Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. My name is Harold Hove, residence Kimberly, Idaho, occupation farmer, P. O.

Address is Kimberly, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting as an individual, and this permit was obtained from assignment from Wilber L. Hove.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Number 22012, and the date of the permit was April 7th, 1951, and the priority date I propose to establish is March 31, 1951.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Drilled well in NE¹/₄NE¹/₄ Sec. 22, T 10 S - R 20 E.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. My diversion ditch and works are capable of carrying 100" of water. It is all by gravity and private ditch. I have a well drilled to a depth of 450' and it pumps from approximately 385'. The casing is only cased down about 20' and I have a 14" hole. There is very little or no drawdown and the pump is turbine type electric. It is 75 h.p. The pump and motor are set for 65 miner's inches. I can increase this to almost any amount by increasing the facilities here. This has been measured by Layne & Bowler Pump Company. This is all gravity. There is no sprinkler system.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. I use this for agricultural irrigation on NE¹/₄NE¹/₄ Section 22, Township 10 South, Range 20 East, and the entire 80 except a small area for buildings is irrigated. I have spent approximately \$18,000.00, putting this land to beneficial use by the irrigation with this water, and all of these improvements including the breaking up of the land and the ditches, the pump and well. I have a machine shed and a small tenant trailer house on this land.

22012

A907

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. For irrigation only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. I can raise row crop and diversified crops with this amount of water but I could not get by with any less amount.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued; please state how ownership was acquired by present holder.

Ans. I am the assignee of Wilber L. Hove who was the original applicant here. This was obtained by assignment.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. There is no other water applied to this land whatever.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. I started this development immediately after issuance of the permit and allowance after the original desert entry was allowed; then I had my well drilled in 1955 and I have made all the development and improvements since that time, and I have raised 3 crops on this place. There are no other water rights on this land.

Proof of Application of Water to Beneficial Use
Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Eldon Durk, age is 39, I reside 3/4 miles west of Hansen, Idaho, occupation is farming and P. O. Address is Hansen, Idaho.

Ques. 2. Are you acquainted with Harole Hove, the holder of Permit No. 22012? How long have you known him and where does he reside?

Ans. I have known him 11 years, and know that he lives in Kimberly, Idaho.

Ques. 3. Have you read or heard read said Permit No. 22012, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. From a drilled well located in NE 1/4 Sec. 22, T 10 S - R 20 E. The works consist of well drilled to 450' and cased 20". This has a 14" hole, and pumps from 385'. It is equipped with turbine type motor, 75 h.p.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I have seen this conveying 65" of water and is capable of carrying at least 100".

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen the pump deliver 65 miners inches and I figure this by having seen pumps delivering water.

22012

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation on ~~N 1/4~~ Section 22, T 10 S - R 20 E. All 80 acres is irrigated except for a small part for buildings. There is no natural meadow land and all improvements have been made as a direct result of this use.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This is a portneuf silt loam soil, and I figure it will take at least 1" to the acre for irrigation here.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have land close to this, and have seen this since it was developed, several times a year.

Re: Water Permit #22012, Wilbur L. Hove

With regard to the above water permit, please be advised that I have made every effort to comply with the requirements in completing the works on this; however, my desert entry was not allowed until October 30, 1952 under Idaho Serial #01917.

I hereby respectfully request that you grant a five year extension from the date of this allowance which would be October 30, 1957 for me to complete these works.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mr. Wilber L. Hove
419 N. 9th
Boise, Idaho

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. 22012 you are required to complete your diversion works on or before April 7, 1956. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP
