901 11th Street
Rupert, Idaho

Dear Mr. Warner:

We have the Reports made by our Field Engineer in your files now in connection with the Permits captioned above. You are entitled to a "Certificate of Completion of Works" and a "License and Certificate of Water Right" for each Permit upon receipt of the statutory fees, (based upon \$5.00 for completion of works and \$2.00 for each 40-acre subdivision for License) itemized and enclosed with this letter.

Before Certificate of Completion of Works and a License can be issued on Permit Nos: G-22164, G-22165, G-22169, G-23807, G-23809, G-23815 and G-23816, it is necessary that you sign and return to this department the amendments to the land list (amendments are attached to corresponding itemized sheet and enclosed with this letter) together with the statutory fees in connection with these seven permits.

If you wish to obtain a Certificate of Completion of Works and a License for all the Permits at this time; the fees amount to \$175.00 for Completion of Works and \$691.00 for license, making a total of \$866.00.

Very truly yours,

G-22175

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used to irrigate annual crops grown on the SE $\frac{1}{4}$ of
Section 17, Twp 7 South, Range 25 EBM - a total of 160 acres is being
irrigated.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. ----

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is porous, silt loam, rolling in character and requires
full capacity of the pump as stated in answer to question 4.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have personally observed the beneficial use of the water
diverted under said permit since the drilling of the well located
on this land.

RE: Permits Nos. G-22154, G-22166, & G-22175

Minidoka County News
Rupert, Idaho

Gentlemen:

We have checked the thirty-five notices for proof of completion of works and beneficial use on Permits of the Capital Company appearing in your issue of April 26 and find typographical errors in the three above numbered permits as follows:

In Permit No. G-22154, the tenth line of the first paragraph should read, "NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 26, Town-" and not NW $\frac{1}{4}$ SE $\frac{1}{4}$ as published.

In Permit No. G-22166, in the eighth line of the first paragraph the word the has been omitted from between the words of and waters. In other words that line should read, "6.08 cubic feet per second of the waters"; also in the last paragraph the number 5 has been omitted from the beginning of that paragraph.

In Permit No. G-22175, in the fourteenth line of the first paragraph, the word conditions is misspelled; in the Paragraph numbered 3, a line has been omitted and this paragraph should read, "3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 3.2 cubic feet per second." also in the paragraph numbered 5, the word priority is misspelled.

There were typographical errors in four other notices but these were very minor and we believe it will not be necessary to correct these.

Please make the above stated corrections in your subsequent issues.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
