named stream in the NW¹/₄ NW¹/₄ Section 29, Township 10 South, Range 20 East, B.M. for the irrigation of 360 acres in the W¹/₂ NW¹/₄ Section 28; NE¹/₄, N¹/₂ NW¹/₄ and SE¹/₄ NW¹/₄ Section 29, same Township and Range.

A License can, therefore, be issued on this Permit for 125 inches or 2.5 second feet upon receipt of the statutory license fee amounting to \$18.00. This is at the rate of \$2.00 for each 40 acre subdivision in which the land is located.

The report on Permit No. R-913 shows that your reservoir is capable of storing 30 acre feet of water which has been used to irrigate the same land as described in Permit No. 24261. A License will be issued on Permit No. R-913 for 30 acre feet per annum with no additional license fee.

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Name - Herman E. Huettig; residence - Hazelton, Idaho; occupation - farmer; and post office address - Hazelton, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 24261, date - July 3, 1953, date of priority - July 1, 1953.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Un-named stream. Water is diverted from reservoir by pump placed at edge of reservoir near the west side of the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 29, Twp. 10 S., R. 20 East, B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Water is pumped from reservoir by pump placed on south side of reservoir, directly into pipe and sprinkler system. Discharge of pump is 125 inches ~~measured~~ with 170' head, by actual test; reservoir dam is constructed of earth lined with rock and has conduit outlet and spillway. The works are capable of conveying from point of diversion to place of use 125 inches.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation purposes, upon cultivated lands, said lands, with number of acres actually irrigated, are described as follows:
W $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 28, Twp. 10 S., R. 20 E., B. M. ---- 80 acres;

RE: Permits Nos. 24261 & R-913

Gentlemen:

We have checked the notice on the above numbered Permits in the name of Herman E. Huettig appearing in your issue of July 28 and the corrections have still not been made in the name of the place appearing in the first word of the third line in these notices.

In other words the word Jerome is incomplete in Permit No. 24261 and a portion is repeated in the first few lines of Permit No. R-913.

In other words it would appear that the syllable one appearing at the beginning of the third line on Permit No. R-913 should be at the beginning of the third line in Permit No. 24261.

Please make these corrections in your next issue.

Gentlemen:

We have checked the notices on the above numbered Permits in the name of Herman E. Husttig appearing in your issue of July 21 and find that none of the corrections in Permit No. R-913 mentioned in our letter of July 18 have been made and in addition, there is another error, namely that in the second and third lines of the notice there is a duplication of the last syllable of the word Jerome.

The other errors noted in our letter of July 18 are as follows:

1. In the ninth line of the notice the Permit No. is R-913 and not R1913.
2. In the first line of the second paragraph the word postoffice is misspelled.
3. The word the in the first line of the fifth paragraph is misspelled.

In Permit No. 24261, the word Jerome at the end of the second line is incomplete.

Please make these corrections in your subsequent issues.

RE: Permits Nos. 24261 and R-913

North Side News
Jerome
Idaho

Gentlemen:

We have checked the notices on the above numbered Permits in the name of Herman E. Huettig appearing in your issue of July 14 and find several typographical errors as follows:

1. In the notice on Permit No. R-913, the ninth line of the notice gives the number as R1913 instead of R-913.
2. In the first line of the second paragraph, the word postoffice is misspelled.
3. The word the at the end of the first line of the fifth paragraph is misspelled.
4. In notice on Permit No. 24261, in the next to the last line of the fifth paragraph, the word Township is misspelled.

We are this morning in receipt of a letter from Mr. Richard H. Seeley advising that he has requested that the date for making proof be changed from August 5 to August 12 inasmuch as the notice was not included in your issue of July 7, making it impossible to have the four weeks publication prior to August 5th.

Please make these several corrections in your subsequent issues.

Mr. Richard H. Seeley
Attorney at Law
Jerome, Idaho

Dear Mr. Seeley:

We have your letter of July 2 enclosing notices for beneficial use on the above numbered Permits to be made August 5, 1955, and authorization to publish in the North Side News.

We have completed the notice on Permit No. R-913 to show beneficial use to be made on 80 acre feet of water from the unnamed stream which is the amount of storage applied for.

You are correct in assuming that the priority date is the date of filing, or July 1, 1953.

Since these proofs were due July 3, 1955, if the original priority is to be retained, the enclosed application for extension of time for making proof of beneficial use should be executed by Mr. Huettig and returned to this department for approval and record.

We shall send a copy of these notices to the North Side News with instructions to publish once a week for four weeks prior to August 5 and to send Mr. Huettig the affidavits of publication together with statement of costs.

Meanwhile, we enclose the forms of deposition to be executed by Mr. Huettig and two disinterested witnesses in making these proofs.

RE: Permits Nos. 24261 and R-913

Mr. Herman E. Huettig
Hazelton
Idaho

Dear Mr. Huettig:

We enclose Permits Nos. 24261 and R-913 and direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

Since the dam described in Permit No. R-913 is over 10 feet high, it will be necessary for you to furnish plans and specifications in duplicate for approval by this department before construction is commenced, or else obtain approval from the State Reclamation Engineer of an application for a waiver of this condition.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
