INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believe there are water rights for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.
4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

OWNERSHIP OF WATER: Lessor covenants and represents that it is the true and lawful owner of the water rights and that these rights have not lapsed, been abandoned or forfeited either in whole or in part. Lessor makes no covenant or representation about the actual quantities of water that the Department may recognize for transfer or diversion under the water rights, regardless of the amount stated in any permit, claim, or license.

APPLICATION FOR TRANSFER: Lessee shall at its sole expense file all necessary applications with the Department to transfer the places of use and points of diversion of the water rights on a temporary basis. Lessor shall cooperate in securing such transfers and processing such application(s) and shall execute any documents necessary to achieving the transfer. This Lease is conditioned upon the Department's approval of a transfer of the water rights from Lessor's present places of use and points of diversion to places of use and points of diversion located on lands owned or leased by Lessee.

APPROVAL OF TRANSFER: This Lease and any renewals hereof is conditioned upon the Department's approval of a transfer of the water rights from Lessor's present places of use and points of diversion to places of use and points of diversion located on lands owned or leased by Lessee.

TRANSFER OF WATER RIGHTS UPON TERMINATION OF LEASE: Upon the termination of this Lease for any reason, the Lessee shall surrender the water licenses, ^{water permits,} and water rights covered by this Lease to the Lessor. Lessee shall pay such cost promptly and pursue any action necessary to transfer said water rights, water licenses, and water permits back to the Lessor's real property.

NON-LIABILITY OF LESSOR: Lessor shall not be liable for any damage to Lessee sustained by reason of any action of the Department effecting the shutdown of some or all irrigation operations by Lessee under the leased water rights to protect the water rights of other appropriators.

REMEDY ON DEFAULT: In the event Lessee defaults in the performance of any of the covenants or conditions of this Lease, and remains in default for a period of thirty (30) days after receiving written notice of said default from the Lessor, the Lessor may, at its option, terminate this Lease, repossess the leased water rights and transfer the same back to Lessor's property at the cost of the Lessee. PERTAINING TO 26A, 26C, 35B WEST, 2D, 26DW NORTH, AND 34A

THIS LEASE made and entered into this 9th day of JAN, 1990 by and between ACEQUIA, INC., hereinafter called the LESSOR, and BLAINE LARSEN, LARSEN FARMS OF IDAHO and LARSEN FARM, hereinafter called the LESSEE.

WITNESSETH:

PROPERTY LEASED: The Lessor does hereby lease to the Lessee, and the Lessee does hereby lease from the Lessor those certain water rights, licences, and permits described on Exhibit "A." This Lease includes the complete use of said water rights, licenses, and permits.

TERM OF LEASE: The term of this Lease shall be for two years commencing April 1, 1990 and at Lessee's option may be extended for an additional year. Lessee shall notify Lessor in writing of Lessee's desire to extend this Lease for a one year period by no later than November 1, 1991. This Lease or an extension thereof entered into in the future cannot be terminated except upon written agreement by the Lessor and Lessee, or in the event of default.

RENT: Lessee shall pay to the Lessor as rent for said water rights a total of \$22,990.00 for the two year lease period, provided, however, that in the event the Idaho Department of Water Resources ("Department") grants permission to temporarily transfer the above described water rights for a one year period only, then Lessee shall pay to Lessor the sum of \$10.00 per acre per year for a total of \$12,100.00 for each year that this lease or any extension hereof is in effect. The rental amounts stated above for the two year period

RECORDED

APR 17 1990

shall be paid by April 1, 1990 or within 10 days of approval of such temporary transfer and use by the Department whichever occurs later. In the event that lease payments are made on an annual basis because of the action of the Department as provided above, or in the event Lessee exercises its option to extend the lease for a third year, Lessee's annual rental payment shall be paid by April 1 of the crop year in which the water is to be used or within 10 days of the Department's approval of such temporary transfer and use.

OWNERSHIP OF WATER: Lessor covenants and represents that it is the true and lawful owner of the water rights and that these rights have not lapsed, been abandoned or forfeited either in whole or in part. Lessor makes no covenant or representation about the actual quantities of water that the Department may recognize for transfer or diversion under the water rights, regardless of the amount stated in any claim, or license.

APPLICATION FOR TRANSFER: Lessee shall at its sole expense file all necessary applications with the Department to transfer the places of use and points of diversion of the water rights on a temporary basis. Lessor shall cooperate in securing such transfers and processing such application(s) and shall execute any documents necessary to achieving the transfer. This Lease is conditioned upon the Department's approval of a transfer of the water rights from Lessor's present places of use and points of diversion to places of use and points of diversion located on lands owned or leased by Lessee.

APPROVAL OF TRANSFER: This Lease and any extension hereof is conditioned upon the Department's approval of a transfer of the water rights from Lessor's present places of use and points of diversion to places of use and points of diversion located on lands owned or leased by Lessee.

MICROFILMED

TRANSFER OF WATER RIGHTS UPON TERMINATION OF LEASE: Upon the termination of this Lease for any reason, the Lessee shall surrender the water licenses and water rights covered by this Lease to the Lessor. Lessee shall pay such cost promptly and pursue any action necessary to transfer said water rights and water licenses back to the Lessor's real property.

BENEFICIAL USE FOR IRRIGATION: Lessee's purpose in entering into this Lease is to obtain water for use upon land owned or leased by Lessee. During the term of the Lease and during any extension hereof, Lessee shall place to the beneficial use for irrigation purposes all water leased herein.

NON-LIABILITY OF LESSOR: Lessor shall not be liable for any damage to Lessee sustained by reason of any action of the Department effecting the shutdown of some or all irrigation operations by Lessee under the leased water rights to protect the water rights of other appropriators.

REMEDY ON DEFAULT: In the event Lessee defaults in the performance of any of the covenants or conditions of this Lease, and remains in default for a period of thirty (30) days after receiving written notice of said default from the Lessor, the Lessor may, at its option, terminate this Lease, repossess the leased water rights and transfer the same back to Lessor's property at the cost of the Lessee. This remedy is not exclusive and the Lessor shall have any other remedy available to it at law or in equity, including the right to recover rental payments and damages caused by the breach of the Lease.

NOTICES: Any notices required or desired to be given by one party to the other may be given by placing the same in a sealed envelope and mailing the same, postage prepaid, in the United States Mail to the other party at the address hereinafter set forth.

Dear Mr. Kulp:

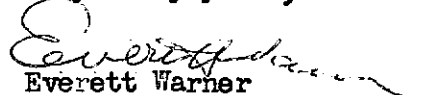

In checking the Certification of Completion of Works and License and Certificate of Water Right forms, there appears to be a slight error in the description in three of the forms and there are being returned so that they can be corrected.

In Permit No. G-22161 Certificate of Completion of Works, the Range number should be changed in "All of Section 10, Township 7 South, Range 24 East B.M."

In Permit No. G-23815 License and Certificate of Water Right form, the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 7 should be changed to the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$. We do not own the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$ which is actually Lot 1 of Section 7.

In Permit NO.G-23816 License and Certificate of Water Right form, the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$ should be changed to the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$. We do not own the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 17, T. 7 S., R. 24 E.

Gentlemen:

We acknowledge receipt of a number of notices in proof of completion of Works and Beneficial Use to be published once a week for four weeks together with authorization for us to have same published in the Minidoka County News.

We have prepared Applications for Amendment to the points of diversion on the above numbered permits and if, after you have checked them over, you find them to be correct, please sign and return to this department as soon as possible in order that the notices may be sent to the paper for publication prior to May 28, the date set for proof. If these applications for amendment are returned promptly there will be time for us to have them sent to the paper in time for four weeks publication, without changing the date for taking the proofs.
