Gentlemen:

We enclose the Well Log which has been filled out by the driller.

When this land was checked up Mr. Grissom learned that he had gotten his descriptions wrong in the original application.

Therefore, the original application is enclosed and also an amended application. The long and short is that the location of the well and the land to be irrigated was just moved one forty east.

Hoping you can correct this, we are

We acknowledge receipt of your letter of May 9, 1953, enclosing application of William Grissom to appropriate 1.3 second foot of water from a well, accompanied by his check for \$5.25.

However, since only 40 acres are described as the land to which this water is to be appurtenant the application can only be approved for 40 inches, or 0.8 of a second foot, as one inch per acre is the maximum allowed by statute for irrigation purposes.
