BILL TO
Pte 2 - Hansen, Ida.

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 a.m., on the 8th day of July, 1955, at Boise, County of Ada, State of Idaho, before Harley M. McDowell, Notary Public, proof will be submitted of the completion of works for the diversion of 3.2 cubic feet per second of the waters of subterranean source and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 21883 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Isabelle Larsen, Rt. 2, Hansen, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 3.2 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 3.2 cubic feet per second.

4. The place where said water is used is SE¼, Sec. 22, T 10 S — R 20 E, B.M. and the well is located in the NE¼SE¼ of said Section.

5. The date of priority which said user is prepared to establish is January 15, 1951.

MARK R. KULP,
State Reclamation Engineer.

APPLICATION FOR PERMIT *36-2106*

To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 29608
 PERMIT No. 21883
 DISTRICT No.

1. Name of Applicant: ISABELLE LARSEN

Postoffice address: Route 2, Hansen

County: Twin Falls

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (b) Treasury stock:
- (d) Other resources:

(a) Cash on hand:

(c) Bonds to be issued:

2. Quantity of water claimed: 3.20

cubic feet per second.

3. Source of water supply: Subterranean flow from a well

which is a tributary of

4. Location of point of diversion:

feet distant from the

corner of Section , T. , R. , B. M., and is in the NE $\frac{1}{4}$ SE $\frac{1}{4}$

of Section 22 , T. 10 S. , R. 20 E. , B.M., County of Jerome

5. Water is to be used for Irrigation and domestic purposes.

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B.M., in the of Section , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section , T. , R. , B.M., in the

of Section , T. , R. , B.M.

7. Estimated cost of works: \$ 8,000.00

8. Kind of works: Well, pump and ditches.

9. Height of dam feet; length of dam at top

feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width feet; height

feet.

11. Ditch: Width at bottom feet; width at water line

feet; depth of water

feet;

dimensions of flume:

Diameter of pipe

inches; length of conduit

miles.

Average grade per mile

feet.

12. The time required for the completion of such work is Five (5) years.

13. The time required for the complete application of the water to the proposed use is Six (6)

additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None

16. (a) Is reservoir to be used? If so, fill in (b) and (c) below:
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

Dear Madam:

State law requires that a field inspection be made by an engineer from this department on any permit being brought to license within the State of Idaho.

I intend to make inspection in connection with your permit on Friday morning, July 6, at 10:00 A.M.

Please be prepared to accompany me on the inspection.

I will drive to the place where the well is located if I do not contact you sooner.

Very truly yours,

MARK R. KULP

Dear Madam:

State law requires inspection in connection with any permit being brought to license in the State of Idaho.

I intend to make inspection in connection with your permit on Thursday, October 20.

Please have someone familiar with the works available to accompany me on the inspection. If the power is turned off on the well, it is probable that we will be unable to complete the inspection. I realize it is getting late in the season but hope to make the inspection if possible.

Yours truly,

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 a.m., on the 8th day of July, 1955, at Boise,

County of Ada, State of Idaho, before Harley M. McDowell, Notary Public, proof will be submitted of the completion of works for the diversion of 3.2 cubic feet per second of the waters of subterranean source and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 21883 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Isabelle Larsen, Rt. 2, Hansen, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 3.2 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 3.2 cubic feet per second.

4. The place where said water is used is SE¼, Sec. 22, T 10 S - R 20 E, B.M. and the well is located in the NE¼SE¼ of said Section.

5. The date of priority which said user is prepared to establish is January 15, 1951.

MARK R. KULP,
State Reclamation Engineer.

Deposition of Holder and Completion of Works

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. My name is Isabelle Larsen, residence, 5 3/4 miles south of Hansen, Idaho.

Occupation, housewife, Postoffice address is Route 2, Hansen, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting as an individual

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. My permit is #21883 and the date of this permit is January 26, 1951 and the date of priority is January 15th, 1951

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Sub-terranean, to be raised through a drilled well, which is located in the NE 1/4 SE 1/4 Section 22, Township 10, South Range 20 East.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The works consist of a drilled well 465' deep with a lift of 352', a 16" hole equipped with a 8" column pump, which is capable of delivering 128 Miner's inches. A turban type motor with 125 horsepower. Also distribution surface works including 3700' of re-inforced concrete 12" syphon and gravity ditches for surface distribution. This was determined by my experience from seeing water delivered over irrigated land and knowing that it takes approximately 1 Miner's inch to an acre. This adequately irrigates all of the area. It is not necessary to have a sprinkling system.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used for irrigation and the place of use is T10 S R 20 E Sec 22 The NE 1/4 SE 1/4, SW 1/4 SE 1/4. The entire 120 acres is cultivated and none of it will produce natural meadow and all the improvements have been made, including the above which cost Well \$4200.00, pump & motor \$9980.00 Syphon \$1600 and land preparation \$1600.00 as a direct result of this irrigation use.

21883

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. For no other purpose than irrigation.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. In my opinion it takes at least the amount of water that is produced by this pump to fully irrigate the land included.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the person who originally was issued this permit.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water is first distributed through these works and raised by this pump from sub-terranean sources for 1955. The first water was turned in May 24th, and has been fully utilized for irrigation during the entire current season.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There is no other water important or diverted on any other permit or applied in any manner for beneficial upon these lands from any other source.

BOISE, IDAHO

Permit No. 21883

Proof of Application of Water to Beneficial Use
Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is Harvey A. Pierce, my age is 43 and residence is 1881 Addison East, Twin Falls, Idaho, occupation is Insurance and Postoffice address 1881 Addison East Twin Falls, Idaho.

Ques. 2. Are you acquainted with Isabelle Larsen, the holder of Permit No. 21883? How long have you known him and where does he reside?

Ans. I have known Mrs. Larsen approximately 6 years and know that she now resides 5 3/4 miles South of Hansen, Idaho.

Ques. 3. Have you read or heard read said Permit No. 21883, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. The source of water is sub-terranean and the place of diversion is the NE $\frac{1}{4}$ SE $\frac{1}{4}$ and the works consist of drilled well 465' deep with a lift of 352', a 16" hole equipped with a 8" column pump, which is capable of delivering 128 miner's inches. A turban type motor with 125 horsepower. Also distribution surface works including 3700' of reinforced concrete 12" syphon and gravity ditches for surface distribution.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. In my estimation, I believe this works and pump will conduct more than 120 Miners inches safely to the place of use and I have seen this much water so conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen at least 120 Miner's inches delivered from this well and works, and my estimation is made on my experience from seeing irrigation water measured and delivered on irrigated land.

21883

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. ~~The water was used for irrigation and the entire 120 acres is irrigated~~
(N $\frac{1}{2}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 22, T 10 S R 20 E.) and the land is cultivated and the improvements for the cost of the pump, the well drilling and the land preparation and the syphoning are in excess of \$20,000.00. All is a direct result of this irrigation use.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. ~~The water is for irrigation.~~

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. ~~The character of the land has been reclaimed its a lava/soil, deep, very productive and in my opinion would take at least the water which is now being produced for a profitable cultivation.~~ Ash

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. ~~I have no interest in the works, the water or lands mentioned above.~~

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. ~~I have been to this location and have seen the water so distributed and used at least a half dozen times during the current 1955 season.~~

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is Howard J. Larsen, my age is 60 and I reside 5 miles South of Hansen
My occupation is farming and my post office address is Rt. 2 Hansen, Idaho.

Ques. 2. Are you acquainted with Isabelle Larsen, the
holder of Permit No. 21883? How long have you known him and where does
he reside?

Ans. I have known Mrs. Larsen approximately 25 years and know that she now resides
5 3/4 miles South of Hansen, Idaho.

Ques. 3. Have you read or heard read said Permit No. 21883, and are you
familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. The source of water is sub-terranean and the place of diversion is the NE 1/4 SE 1/4
and the works consist of drilled well 465' deep with a lift of 352', a 16" hole equip-
ed with a 8" column pump, which is capable of delivering 128 miner's inches. A turban
type motor with 125 horsepower. Also distribution surface works including 3700' of re-
inforced concrete 12" syphon and gravity ditches for surface distribution.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. In my estimation, I believe this works and pump will conduct more than 120 -
Miner's inches safely to place of use and I have seen this much water so conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. I have seen at least 120 miner's inches delivered from this well & works,
and my estimation is made on my experience from seeing irrigation water measured
and delivered on irrigated land.

21883

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water was used for irrigation and the entire 120 acres is irrigated.
(N $\frac{1}{2}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 22, T 10 S R 20 E.) and the land is cultivated and the im-
provements for the cost of the pump, the well drilling and the land preparation and
siphoning are in excess of \$20,000. All is a direct result of this irrigation use.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. The water is for irrigation.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The character of the land has been reclaimed. Its a lava ash soil, deep, very
productive and in my opinion would take at least the water which is now being produced
for a profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest in the water the works or the lands above mentioned.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I am very familiar with this land, in fact I have worked on it for some time
during the initial developement and have had occassion to see it very often since
the entire project was started.
