NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE.

Notice is hereby given that at 10 a.m., on the 21st day of July, 1956, at Boise, County of Ada, State of Idaho, before Harley M. McDowell, Notary Public, proof will be submitted of the completion of works for the diversion of 4 cubic feet per second of the waters of subterranean source.

and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-22339 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Robey Levon, Kincaid, Hazleton, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 4 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 4 cubic feet per second.

4. The place where said water is used is NW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, Section 20, T. 10 S — R 21 E., B.M. and well is in NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 20, T 10 S — R 21 E.B.M.

5. The date of priority which said user is prepared to establish is August 28, 1951.

MARK R. KULP, 22339
State Reclamation Engineer.

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 30069
Permit No. G- 22339
District No.

1. Name of Applicant: JOHN L. HANSEN
Postoffice address: Rt. 1, Hazelton County: Jerome State: Idaho
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. 4 or Idaho
Miners' inches 200 or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean supply, to be pumped through a drilled well
4. Location of point of diversion or well is in the NW 1/4 of the NE 1/4 of Section 20
Twp. 10 S. , Rge. 21 E. , B. M., County of Jerome
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the 1/4 of the 1/4 of Section , Twp.
Rge. , B. M
 - (b) Waste water or sewage effluent is to be returned to
at a point in the 1/4 of the 1/4 of Section , Twp. , Rge. , B. M.
7. Kind of works: Works will consist of drilled well, cased, and equipped with turbine type pump
8. Estimated cost of works: \$5,000.00
9. (a) Is reservoir to be used? No
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is Five(5) years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) All (cubic feet per second, inches or gallons per minute) is for new lands.

Remarks:

Idaho as herein set forth.

RE: Permit No. G-22339

Mr. Harley M. McDowell
519 Idaho Building
Boise, Idaho

Dear Mr. McDowell:

We enclose Certificate of Completion of Works also License and Certificate of Water Right issued under Permit No. G-22339 in the name of Levon Kincaid confirming his right to the use of 2.18 second feet of the waters of a well located in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 20, Township 10 South, Range 21 East, B.M., with priority of August 28, 1951, for irrigation of land in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ Section 20, same Township and Range.

We also enclose departmental receipt No. G-2238 for the \$15.00 completion of works and license fee.

RE: Permit No. G-22339

Mr. Robey Levon Kincaid
Hazelton
Idaho

Dear Mr. Kincaid:

We now have on file the report of our field engineer on examination for completion of works and beneficial use on your Permit No. G-22339 which shows that your well in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 20, Township 10 South, Range 21 East, B.M., will deliver 109 inches or 2.18 second feet of water which has been used to irrigate 170 acres of land in the NW $\frac{1}{4}$ and NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 20.

A Certificate of Completion of Works and License can, therefore, be issued for 2.18 second feet of water upon receipt of the statutory fees amounting to \$5.00 for completion of works and \$10.00 license fee, the latter being at the rate of \$2.00 for each 40 acre subdivision irrigated.

Very truly yours,

MARK R. KULP

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. G-22339

This proof is for Completion of Works & Beneficial Use In Water District No.

1. Name of applicant Robey Levon Kincaid

2. Source of water supply: Subterranean flow from a well

3. Location of point of diversion: Is in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 20

T. 10 S., R. 21 E., B.M. County of Jerome

4. Describe works as they exist, giving dimensions and capacities of same: 125 hp G. E. Motor
Serial No. ZHJ 6949303. Layne Bowler Turbine serial No. 18047. 10" discharge
pipe to the North into a concrete basin to the fields by gravity.

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

NW $\frac{1}{4}$ NE $\frac{1}{4}$ & NW $\frac{1}{4}$ of Sec. 20., Twp. 10 S., Rge. 21 E., B.M.

See the Map.

NOTE: There are two wells on this 40. The North well did not furnish a sufficient quantity of water and so was abandoned. The South Well is now used and a pipe line extends from it to the head of the irrigation system used under the other pump. He intends now to install another motor and pump and use both wells. His supply of water is not as much as he hoped for. He states that he has invested \$250 per acre in this place including \$40 per acre purchase price and does not yet have a single building on the place.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks:

This examination was made on the 7 day of Sept, 1956

(Signed) E. N. Humphrey Examiner.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

RE: Permit No. G-22339

Mr. Robey Levon Kincaid
Hazelton
Idaho

Dear Mr. Kincaid:

Inspection is required in connection with any permit for the use of water being brought to license within the State of Idaho.

I intend to make inspection in connection with your Permit on Friday morning, September 7.

I will be at the Frontier Motel in Rupert the evening before in case you wish to contact me. If I do not hear from you, I will drive to the farm where the well is located.

Please be prepared to accompany me on the inspection or have someone there to represent you.

Yours truly,

Mr. Robey Levon Kincaid
P.O. Address
Hazelton, Idaho.

Dear Mr. Kincaid:-

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in the Jerome North Side News, all submitted in proof of completion of works and beneficial use on Permit No. G-22339.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE.

Notice is hereby given that at 10 a.m., on the 21st day of July, 1956, at Boise, County of Ada, State of Idaho, before Harley M. McDowell, Notary Public, proof will be submitted of the completion of works for the diversion of 4 cubic feet per second of the waters of subterranean source.

and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-22339 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Robey Levon, Kincaid, Hazleton, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 4 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 4 cubic feet per second.

4. The place where said water is used is NW¼NE¼, NW¼, Section 20, T. 10 S — R 21 E.B.M. and well is in NW¼NE¼, Sec. 20, T 10 S — R 21 E.B.M.

5. The date of priority which said user is prepared to establish is August 28, 1951.

Permit No. G-22339

Proof of Application of Water to Beneficial Use and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. My name is Robey Levon Kincaid, I live 6 miles south, 1/2 west of Hazelton, Idaho.
My occupation is farming, P. O. Address is Hazelton, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting as an individual.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. The number of my permit is G-22339, date of permit is August 29th, 1951 and date of priority that I am establishing here is August 28th, 1951.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean. Point of diversion is in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 20, Township 10 South, Range 21 East, immediately adjacent the South line of this 40 and approximately 100 yards West of the SE corner.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The works here consist of a well (16" in diameter) drilled to a depth of 600' where the water stands 335' and with a lift of 375'. This is equipped with a turbine type pump and motor, 125 h.p. Layne-Bowler pump. This is only cased approximately 3' and the discharge here is 110". This was measured by the Pump Company through a pressure and pipe tester, the pump was in continuous operation for 3 hours at 400'. This is distributed through a gravity system.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The purpose of this water is for irrigation and the place of use is the NW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, Section 20, Township 10 South, Range 21 East. In the NW $\frac{1}{4}$ NE $\frac{1}{4}$, 40 acres are irrigable; in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, 40 acres irrigable; NW $\frac{1}{4}$ NW $\frac{1}{4}$, 40 acres; SW $\frac{1}{4}$ NW $\frac{1}{4}$, 25 acres; and the SE $\frac{1}{4}$ NW $\frac{1}{4}$ 30 acres; making a total irrigable area of 175 acres that have actually been irrigated from this water. There is no natural meadow of any type and all the improvements, consisting of the clearing, breaking, leveling, drilling a well, pump installation and preparation of a seed bed have all been a direct result of this irrigation use, and I have spent \$40,000.00 on this operation and the above installation.

22339

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. This is used only for irrigation.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. The amount of water produced here is actually not enough for the acreage that I am irrigating and I really need more water to properly irrigate this land.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I received an assignment of this original permit from John L. Hansen. This was through a regular assignment of water permit through Dept. of Reclamation, & acquisition of the land.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The first well was drilled here and use was made for some irrigation as early as 1953, but the works in place now and through the pipeline that I have installed at this time, were first used in 1955 season. The entire 110" has been used continuously since that time.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There is no other water from any permit, diverted or used, put to any beneficial use on these lands other than that in this particular permit.

(Sign)

Robert Levan Farnsild

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed

and sworn to before me, at my office in Boise, County of Ada

State of Idaho, on this 21st day of July, A. D. 1956.

Harley L. L. Donnell

BOISE, IDAHO

RECEIVED
JUL 26 1956
Department of Reclamation

Permit No. G-22339

Proof of Application of Water to Beneficial Use
and Completion of Work
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is Robert Louder, my age is 34, I live 2 miles east and 3 miles south of Eden, Idaho, my occupation is farming, and my P. O. Address is Eden, Idaho.

Ques. 2. Are you acquainted with Robey Levon Kincaid, the holder of Permit No. G-22339? How long have you known him and where does he reside?

Ans. I have known him 18 years and know that he now resides 6 miles south and 1/2 mile west of Hazelton, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-22339, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean, the place of diversion is NW 1/4 Sec. 20, T. 10 S. - R. 21 E., B. M. The works consist of a well, 16" in diameter, drilled to a depth of 600'. The water stands at 335' with a lift of 375'. This is equipped with a turbine type pump and motor 125 h.p. Layne-Bowler pump. This is cased approximately 3' and the discharge is 110" as measured by the pump company. This is distributed through a gravity system.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

I know that 110" can safely be conducted by these works and I have seen this much water conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. This pump will deliver 110 miner's inches and my estimate is based on the fact that I was present when the Layne and Bowler Pump Company made their test on June 3rd, 1955 and in my opinion it would be accurate.

22339

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation only on the NW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ Sec. 20, T 10 S - R 21 E., B. M. The irrigable acres are 40 acres in NW $\frac{1}{4}$ NE $\frac{1}{4}$; 40 acres in NE $\frac{1}{4}$ NW $\frac{1}{4}$; 40 acres in NW $\frac{1}{4}$ NW $\frac{1}{4}$; 25 acres in SW NW $\frac{1}{4}$ and 30 acres in SE $\frac{1}{4}$ NW $\frac{1}{4}$, making a total of 175 irrigable acres. There is no natural meadow and all the land is cultivated. The improvements consist of clearing, breaking, leveling, drilling a well, pump installation and preparation of a seed bed, and all the improvements have been as a direct result of said use.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Only for irrigation.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This is a lava ash soil. It is a good row crop land, and to really reach full production there should be more water for the best cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I was familiar with this land when it was acquired by Mr. Kincaid and I have been familiar with it each summer. In fact I have worked and farmed on this land, and seen this water actually put to beneficial use during the entire period that it has been developed since 1953, every summer.

Permit No. G-22339

Proof of Application of Water to Beneficial Use
and Completion of Work
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is Glen Kaggie, my age is 43, residence is Upland, California, my occupation is retail clerk, and My P.O. Address is 286 South Campus, Upland, California.

Ques. 2. Are you acquainted with Robey Levon Kincaid, the holder of Permit No. G-22339? How long have you known him and where does he reside?

Ans. I have known him 20 years and know that he resides 6 miles South and 1/2 mile west of Hazelton, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-22339, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. The source of water supply here is a well located in NW 1/4 Sec. 20, T 10 S - R 21 E., B. M. and the works consist of a well (16" in diameter) drilled to a depth of 600'. The water stand 335' with a lift of 375'. This is equipped with a turbine type pump and motor, 125 h.p. Layne-Bowler pump. This is cased approximately 3' and the discharge is 110". This was measured by the Pump Company. Distributed through a gravity system.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

There is 110" here that can be safely conducted to the place of use and I have seen this much water so conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. To my best knowledge and opinion it would be 110", this is delivered. This is based primarily on prior information I have had on this well and from my knowledge in having seen the water pumped from wells and in irrigation on agricultural land.

22339

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. This water is used for irrigation. There are 40 acres irrigable in the NW $\frac{1}{4}$ NE $\frac{1}{4}$; 40 acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$; 40 acres in the NW $\frac{1}{4}$ NW $\frac{1}{4}$; 25 acres in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ and 30 acres in SE $\frac{1}{4}$ NW $\frac{1}{4}$; making a total of 175 irrigable acres. The place of use is the NW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ Sec. 20, T 10 S - R 21 E., B. M. There is no natural meadow and all the land is cultivated and all the improvements have been a direct result of this use. The improvements consist of clearing, breaking, leveling, drilling a well, pump installation and preparation of a seed bed.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Only for irrigation.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land here is a good agricultural land, capable of producing row crops, and from my observation I feel that it could use even more water than is now being pumped on it for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I was familiar with this land when it was acquired by Mr. Kincaid and I have just recently visited the property and observed the water and how it is being distributed and how the irrigation facilities were being applied to the land, and I feel that I am very familiar with the manner in which the irrigation is being carried on for this land.
