NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A. M., on the 18th day of March, 1957, at Boise, County of Ada, State of Idaho, before Harley M. McDowell, Notary Public, proof will be submitted of the completion of works for the diversion of 5.4 cubic feet per second of underground waters from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-23063 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Roy Vader, Hagerman, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 5.4 cubic feet per second.

3. The use to which said water has been applied is Irrigation and Domestic purposes, and the amount applied to beneficial use is 5.4 cubic feet per second.

4. The point of diversion of said water is SW $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 34, Twp. 7 S., Rge. 14 E. B.M.

5. The place where said water is used is S $\frac{1}{2}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 34, Twp. 7 S., Rge. 14 E., SE $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 33, Twp 7 S., Rge. 14 E.

6. The date of priority which said user is prepared to establish is September 18, 1952.

Water License No. G-23063Amount 1.68 c.f.s.

Water District No. _____

Priority September 18, 1952

THIS IS TO CERTIFY that ROY VADER
of Hagerman, Idaho ; made application for a permit to appropriate the
public waters of the State of Idaho, dated September 18, 1952 ; that Permit No. G-23063
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
1.68 second feet, was issued thereunder on October 8, 1959 , showing that said works
were completed on the 18 day of March , 1957 ; and that on the 18
day of March , 1957 ,

ROY VADER

of Hagerman , State of Idaho , made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, a tributary of subterranean flow , for the purpose of irrigation and domestic use
, under Use Permit No. G-23063 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
11 of Licenses at page 6784 , on the 8 day of October , 1959 ;

The right hereby confirmed dates from September 18, 1952 , 19 ;

The Point of Diversion is located

in the SW 1/4 NW 1/4 Sec. 34 , Tp. 7 S. , R. 14 E , B. M. County Gooding

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 1.68 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

APPLICATION FOR PERMIT To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 30819
Permit No. G- 23063
District No.

1. Name of Applicant: **ROY VADER**
Postoffice address: **Hagerman** County: **Gooding** State: **Idaho**
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. **5.4** or Idaho
Miners' inches **270** or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: **Subterranean well, to be drilled and raised through a turbine type pump**
4. Location of point of diversion or well is in the **SW** $\frac{1}{4}$ of the **NW** $\frac{1}{4}$ of Section **34**
Twp. 7 S, Rge. **14 E.**, B. M., County of **Gooding**
5. Water is to be used for: **Irrigation and domestic purposes.**
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B. M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B. M.
7. Kind of works: **Drilled well, turbine type pump, casing and gravity system**
8. Estimated cost of works: **\$ 5,000.00**
9. (a) Is reservoir to be used? **No**
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is **Five(5)** years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: **None- No existing rights-
all is for new lands**
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

Re: Permit No. G-23063

Mr. Roy Vader
Hagerman, Idaho

Dear Mr. Vader:

The report of our Field Engineer on examination for Completion of Works and Beneficial Use on Permit No. G-23063 shows that you have irrigated 114 acres of land in the $S\frac{1}{2}NW\frac{1}{4}$, $N\frac{1}{2}SW\frac{1}{4}$ Section 34, and the $NE\frac{1}{4}SE\frac{1}{4}$ Section 33, Township 7 South, Range 14 East, B. M., from a well in the Southeast corner of the $SW\frac{1}{4}NW\frac{1}{4}$ Section 34.

The report also shows that the well will deliver 84 inches of water. and a Certificate of Completion of Work and License can be issued for that amount upon receipt of the statutory fees.

These amount to \$5.00 for Certificate of Completion of Works and \$10.00 license fee, which is at the rate of \$2.00 for each legal subdivision in which the water is located.

Very truly yours,

MARK R. KULP

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

RE: Permits Nos. G-22629 & G-23063
Roy Veder

Mr. Harley M. McDowell
P.O. Box 2161
Boise, Idaho

Dear Mr. McDowell:

We acknowledge receipt of the depositions of Roy Veder and two witnesses, also affidavit of publication in The Wendell Irrigationist, all submitted in proof of Completion of Works and Beneficial Use on Permits Nos. G-22629 and G-23063.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact Mr. Veder at the time he makes the examination so that arrangements may be made to show him over the grounds.

Re: Permit # G-23063

Roy Vader
Hagerman, Idaho

Dear Mr. Vader

Statutes requires a field inspection in connection with the proofs on Permit # G-23063 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Monday, June 3, 1957,

in the afternoon.

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

BOISE, IDAHO

Permit No. G-23063

Proof of Application of Water to Beneficial Use

and Completion of Works Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. My name is Roy Vader, residence 4 miles South of Hagerman, occupation is livestock and farming and P. O. Address is Hagerman, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Individual

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. The number of my permit is G-23063, date of permit is Sep. 23, 1957, and date of priority is September 18, 1952.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean well, located toward the SE corner of the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 34, T. 7S. - R. 14E.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The ditch here is about 2 miles long, 16" bottom, 18" deep, 3' wide at the tope and capable of carrying considerable more inches of water than is produced in this well. Also I have one small aluminum sprinkler system on the extreme SW part. I pump all this water and irrigate it through the area, then pick it up in a small lake located in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 33 and repump it over this sprinkler system. The sprinkler pipe is 5" aluminum, 1180' long and has 38 risers that are on 40', 3" aluminum pipes. Each head or riser will produce 6 gallons per minute. These irrigate the west 40 ac. The well is 160' deep, the water is 92' and draws down to where it pumps from 105'. The casing is 12" and cased 8' to the solid rock.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Used for irrigation. I irrigate 10 ac. in SE $\frac{1}{4}$ NW $\frac{1}{4}$, 15 ac. in SW $\frac{1}{4}$ NW $\frac{1}{4}$, 30 ac. in NW $\frac{1}{4}$ SW $\frac{1}{4}$, 30 ac. in NE $\frac{1}{4}$ SW $\frac{1}{4}$ in Sec. 34. In Sec. 33, NE $\frac{1}{4}$ SE $\frac{1}{4}$, 25 acres, NW $\frac{1}{4}$ SE $\frac{1}{4}$, 10 acres, SW $\frac{1}{4}$ SE $\frac{1}{4}$, 30 acres. There is none of this that could be naturally irrigated. There is no natural meadow and all improvements here, including the pump which cost \$3,700.00, land development \$2,000 sprinkler system and sump system \$2,750.00 were all made as a direct result of this water.

** I have a 30 h.p. electric motor and pump capable of delivering 125 miner's inches. This was set up and designed by C.B. Eaton & Sons. I have seen a lot of water measured and I don't know whether it will produce quite 125" but it should produce well over 100". My sprinkler system operators at 40# pressure and the pump out of the sump is a 10 h.p. pump.

d. 23063

R009

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. The water here is used for irrigation. I don't use

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. I feel that I could use considerably more water on the amount of land I am irrigating here. I can only irrigate this much by the fact that I repump it.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the same person that applied for this permit.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. All of this water has been diverted over this entire area and I started this work in 1953 for actual irrigation

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There are no other rights or water appropriated for this land, except under Permit #0-22629, the SW $\frac{1}{4}$ of Section 34, T 7 S - R 14 E is also covered.

(Sign)

Roy Vacker

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed

and sworn to before me, at my office in Boise, County of Ada

Haley Lester Howell
Notary Public for Idaho

My commission expires 10-11-59

23063

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. G-23063

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is Maurice Bevins, age is 44, residence is in Hagerman, occupation is feed and produce, and my post office address is Hagerman.

Ques. 2. Are you acquainted with Roy Vader, the holder of Permit No. G-23063? How long have you known him and where does he reside?

Ans. I have known him 30 years and know that he lives 4 miles south of Hagerman, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-23063, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. From a drilled well in the SW¹/₄ NW¹/₄ Section 34, T 7 S - R 14 E., B. M. The works consist of a drilled well and V shape ditch around 2 miles long. He also has a sprinkler system in the SW part. This water is pumped over the land then picked up and repumped through this sprinkler system. The sprinkler pipe is 5" aluminum 1480' long and has 38 risers that are on 40' 3" aluminum pipes. Each riser will produce around 6 gallon/minute. He has 30 h.p. pump and motor on the well and the sprinkler system will produce around 40# pressure.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I have seen between 100 and 120" of water being conveyed and the works are adequate to convey this much.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen this pump deliver what I would say to be around 120". I have seen quite a few pumps delivering water and this would be my estimate.

L. 23063

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation on NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 33, 25 acres, on NW $\frac{1}{4}$ SE $\frac{1}{4}$, 10 acres and SW $\frac{1}{4}$ SE $\frac{1}{4}$, 30 acres. In Section 34, 30 acres in NW $\frac{1}{4}$ SW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, 30 acres, 15 acres SW $\frac{1}{4}$ NW $\frac{1}{4}$ and 10 acres in SE $\frac{1}{4}$ NW $\frac{1}{4}$. There is no natural meadow land here and the improvements which I estimate to be around \$10,000.00 is made as a direct result of this water use.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This is a deep lava ash soil. There is plenty of land, but the water is the limiting factor here. I estimate it takes at least 1" per acre to irrigate here.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No interest.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen this almost every month during the crop season, since it has been developed and taken out of the brush.

(Signed) *Maurice Beavis*

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Boise,

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is James S. Henslee, age is 40, occupation is farming, residence is 4 miles South of Hagerman, and P. O. Address is Hagerman, Idaho.

Ques. 2. Are you acquainted with Roy Vader, the holder of Permit No. G-23063? How long have you known him and where does he reside?

Ans. I have known him for 26 years and I know that he lives 4 miles south of Hagerman, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-23063, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. From a drilled well in the SE corner of the SW¹/₄ NW¹/₄ Section 34, T 7 S - R 14 E. The works consist of a V shaped ditch 2 miles in length. There is also a small sprinkler system on the extreme SW part. This is all pumped over the area then is picked up and repumped through the sprinkler system. The sprinkler pipe is 5" aluminum, 1480' long and has 38 heads that are on 40' 3" aluminum pipes. Each head will produce 6 gallons/minute. The well is 160' deep, the water is 92' and draws down to 105'. The casing is 12" and cased 8' to the solid rock.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate there is between 100 and 120" of water produced by this well and the ditch will convey considerably more than this.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen this pump deliver, and seen this whole outfit distributing 100 to 120" of water and I have seen a lot of wells measured and have irrigated a lot, so I feel this is reasonably accurate. I have never had this measured.

M. 23063

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. In the SE $\frac{1}{4}$ NW $\frac{1}{4}$ around 10 ac. in SW $\frac{1}{4}$ NW $\frac{1}{4}$, 15 acres, in NE $\frac{1}{4}$ SW $\frac{1}{4}$, 30 acres in NW $\frac{1}{4}$ SW $\frac{1}{4}$, 30 acres in Sec. 34. In Section 33, 25 acres in NE $\frac{1}{4}$ SE $\frac{1}{4}$, 10 acres in NW $\frac{1}{4}$ SE $\frac{1}{4}$, 30 acres in SW $\frac{1}{4}$ SE $\frac{1}{4}$. There is no natural meadow land here and all improvements which amount to around \$11,000.00 is made as a direct result of this irrigation.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This is good deep lava ash soil. It was relative unproductive before it was reclaimed, but now it is good farm land. It needs at least this much water to irrigate it. In fact if you had more water you could raise better crops.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest whatsoever, in the water or this land.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I was familiar with this from the time it was first developed until date. I have seen it during the crop season almost every week.

(Signed)

James F. Henslee

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Boise, County of Ada, State of Idaho, on this 18th day of March, A. D. 1957.

RE: Permit Nos. G-22629 & G-23063
Roy Vader

Mr. Harley McDowell
P.O. Box 2161
Boise, Idaho

Dear Mr. McDowell:

We acknowledge receipt of Notice for Completion of Works and Beneficial Use proof on Permits Nos. G-22629 and G-23063 in the name of Roy Vader of Hagerman, Idaho, to be made before you as Notary public on or before March 18th, 1957.

We shall send a copy of the Notice to the Wendell Irrigationist with instructions to publish it once a week for four weeks prior to that date and to send you the affidavit of publication together with statement of costs.

At the time set, you should contact Mr. Vader, permit holder, to appear before you together with two disinterested witnesses who are familiar with the terms of the Permits and the work done thereunder for the purpose of executing the enclosed depositions.

Very truly yours,
