Mr. Everett Warner, District Manager
Capital Company
901 11th Street
Rupert, Idaho

Dear Mr. Warner:

We have the Reports made by our Field Engineer in your files now in connection with the Permits captioned above. You are entitled to a "Certificate of Completion of Works" and a "License and Certificate of Water Right" for each Permit upon receipt of the statutory fees, (based upon \$5.00 for completion of works and \$2.00 for each 40-acre subdivision for License) itemized and enclosed with this letter.

Before Certificate of Completion of Works and a License can be issued on Permit Nos: G-22164, G-22165, G-22169, G-23807, G-23809, G-23815 and G-23816, it is necessary that you sign and return to this department the amendments to the land list (amendments are attached to corresponding itemized sheet and enclosed with this letter) together with the statutory fees in connection with these seven permits.

If you wish to obtain a Certificate of Completion of Works and a License for all the Permits at this time; the fees amount to \$175.00 for Completion of Works and \$691.00 for License, making a total of \$866.00.

Very truly yours,

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Everett Warner, 901 - 11th St., Rupert, Idaho. District Manager
for Capital Company. Postoffice address, Box 619, Rupert, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Capital Company, 1 Powell St., San Francisco, California. I am the
local representative and I have authority to appear for Capital Company.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit Number is G-22166 dated June 9, 1951; date of priority we
propose to establish is June 7, 1951.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. A well located in the center of the NW $\frac{1}{4}$ and a second well located
in the center of the NE $\frac{1}{4}$ of Section 7, Twp 7 South, Range 25 EBM

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Water is from wells. The well in the NW $\frac{1}{4}$ of Section 7 is 365'
deep, cased 8' with 16" casing and the water stands at 268'. The water
is pumped with a turbine pump which, according to the curve, delivers
1225 GPM. Water is delivered to the land by 128 sprinklers with one
opening of 11/64". The operating pressure is 60#. *See Below.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used to irrigate growing crops. The water is used on
Lots 1 and 2, E $\frac{1}{2}$ NW $\frac{1}{4}$, and on the NE $\frac{1}{4}$ of Section 7, Twp 7 South, Range
25 EBM and a total of 300 acres is being irrigated.

* The well in the NE $\frac{1}{4}$ of Section 7 is 453' deep, cased 12 feet with 16"
casing, and the water stands at 299'. The water is pumped with a turbine
pump which, according to the curve, delivers 1200 GPM. Water is delivered
to the land by 128 sprinklers which have one opening of 11/64". All this
land is in Township 7 South, Range 25 EBM.

G-22166 RWT

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. ---

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. As stated in answer to question 5.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. By assignment.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The water from these wells has been used, through sprinklers, to irrigate annual crops since 1951. The full capacity of both pumps is being used.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

RE: Permits Nos. G-22154, G-22166, & G-22175

Minidoka County News
Rupert, Idaho

Gentlemen:

We have checked the thirty-five notices for proof of completion of works and beneficial use on Permits of the Capital Company appearing in your issue of April 26 and find typographical errors in the three above numbered permits as follows:

In Permit No. G-22154, the tenth line of the first paragraph should read, "NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 26, Town-" and not NW $\frac{1}{4}$, SE $\frac{1}{4}$ as published.

In Permit No. G-22166, in the eighth line of the first paragraph the word the has been omitted from between the words of and waters. In other words that line should read, "6.08 cubic feet per second of the waters"; also in the last paragraph the number 5 has been omitted from the beginning of that paragraph.

In Permit No. G-22175, in the fourteenth line of the first paragraph, the word conditions is misspelled; in the Paragraph numbered 3, a line has been omitted and this paragraph should read, "3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 3.2 cubic feet per second." also in the paragraph numbered 5, the word priority is misspelled.

There were typographical errors in four other notices but these were very minor and we believe it will not be necessary to correct these.

Please make the above stated corrections in your subsequent issues.

Very truly yours,

MARK R. KEMP
State Reclamation Engineer
